To Whom It May Concern:

Hello! I know a way that you can go about obtaining charging stations for electric vehicles through the Volkswagen cheating scandal settlement. My company, Revitalize Charging Solutions, design and manufacture charging stations right here in Fort Worth, Texas. As a neighboring city, this would be a great partnership to deploy charging infrastructure across the DFW as we are receiving request every day for more infrastructure. Being a small business, this type of partnership will aid us in the development of infrastructure that we already have out and the future development. Could we set up a time to meet and discuss the our charging station program?
