Section 5. Property Description, Applicable Rule, and Environmental Benefit
For each piece, or each category, of pollution control property for which a use determination is being sought, answer the following questions.

Attach additional response sheets to the application for each piece of integrated pollution control property if a use determination is being sought for more than one (1) piece.

General Information
1. Name the property: Baghouse for Rock Crusher
2. Is the property used 100% as pollution control equipment? Yes ☑ No ☐
**Explain your answer:** Used solely to prevent particulate emission from rock crusher.

3. Does the property generate a Marketable Product? Yes ☐ No ☑

**Marketable Product:** Anything produced or recovered using pollution control property that is sold as a product, is accumulated for later use, or is used as a raw material in a manufacturing process. Marketable product includes, but is not limited to, anything recovered or produced using the pollution control property and sold, traded, accumulated for later use, or used in a manufacturing process (including at a different facility).

*If the answer is ‘Yes,’ describe the marketable product:* The material collected will be sent to a landfill for disposal.

4. What is the appropriate Tier I Table or Expedited Review List number? A-1

5. Is the property integrated pollution control equipment? Yes ☑ No ☐

*If the answer is ‘No,’ separate applications must be filed for each piece of property.*

6. List applicable permit number(s) for the pollution control property: 001

**Incremental Cost Difference**

7. Is the Tier I Table item number A-86, A-112, A-114, A-182, or S-22? Yes ☐ No ☑

*If the answer is ‘Yes,’ the use determination percentage is based on the incremental cost difference and you must answer the following questions:*

8. What is the cost of the new piece of property?

9. What is the cost of the comparable property without controls?

10. How was the value of the comparable property calculated?

**Property Description**

11. Describe the property. (What is it? Where is it located within the production process? How is it used to control, prevent, or monitor pollution?) Installed a new baghouse for rock crusher. It will be used to control particulate releases from the rock crusher. The material collected will be sent to a landfill for disposal.

**Applicable Rule**

12. What adopted environmental rule or regulation is being met by the construction or installation of the property? The citation must be to the specific section, subsection, paragraph, subparagraph, or clause level. Describe how the property meets or exceeds the requirements. 30 TAC 111.111(a)(8) includes opacity limits which are met by the use of the baghouse.

**Environmental Benefit**

13. What is the anticipated environmental benefit related to the construction or installation of the property? Use of the baghouse will reduce particulate matter emissions from the rock crusher.

**Section 6. Process Flow Diagram (Optional)**

Attach documentation to the application showing a Process Flow Diagram for the property.
Section 7. Partial-Use Percentage Calculation

This section must be completed for all Tier III applications. Attach documentation to the application showing the calculations used to determine the partial-use percentage for the property.

Section 8. Property Categories and Costs

List each piece of integrated pollution control property for which a use determination is being sought.
