## **Emissions Reduction Incentive Grant Application**

### **Supplemental Form 1: Program-Specific Certifications**

By signing this application, the applicant indicates its understanding of and agreement to adhere to the identified program-specific requirements.

The applicant hereby assures and certifies compliance with all state statutes, regulations, policies, guidelines, and requirements as they relate to the application, acceptance, and use of funds for this project. The applicant further understands, assures, and/or certifies to the conditions listed below.

- 1.** To the best of its knowledge, the proposed activities are not required by any state or federal law, rule, or regulation, memorandum of agreement, or other legally binding document.
- 2.** It understands that any marketable credits under state or federal emissions reduction credit averaging, banking, or trading programs, that may be generated by the proposed activities, are transferred to the state implementation plan or permanently retired, and may not be used by the applicant. If the project is funded, the applicant waives, for all time, its right to claim emissions reduction credits which may accrue during the activity life as a result of the use of the low-emission technology which is funded under this program, and agrees not to apply for any such credits based on reductions generated in the eligible counties. Credits that accrue after the end of the activity life are not transferred, but may not be used to calculate the cost-effectiveness of the project.
- 3.** All public financial incentives that will be used by the applicant that directly offset the costs of the proposed activities, including tax credits or deductions, other grants, or any other public financial assistance have been properly listed where indicated on the application forms and the incentive amounts requested reflect a reduction in the eligible incremental costs based on the value of those incentives.
- 4.** It understands that failure to achieve the NOx emissions reductions projected to be achieved for this project may result in the TCEQ requiring the return of all or a share of the grant funds. Achievement of the emission reductions will be based on the grant equipment being used for the annual amount of hours, miles, or fuel use that occurs in the eligible counties, as designated in the application for that activity.
- 5.** It understands that failure to operate the grant equipment for the annual usage and percentage of annual use in the eligible counties as designated in the application may be considered non-compliance with the grant agreement and may result in the TCEQ requiring return of all or a share of the grant funds.
- 6.** It will monitor the use of grant-funded vehicles, equipment, infrastructure, or qualifying fuel, and report semi-annually to the TCEQ over the designated activity life. If a TCEQ-approved GPS system is installed, it agrees to maintain and use that system and to verify the data reported in accordance with the provisions of the grant contract.
- 7.** It will notify the TCEQ of any termination of use, change in use, sale, transfer, or destruction of grant-funded vehicles or equipment, or change in use of qualifying fuel, during the activity life. It further agrees that, during the activity life, the TCEQ may be entitled to the return of all or a share of the grant funds for any loss of emissions reductions compared with the emissions reductions projected in awarding the grant.
- 8.** It will maintain, for the term of the activity, property loss insurance or self-insurance coverage on any vehicles, equipment, or infrastructure acquired, leased, repowered, retrofitted, or constructed using these funds, sufficient to cover the costs of reimbursing the state for its pro rata share of the activity costs.

Under the direction of the legislative audit committee, the applicant or other entity that is the subject of an audit or investigation by the state auditor must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit. Applicant will ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through the vendor and the requirement to cooperate is included in any subcontract it awards.
