Subject: VW settlement CNG vehicles need to be treated as well as electric vehicle
Date: Sunday, March 11, 2018 7:12:12 PM

I drive a bi-fuel pickup truck in my oil & gas business. It burns both gasoline & CNG. I try to minimize the gasoline I burn even though I make my living producing oil wells. When burning CNG the emissions emitting from my tailpipe are less than 50% of what is emitted when I'm burning gasoline.

Please support treating CNG vehicles similarly as electric vehicles with money from the VW settlement funds.

Thank you,
Mark Carpenter
