

**Texas Natural Gas Vehicle Grant Program**  
**Supplemental Form 2: Agricultural Product Transportation**

**Determination of Grant Amount**

Does this form apply to all activities in the application? <i>Complete a separate Form 14 for activities operating different percentages in the eligible areas.</i>	
List the type of transportation business: <i>i.e. transportation of dairy</i>	
List the specific agricultural product the vehicle will be transporting:	
List the final destination (county) to which the agricultural product will be delivered:	
Will the vehicle listed in the application be used "solely" as a transporter of agricultural product?	

For vehicles used solely for agricultural product transportation purposes, the TCEQ may exempt the applicant from the requirement that 75% of the annual mileage occur in the eligible counties listed in the application and contract documents. Projects with different percentages allocated in the eligible areas must submit a separate Form 14 for each vehicle(s).

**Explain below in detail** how the vehicle being replaced or repowered has been used and how the upgraded vehicle will be used for agricultural product transportation purposes.

**Note:** Projects involving the transport of raw agricultural product must be using a heavy-duty truck to transport the raw agricultural product from the place of production to:

- a. a nonattainment area;
- b. an affected county;
- c. a destination inside the CTZ; or
- d. a county adjacent to the above counties and areas.
