

Air Pollutant Watch List Area
Texas Commission on Environmental Quality
APWL1202 - Propionaldehyde
Texas City, Galveston County, Texas

This map was generated by the Air Permits Division (APD) of the Texas Commission on Environmental Quality in December 2014. No claims are made to the accuracy or completeness of the data, or to the suitability of the map for a particular use. This APWL area of concern may contain facilities, which have not been identified by the APD. For more information regarding this map, please contact the APWL Coordinator at 512-239-6033.

Where is the area of concern located?

- South of T X Avenue/State Hwy 348
- East of Hwy 146
- West of Galveston Bay (West Bay)

Why is this location and pollutant(s) on the APWL?

Propionaldehyde

During the 2000 and 2001 mobile monitoring projects, concentrations of propionaldehyde were detected above the odor-based air monitoring comparison value (AMCV) downwind of Dow Chemical (formerly Union Carbide). Although no odorous levels were detected in the 2004 mobile monitoring project, odorous levels were detected during the 2008 mobile monitoring project.
