RE: Comparison of Healy 800 Series On-Board Refueling Vapor Recovery (ORVR) Nozzles with Healy 400 Series ORVR Nozzles on 9000 CVS Systems

Dear Mr. Schuster:

The Texas Commission on Environmental Quality has reviewed the "Comparison of Healy 900 Series ORVR Nozzles with Healy 400 Series ORVR Nozzles on 9000 CVS Systems," dated March 18, 2009. In accordance with Title 30 Texas Administrative Code (30 TAC) §115.243(2), the system must be independently certified by a third party. Mr. Bob McKinney, of Ken Wilcox Associates, Inc., conducted the third-party evaluation.

The system tested for approval is the Healy 800 Series Nozzle and Hanging Hardware when used with the Healy 9000 MiniJet CVS System. In accordance with 30 TAC §115.243(2), the above-described system and components, as applicable to existing or new installations, is **hereby approved as an ORVR Compatible Stage II system for use in Texas** when installed and operated in accordance with manufacturer recommendations.

If any further assistance is needed, you may call Koy Howard of my staff at (512)239-2306.

Sincerely,

A handwritten signature in cursive script that reads "Susana M. Hildebrand".

Susana M. Hildebrand, P.E.
Chief Engineer
