Subject: VW Settlement Funds - We need more electric vehicle infrastructure
Date: Wednesday, February 28, 2018 4:59:50 PM

I am a resident of Hurst, TX zip code: 76053. I would like to see money from the settlement get put into electric vehicle infrastructure. I know I personally want to get an electric vehicle in the near future and I believe we need to embrace this technology and what it could mean not just for residential traffic but also commercial purposes. The money would be better spent on the future with electric vehicles.
