

The Texas Commission on Environmental Quality (TCEQ, agency, or commission) proposes amendments to §§293.11, 293.32, 293.41, 293.51, and 293.81.

Background and Summary of the Factual Basis for the Proposed Rules

The 82nd Legislature, 2011, passed House Bill (HB) 679 and HB 1901 and Senate Bill (SB) 18, SB 512, SB 914, and SB 1234. HB 679 increased the allowable district change order amount and amended Texas Water Code (TWC), §49.273(i). HB 1901 applies to the executive director's bond approval provisions. HB 1901 amended TWC, §§49.181(a) and (h), 49.052(f), and 49.183(d) to allow an exemption from executive director approval for bonds issued by a public utility agency. SB 18 amended TWC, §54.209 to place additional limits on eminent domain power of a municipal utility district (MUD) outside of its corporate boundary. SB 512 amended TWC, §53.063, to redefine the qualifications of supervisors of a fresh water supply district (FWSD). SB 914 amended TWC, §49.181, to allow an exemption from executive director approval for bonds issued by a conservation and reclamation district located in at least three counties that has the rights, powers, privileges and functions applicable to a river authority. SB 1234 amended Local Government Code, §375.022, to allow a municipal management district (MMD) to include, within its creation petition, a boundary description using verifiable landmarks and a descriptive name followed by the phrase "improvement district."

The commission has the statutory responsibility and authority to create, supervise, and

dissolve certain water and water-related districts and to review the sale and issuance of bonds for district improvements in accordance with TWC, Chapters 12, 36, and 49 - 67. The commission oversees approximately 1,500 active water districts in Texas. Chapter 293 of the commission's rules governs the creation, supervision, and dissolution of most general and special law districts and the conversion of certain districts. Chapter 293 also governs the commission's review of bond applications by districts relating to engineering standards and economic feasibility of district construction, project design, and completion.

The proposed rulemaking would add or amend requirements relating to the administration of water districts and the commission's supervision over districts' actions under TWC, Chapters 49, 53, and 54, and Local Government Code, Chapter 375. The proposed revisions amend and clarify commission rule language to conform with the statutory changes made to TWC, Chapters 49, 53, and 54, and Local Government Code, Chapter 375 from HB 679, HB 1901, SB 18, SB 512, SB 914, and SB 1234. Specifically, the proposed rules would increase the amount of construction project change orders exempt from commission review from \$25,000 to \$50,000 (HB 679); provide special provisions which exempt bonds issued by a public utility agency from executive director approval (HB 1901); place additional limits on the eminent domain power of a MUD outside of its corporate boundary (SB 18); provide an alternative election qualification for an FWSD director (SB 512); provide for the exemption of a conservation and

reclamation district located in at least three counties that has the rights, powers, privileges, and functions applicable to a river authority from the requirement of obtaining prior bond approval from the commission (SB 914); and allow an MMD to include within its creation petition a boundary description using verifiable landmarks and a descriptive name followed by the phrase "improvement district" (SB 1234).

In a corresponding rulemaking published in this issue of the *Texas Register*, the commission also proposes revisions to 30 TAC Chapter 291, Utility Regulations.

Section by Section Discussion

In addition to implementation of the state laws discussed previously, the commission proposes administrative changes to conform with *Texas Register* requirements.

§293.11, Information Required to Accompany Applications for Creation of Districts

The commission proposes to amend §293.11(j)(1)(A) and (D) to stipulate that a MMD may include, within its creation petition, a boundary description using verifiable landmarks and a descriptive name followed by the phrase "improvement district." This proposed rule change is consistent with Local Government Code, Chapter 375, as amended by SB 1234 and with TWC, Chapters 49 and 54.

§293.32, Qualifications of Directors

The commission proposes to amend §293.32(a)(1)(B) to reflect a modification for election qualifications of an FWSD director. This proposed rule change is consistent with TWC, §53.063, as amended by SB 512.

§293.41, Approval of Projects and Issuance of Bonds

The commission proposes to amend §293.41(a) and (d) to reflect that a district is not required to obtain commission approval of its bonds if the district is a river authority as defined by TWC, Chapter 30, located entirely in at least three counties; or a public utility agency having at least one of the participating public entities being a MUD located entirely in only two counties, outstanding long-term indebtedness that is rated BBB or better by a nationally recognized rating agency for municipal securities, and has at least 5,000 active water connections. The proposed amendment is consistent with Local Government Code, Chapter 572; TWC, Chapter 30; and, TWC, §49.181, as amended by HB 1901 and SB 914.

§293.51, Land and Easement Acquisition

The commission proposes to amend §293.51(e)(2) - (4) to reduce potential confusion by reflecting a MUD's restriction in the use of eminent domain powers outside of its boundaries. The proposed amendment is consistent with TWC, §54.209, as amended by SB 18. The commission also proposes an amendment to §293.51(g) to correct a misspelling.

§293.81, Change Orders

The commission proposes to amend §293.81(2) and (3) to reflect an increase to \$50,000 to an allowable change order consistent with TWC, §49.273(i), as amended by HB 679.

Fiscal Note: Costs to State and Local Government

Nina Chamness, Analyst, Strategic Planning and Assessment, has determined that, for the first five-year period the proposed rules are in effect, no significant fiscal implications are anticipated for the agency or other units of state or local government as a result of administration or enforcement of the proposed rules. The agency would use existing resources to implement the proposed rules.

The proposed rules would amend Chapter 293 to incorporate provisions of HB 679, HB 1901, SB 18, SB 512, SB 914, and SB 1234. Specifically, the proposed rules would increase the amount of construction project change orders exempt from commission review from \$25,000 to \$50,000 (HB 679); provide special provisions which would exempt public utility bond issuances from executive director approval (HB 1901); place additional limits on the eminent domain power of a MUD outside of its corporate boundary (SB 18); provide an alternative election qualification for an FWSD director (SB 512); provide for the exemption of a conservation and reclamation district located in at least three counties that has the rights, powers, privileges, and functions applicable to a river authority from the requirement of obtaining prior bond approval from the

commission (SB 914); and allow an MMD to include, within its creation petition, a boundary description using verifiable landmarks and a descriptive name followed by the phrase "improvement district" (SB 1234).

The agency oversees approximately 1,500 active water districts in Texas. The proposed rules are administrative in nature and afford additional flexibility and efficiency to water districts regarding their administration and operation. The proposed rules could reduce water district costs, but any cost reductions are not expected to be significant. The significance of any fiscal impact of the proposed rules would vary among water districts and would depend on the unique operating environment of each district.

Public Benefits and Costs

Nina Chamness also determined that for each year of the first five years the proposed rules are in effect, the public benefit anticipated from the changes seen in the proposed rules will be compliance with state law and greater operating flexibility for water districts while protecting the environment and public health and safety.

The proposed rules would not have a significant fiscal impact on individuals or large businesses. The proposed rules are administrative in nature and afford additional flexibility and efficiency to water districts regarding their administration and operation. Developers could experience benefits from the efficiency gains under the proposed rules.

However, the significance of any fiscal impact of the proposed rules would vary among water districts and would depend on the unique operating environment of each district and each developer.

Small Business and Micro-Business Assessment

No adverse fiscal implications are anticipated for small or micro-businesses under the proposed rules.

Small Business Regulatory Flexibility Analysis

The commission has reviewed this proposed rulemaking and determined that a small business regulatory flexibility analysis is not required because the proposed rules are required to comply with state law and do not adversely affect a small or micro-business in a material way for the first five years that the proposed rules are in effect.

Local Employment Impact Statement

The commission has reviewed this proposed rulemaking and determined that a local employment impact statement is not required because the proposed rules do not adversely affect a local economy in a material way for the first five years that the proposed rules are in effect.

Draft Regulatory Impact Analysis Determination

The commission has reviewed these proposed amendments to Chapter 293 in light of the regulatory analysis requirements of Texas Government Code, §2001.0225, and determined that this rulemaking project is not a "major environmental rule" as defined in the Texas Administrative Procedure Act and thus is not subject to the other provisions of Texas Government Code, §2001.0225.

A "major environmental rule" is a rule that is specifically intended to protect the environment or reduce risks to human health from environmental exposure, and that may adversely affect in a material way the economy, productivity, competition, jobs, the environment, or the public health and safety of the state or a sector of the state (See Texas Government Code, §2001.0225(g)(3)). The proposed amendments do not meet those qualifications where the primary purpose of this rulemaking initiative is to create and amend rules in Chapter 293 to remain consistent with the statutory changes set forth in HB 679, HB 1901, SB 18, SB 512, SB 914, and SB 1234. As to these six enacted bills, this rulemaking initiative proposes to modify rules within Chapter 293 to accomplish the following: (1) providing authority to approve a change order that involves an increase or decrease of \$50,000 or less; (2) providing exemption from the executive director's approval of bonds issued by a public utility agency having at least one of the participating public entities being a MUD located entirely in only two counties, outstanding long-term indebtedness that is rated BBB or better by a nationally recognized rating agency for municipal securities, and has at least 5,000 active water

connections; (3) limiting the circumstances under which a district may exercise its authority to exercise the power of eminent domain outside the district's boundaries; (4) modifying the qualifications to be a supervisor of an FWSD; (5) providing exemption from the executive director's approval of bonds issued by a district that is a river authority as defined by TWC, Chapter 30, located entirely in at least three counties; and (6) allowing in the creation petition of an MMD a description of its boundaries by verifiable landmarks and including its name that is generally descriptive of its location followed by "Management District" or "Improvement District." While the commission has general jurisdiction over districts and authority to propose rules impacting districts, these proposed changes to the operating processes of districts are not specifically intended to protect the environment or reduce risks to human health from environmental exposure. Therefore, the proposed rulemaking does not constitute a major environmental rule and is not subject to the regulatory analysis provisions of Texas Government Code, §2001.0225.

The commission invites public comment regarding this draft regulatory impact analysis determination. Written comments on the draft regulatory impact analysis determination may be submitted to the contact person at the address listed under the Submittal of Comments section of this preamble.

Takings Impact Assessment

The commission evaluated these proposed rules and performed an assessment of whether these proposed rules constitute a taking under Texas Government Code, Chapter 2007. The purpose of this proposed rulemaking action is to keep the commission's rules consistent with the changes in TWC, Chapters 12, 36, and 49 - 67 made in HB 679, HB 1901, SB 18, SB 512, SB 914, and SB 1234. The proposed rules would substantially advance this stated purpose because these proposed changes impact a district's ability to increase the allowable change order amount, exempt bonds issued by a public utility agency from executive director approval, further limit eminent domain powers of a MUD outside its boundary, modify the election qualifications for an FWSD director, and exempt bonds issued by certain multi-county districts from the executive director's approval.

Promulgation and enforcement of these proposed rules regarding the operations of districts would be neither a statutory nor a constitutional taking of private real property. The proposed regulations do not affect a landowner's rights in private real property, in whole or in part, temporarily or permanently, because this rulemaking does not burden, restrict or limit the owner's right to property or reduce its value by 25% or more beyond that which would otherwise exist in the absence of the regulations. The statutory changes set forth in HB 679, HB 1901, SB 18, SB 512, SB 914, and SB 1234 also do not impact private real property rights. Specifically, private real property rights do not

pertain to a district's ability to increase the allowable change order amount, exempt bonds issued by a public utility agency from the executive director's approval, further limit eminent domain powers of a MUD outside its boundary, modify the election qualifications for an FWSD director, or exempt bonds issued by certain multi-county districts from commission approval. In addition, while the issue of eminent domain may pertain to private real property rights, the proposed rule changes implementing SB 18 do not impact these property rights where the rules reduce the circumstances when a district can exercise this power. Thus, these proposed rules do not impose a burden on private real property but instead benefit society by improving the process for districts to operate and for the commission to supervise, which should ultimately improve the quality of service that is provided to their customers. Therefore, the proposed amendments do not constitute a taking under Texas Government Code, Chapter 2007.

Consistency with the Coastal Management Program

The commission reviewed the proposed rulemaking and found the proposal is a rulemaking identified in the Coastal Coordination Act Implementation Rules, 31 TAC §505.11(b)(4), relating to rules subject to the Coastal Management Program, and will, therefore, require that goals and policies of the Texas Coastal Management Program (CMP) be considered during the rulemaking process.

The commission reviewed this rulemaking for consistency with the CMP goals and

policies in accordance with the regulations of the Coastal Coordination Advisory Committee and determined that the rulemaking is procedural in nature and will have no substantive effect on commission actions subject to the CMP and is, therefore, consistent with CMP goals and policies.

Written comments on the consistency of this rulemaking may be submitted to the contact person at the address listed under the Submittal of Comments section of this preamble.

Announcement of Hearing

The commission will hold a public hearing on this proposal in Austin on December 4, 2012, at 2:00 p.m. in Building E, Room 201S, at the commission's central office located at 12100 Park 35 Circle. The hearing is structured for the receipt of oral or written comments by interested persons. Individuals may present oral statements when called upon in order of registration. Open discussion will not be permitted during the hearing; however, commission staff members will be available to discuss the proposal 30 minutes prior to the hearing.

Persons who have special communication or other accommodation needs who are planning to attend the hearing should contact Sandy Wong, Office of Legal Services at (512) 239-1802. Requests should be made as far in advance as possible.

Submittal of Comments

Written comments may be submitted to Michael Parrish, MC 205, Office of Legal Services, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, Texas 78711-3087, or faxed to (512) 239-4808. Electronic comments may be submitted at: <http://www5.tceq.texas.gov/rules/ecomments/>. File size restrictions may apply to comments being submitted via the eComments system. All comments should reference Rule Project Number 2011-055-293-OW. The comment period closes December 10, 2012. Copies of the proposed rulemaking can be obtained from the commission's Web site at http://www.tceq.texas.gov/nav/rules/propose_adopt.html. For further information, please contact Kent Steelman, Utilities & Districts Section, (512) 239-5143.

SUBCHAPTER B: CREATION OF WATER DISTRICTS
§293.11

Statutory Authority

The amendment is proposed under the authority of Texas Water Code (TWC), §5.103, which provides the commission's authority to adopt any rules necessary to carry out its powers and duties under the laws of Texas.

The proposed amendment implements TWC, §49.052(f) and §49.181(a) and (h).

§293.11. Information Required to Accompany Applications for Creation of Districts.

(a) Creation applications for all types of districts, excluding groundwater conservation districts, shall contain the following:

(1) \$700 nonrefundable application fee;

(2) if a proposed district's purpose is to supply fresh water for domestic or commercial use or to provide wastewater services, roadways, or drainage, a certified copy of the action of the governing body of any municipality in whose extraterritorial jurisdiction the proposed district is located, consenting to the creation of the proposed

district, under Local Government Code, §42.042. If the governing body of any such municipality fails or refuses to grant consent, the petitioners must show that the provisions of Local Government Code, §42.042, have been followed;

(3) if city consent was obtained under paragraph (2) of this subsection, provide the following:

(A) evidence that the application conforms substantially to the city consent; provided, however, that nothing herein shall prevent the commission from creating a district with less land than included in the city consent;

(B) evidence that the city consent does not place any conditions or restrictions on a district other than those permitted by Texas Water Code (TWC), §54.016(e) and (i);

(4) a statement by the appropriate secretary or clerk that a copy of the petition for creation of the proposed district was received by any city in whose corporate limits any part of the proposed district is located;

(5) evidence of submitting a creation petition and report to the appropriate commission regional office;

(6) if substantial development is proposed, a market study and a developer's financial statement;

(7) if the petitioner is a corporation, trust, partnership, or joint venture, a certificate of corporate authorization to sign the petition, a certificate of the trustee's authorization to sign the petition, a copy of the partnership agreement or a copy of the joint venture agreement, as appropriate, to evidence that the person signing the petition is authorized to sign the petition on behalf of the corporation, trust, partnership, or joint venture;

(8) a vicinity map;

(9) unless waived by the executive director, for districts where substantial development is proposed, a certification by the petitioning landowners that those lienholders who signed the petition or a separate document consenting to the petition, or who were notified by certified mail, are the only persons holding liens on the land described in the petition;

(10) if the petitioner anticipates recreational facilities being an intended purpose, a detailed summary of the proposed recreational facility projects, projects'

estimated costs, and proposed financing methods for the projects as part of the preliminary engineering report; and

(11) other related information as required by the executive director.

(b) Creation application requirements and procedures for TWC, Chapter 36, Groundwater Conservation Districts, are provided in Subchapter C of this chapter (relating to Special Requirements for Groundwater Conservation Districts).

(c) Creation applications for TWC, Chapter 51, Water Control and Improvement Districts, within two or more counties shall contain items listed in subsection (a) of this section and the following:

(1) a petition as required by TWC, §51.013, requesting creation signed by the majority of persons holding title to land representing a total value of more than 50% of value of all land in the proposed district as indicated by tax rolls of the central appraisal district, or if there are more than 50 persons holding title to land in the proposed district, the petition can be signed by 50 of them. The petition shall include the following:

(A) name of district;

(B) area and boundaries of district;

(C) constitutional authority;

(D) purpose(s) of district;

(E) statement of the general nature of work and necessity and feasibility of project with reasonable detail; and

(F) statement of estimated cost of project;

(2) evidence that the petition was filed with the office of the county clerk of the county(ies) in which the district or portions of the district are located;

(3) a map showing the district boundaries, metes and bounds, area, physical culture, and computation sheet for survey closure;

(4) a preliminary plan (22 - 24 inches by 36 inches or digital data in electronic format) showing the location of existing facilities including highways, roads, and other improvements, together with the location of proposed utility mains and sizing,

general drainage patterns, principal drainage ditches and structures, utility plant sites, recreational areas, commercial and school sites, areas within the 100-year flood plain and 100-year floodway, and any other information pertinent to the project including an inventory of any existing water, wastewater, or drainage facilities;

(5) a preliminary engineering report including the following as applicable:

(A) a description of existing area, conditions, topography, and proposed improvements;

(B) land use plan;

(C) 100-year flood computations or source of information;

(D) existing and projected populations;

(E) tentative itemized cost estimates of the proposed capital improvements and itemized cost summary for anticipated bond issue requirement;

(F) projected tax rate and water and wastewater rates;

(G) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(H) an evaluation of the effect the district and its systems and subsequent development within the district will have on the following:

(i) land elevation;

(ii) subsidence;

(iii) groundwater level within the region;

(iv) recharge capability of a groundwater source;

(v) natural run-off rates and drainage; and

(vi) water quality;

(I) a table summarizing overlapping taxing entities and the most recent tax rates by those entities; and

(J) complete justification for creation of the district supported by evidence that the project is feasible, practicable, necessary, will benefit all of the land and residents to be included in the district, and will further the public welfare;

(6) a certificate by the central appraisal district indicating the owners and tax valuation of land within the proposed district as reflected on the county tax rolls as of the date of the petition or any amended petition. If the tax rolls do not show the petitioner(s) to be the owners of the majority of value of the land within the proposed district, then the petitioner(s) shall submit to the executive director a certified copy of the deed(s) tracing title from the person(s) listed on the central appraisal district certificate as owners of the land to the petitioner(s) and any additional information required by the executive director necessary to show accurately the ownership of the land to be included in the district;

(7) affidavits by those persons desiring appointment by the commission as temporary or initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary or initial directors, in accordance with TWC, §49.052 and §51.072;

(8) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title (relating to Application Requirements for Fire Department Plan Approval), except for a certified copy of a district board resolution, references to a district board having adopted a plan, and the additional \$100 filing fee; and

(9) other information as required by the executive director.

(d) Creation applications for TWC, Chapter 54, Municipal Utility Districts, shall contain items listed in subsection (a) of this section and the following:

(1) a petition containing the matters required by TWC, §54.014 and §54.015, signed by persons holding title to land representing a total value of more than 50% of the value of all land in the proposed district as indicated by tax rolls of the central appraisal district. If there are more than 50 persons holding title to land in the proposed district, the petition can be signed by 50 of them. The petition shall include the following:

(A) name of district;

(B) area and boundaries of district described by metes and bounds or lot and block number, if there is a recorded map or plat and survey of the area;

(C) necessity for the work;

(D) statement of the general nature of work proposed; and

(E) statement of estimated cost of project;

(2) evidence that the petition was filed with the office of the county clerk of the county(ies) in which the district or portions of the district are located;

(3) a map showing the district boundaries in metes and bounds, area, physical culture, and computation sheet for survey closure;

(4) a preliminary plan (22 - 24 inches by 36 inches or digital data in electronic format) showing the location of existing facilities including highways, roads, and other improvements, together with the location of proposed utility mains and sizing, general drainage patterns, principal drainage ditches and structures, utility plant sites, recreational areas, commercial and school sites, areas within the 100-year flood plain

and 100-year floodway, and any other information pertinent to the project including an inventory of any existing water, wastewater, or drainage facilities;

(5) a preliminary engineering report including as appropriate:

(A) a description of existing area, conditions, topography, and proposed improvements;

(B) land use plan;

(C) 100-year flood computations or source of information;

(D) existing and projected populations;

(E) tentative itemized cost estimates of the proposed capital improvements and itemized cost summary for anticipated bond issue requirement;

(F) projected tax rate and water and wastewater rates;

(G) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(H) an evaluation of the effect the district and its systems and subsequent development within the district will have on the following:

(i) land elevation;

(ii) subsidence;

(iii) groundwater level within the region;

(iv) recharge capability of a groundwater source;

(v) natural run-off rates and drainage; and

(vi) water quality;

(I) a table summarizing overlapping taxing entities and the most recent tax rates by those entities; and

(J) complete justification for creation of the district supported by evidence that the project is feasible, practicable, necessary, and will benefit all of the land to be included in the district;

(6) a certificate by the central appraisal district indicating the owners and tax valuation of land within the proposed district as reflected on the county tax rolls as of the date of the petition. If the tax rolls do not show the petitioner(s) to be the owners of the majority of value of the land within the proposed district, then the petitioner(s) shall submit to the executive director a certified copy of the deed(s) tracing title from the person(s) listed on the central appraisal district certificate as owners of the land to the petitioner(s) and any additional information required by the executive director necessary to show accurately the ownership of the land to be included in the district;

(7) a certified copy of the action of the governing body of any municipality in whose corporate limits or extraterritorial jurisdiction that the proposed district is located, consenting to the creation of the proposed district under TWC, §54.016. For districts to be located in the extraterritorial jurisdiction of any municipality, if the governing body of any such municipality fails or refuses to grant consent, the petitioners must show that the provisions of TWC, §54.016 have been followed;

(8) for districts proposed to be created within the corporate boundaries of a municipality, evidence that the city will rebate to the district an equitable portion of city taxes to be derived from the residents of the area proposed to be included in the district if such taxes are used by the city to finance elsewhere in the city services of the type the district proposes to provide. If like services are not to be provided, then an agreement regarding a rebate of city taxes is not necessary. Nothing in this subsection is intended to restrict the contracting authorization provided in Local Government Code, §402.014;

(9) affidavits by those persons desiring appointment by the commission as temporary directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary directors, in accordance with TWC, §49.052 and §54.102;

(10) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title, except for a certified copy of a district board resolution, references to a district board having adopted a plan, and the additional \$100 filing fee;

(11) if the petition within the application includes a request for road powers, information meeting the requirements of §293.202(b) of this title (relating to Application Requirements for Commission Approval); and

(12) other data and information as the executive director may require.

(e) Creation applications for TWC, Chapter 55, Water Improvement Districts, within two or more counties shall contain items listed in subsection (a) of this section and the following:

(1) a petition containing the matters required by TWC, §55.040, signed by persons holding title to more than 50% of all land in the proposed district as indicated by county tax rolls, or by 50 qualified property taxpaying electors. The petition shall include the following:

(A) name of district; and

(B) area and boundaries of district;

(2) a map showing the district boundaries in metes and bounds, area, physical culture, and computation sheet for survey closure;

(3) a preliminary plan (22 - 24 inches by 36 inches or digital data in electronic format) showing the location of existing facilities including highways, roads, and other improvements, together with the location of proposed utility mains and sizing, general drainage patterns, principal drainage ditches and structures, utility plant sites, recreational areas, commercial and school sites, areas within the 100-year flood plain and 100-year floodway, and any other information pertinent to the project including an inventory of any existing water, wastewater, or drainage facilities;

(4) a preliminary engineering report including as appropriate:

(A) a description of existing area, conditions, topography, and proposed improvements;

(B) land use plan;

(C) 100-year flood computations or source of information;

(D) existing and projected populations;

(E) tentative itemized cost estimates of the proposed capital improvements and itemized cost summary for anticipated bond issue requirement;

(F) projected tax rate and water and wastewater rates;

(G) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(H) an evaluation of the effect the district and its systems and subsequent development within the district will have on the following:

(i) land elevation;

(ii) subsidence;

(iii) groundwater level within the region;

(iv) recharge capability of a groundwater source;

(v) natural run-off rates and drainage; and

(vi) water quality;

(I) a table summarizing overlapping taxing entities and the most recent tax rates by those entities; and

(J) complete justification for creation of the district supported by evidence that the project is practicable, would be a public utility, and would serve a beneficial purpose;

(5) a certificate by the central appraisal district indicating the owners and tax valuation of land within the proposed district as reflected on the county tax rolls as of the date of the petition. If the tax rolls do not show the petitioner(s) to be the owners of the majority of the land within the proposed district, then the petitioner(s) shall submit to the executive director a certified copy of the deed(s) tracing title from the person(s) listed on the central appraisal district certificate as owners of the land to the petitioner(s) and any additional information required by the executive director necessary to show accurately the ownership of the land to be included in the district;

(6) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title, except for a certified

copy of a district board resolution, references to a district board having adopted a plan, and the additional \$100 filing fee; and

(7) other data and information as the executive director may require.

(f) Creation applications for TWC, Chapter 58, Irrigation Districts, within two or more counties, shall contain items listed in subsection (a) of this section and the following:

(1) a petition containing the matters required by TWC, §58.013 and §58.014, signed by persons holding title to land representing a total value of more than 50% of the value of all land in the proposed district as indicated by county tax rolls, or if there are more than 50 persons holding title to land in the proposed district, the petition can be signed by 50 of them. The petition shall include the following:

(A) name of district;

(B) area and boundaries;

(C) provision of the Texas Constitution under which district will be organized;

(D) purpose(s) of district;

(E) statement of the general nature of the work to be done and the necessity, feasibility, and utility of the project, with reasonable detail; and

(F) statement of the estimated costs of the project;

(2) evidence that the petition was filed with the office of the county clerk of the county(ies) in which the district or portions of the district are located;

(3) a map showing the district boundaries in metes and bounds, area, physical culture, and computation sheet for survey closure;

(4) a preliminary plan (22 - 24 inches by 36 inches or digital data in electronic format) showing as applicable the location of existing facilities including highways, roads, and other improvements, together with the location of proposed irrigation facilities, general drainage patterns, principal drainage ditches and structures, sites, areas within the 100-year flood plain and 100-year floodway, and any other information pertinent to the project;

(5) a preliminary engineering report including the following as applicable:

(A) a description of existing area, conditions, topography, and proposed improvements;

(B) land use plan, including a table showing irrigable and non-irrigable acreage;

(C) copies of any agreements, meeting minutes, contracts, or permits executed or in draft form with other entities including, but not limited to, federal, state, or local entities or governments or persons;

(D) tentative itemized cost estimates of the proposed capital improvements and itemized cost summary for anticipated bond issue requirement;

(E) proposed budget including projected tax rate and/or fee schedule and rates;

(F) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(G) an evaluation of the effect the district and its systems will have on the following:

(i) land elevation;

(ii) subsidence;

(iii) groundwater level within the region;

(iv) recharge capability of a groundwater source;

(v) natural run-off rates and drainage; and

(vi) water quality;

(H) a table summarizing overlapping taxing entities and the most recent tax rates by those entities; and

(I) complete justification for creation of the district supported by evidence that the project is feasible, practicable, necessary, and will benefit all of the land and residents to be included in the district and will further the public welfare;

(6) a certificate by the central appraisal district indicating the owners and tax valuation of land within the proposed district as reflected on the county tax rolls as of the date of the petition or any amended petition. If the tax rolls do not show the petitioner(s) to be the owners of the majority of value of the land within the proposed district, then the petitioner(s) shall submit to the executive director a certified copy of the deed(s) tracing title from the person(s) listed on the central appraisal district certificate as owners of the land to the petitioner(s) and any additional information required by the executive director necessary to show accurately the ownership of the land to be included in the district;

(7) affidavits by those persons desiring appointment by the commission as temporary or initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary or initial directors, in accordance with TWC, §58.072; and

(8) other data as the executive director may require.

(g) Creation applications for TWC, Chapter 59, Regional Districts, shall contain items listed in subsection (a) of this section and the following:

(1) a petition, as required by TWC, §59.003, signed by the owner or owners of 2,000 contiguous acres or more; or by the county commissioners court of one, or more than one, county; or by any city whose boundaries or extraterritorial jurisdiction the proposed district lies within; or by 20% of the municipal districts to be included in the district. The petition shall contain:

(A) a description of the boundaries by metes and bounds or lot and block number, if there is a recorded map or plat and survey of the area;

(B) a statement of the general work, and necessity of the work;

(C) estimated costs of the work;

(D) name of the petitioner(s);

(E) name of the proposed district; and

(F) if submitted by at least 20% of the municipal districts to be included in the regional district, such petition shall also include:

(i) a description of the territory to be included in the proposed district; and

(ii) endorsing resolutions from all municipal districts to be included;

(2) evidence that a copy of the petition was filed with the city clerk in each city where the proposed district's boundaries cover in whole or part;

(3) if land in the corporate limits or extraterritorial jurisdiction of a city is proposed, documentation of city consent or documentation of having followed the process outlined in TWC, §59.006;

(4) a preliminary engineering report including as appropriate:

(A) a description of existing area, conditions, topography, and proposed improvements;

(B) land use plan;

(C) 100-year flood computations or source of information;

(D) existing and projected populations;

(E) tentative itemized cost estimates of the proposed capital improvements and itemized cost summary for anticipated bond issue requirement;

(F) projected tax rate and water and wastewater rates; and

(G) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(5) affidavits by those persons desiring appointment by the commission as temporary or initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary or initial directors, as required by TWC, §49.052 and §59.021;

(6) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title, except for a certified copy of a district board resolution, references to a district board having adopted a plan, and the additional \$100 filing fee; and

(7) other information as the executive director may require.

(h) Creation applications for TWC, Chapter 65, Special Utility Districts, shall contain items listed in subsection (a) of this section and the following:

(1) a certified copy of the resolution requesting creation, as required by TWC, §65.014 and §65.015, signed by the president and secretary of the board of directors of the water supply or sewer service corporation, and stating that the corporation, acting through its board of directors, has found that it is necessary and desirable for the corporation to be converted into a district. The resolution shall include the following:

(A) a description of the boundaries of the proposed district by metes and bounds or by lot and block number, if there is a recorded map or plat and survey of the area, or by any other commonly recognized means in a certificate attached to the resolution executed by a licensed engineer;

(B) a statement regarding the general nature of the services presently performed and proposed to be provided, and the necessity for the services;

(C) name of the district;

(D) the names of not less than five and not more than 11 qualified persons to serve as the initial board;

(E) a request specifying each purpose for which the proposed district is being created; and

(F) if the proposed district also seeks approval of an impact fee, a request for approval of an impact fee and the amount of the requested fee;

(2) the legal description accompanying the resolution requesting conversion of a water supply or sewer service corporation, as defined in TWC, §65.001(10), to a special utility district that conforms to the legal description of the service area of the corporation as such service area appears in the certificate of public convenience and necessity held by the corporation. Any area of the corporation that overlaps another entity's certificate of convenience and necessity must be excluded

unless the other entity consents in writing to the inclusion of its dually certified area in the district;

(3) a plat showing boundaries of the proposed district as described in the petition;

(4) a preliminary plan (22 - 24 inches by 36 inches or digital data in electronic format) showing the location of existing facilities including highways, roads, and other improvements, together with the location of proposed utility mains and sizing, general drainage patterns, principal drainage ditches and structures, utility plant sites, recreational areas, commercial and school sites, areas within the 100-year flood plain and 100-year floodway, and any other information pertinent to the project including an inventory of any existing water or wastewater facilities;

(5) a preliminary engineering report including the following information unless previously provided to the commission:

(A) a description of existing area, conditions, topography, and any proposed improvements;

(B) existing and projected populations;

(C) for proposed system expansion:

(i) tentative itemized cost estimates of any proposed capital improvements and itemized cost summary for any anticipated bond issue requirement;

(ii) an investigation and evaluation of the availability of comparable service from other systems including, but not limited to, water districts, municipalities, and regional authorities;

(D) water and wastewater rates;

(E) projected water and wastewater rates;

(F) an evaluation of the effect the district and its system and subsequent development within the district will have on the following:

(i) land elevation;

(ii) subsidence;

(iii) groundwater level within the region;

(iv) recharge capability of a groundwater source;

(v) natural run-off rates and drainage; and

(vi) water quality; and

(G) complete justification for creation of the district supported by evidence that the project is feasible, practicable, necessary, and will benefit all of the land to be included in the district;

(6) a certified copy of a certificate of convenience and necessity held by the water supply or sewer service corporation applying for conversion to a special utility district;

(7) a certified copy of the most recent financial report prepared by the water supply or sewer service corporation;

(8) if requesting approval of an existing capital recovery fee or impact fee, supporting calculations and required documentation regarding such fee;

(9) certified copy of resolution and an order canvassing election results, adopted by the water supply or sewer service corporation, which shows:

(A) an affirmative vote of a majority of the membership to authorize conversion to a special utility district operating under TWC, Chapter 65; and

(B) a vote by the membership in accordance with the requirements of TWC, Chapter 67, and the Texas Non-Profit Corporation Act, Texas Civil Statutes, Articles 1396-1.01 to 1396-11.01, to dissolve the water supply or sewer service corporation at such time as creation of the special utility district is approved by the commission and convey all the assets and debts of the corporation to the special utility district upon dissolution;

(10) affidavits by those persons named in the resolution for appointment by the commission as initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary or initial directors, in accordance with TWC, §49.052 and §65.102, where applicable;

(11) affidavits indicating that the transfer of the assets and the certificate of convenience and necessity has been properly noticed to the executive director and

customers in accordance with §291.109 of this title (relating to Report of Sale, Merger, Etc.; Investigation; Disallowance of Transaction) and §291.112 of this title (relating to Transfer of Certificate of Convenience and Necessity);

(12) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title, except for a certified copy of a district board resolution, references to a district board having adopted a plan, and the additional \$100 filing fee; and

(13) other information as the executive director requires.

(i) Creation applications for TWC, Chapter 66, Stormwater Control Districts, shall contain items listed in subsection (a) or this section and the following:

(1) a petition as required by TWC, §§66.014 - 66.016, requesting creation of a storm water control district signed by at least 50 persons who reside within the boundaries of the proposed district or signed by a majority of the members of the county commissioners court in each county or counties in which the district is proposed. The petition shall include the following:

(A) a boundary description by metes and bounds or lot and block number if there is a recorded map or plat and survey;

(B) a statement of the general nature of the work proposed and an estimated cost of the work proposed; and

(C) the proposed name of the district;

(2) a map showing the district boundaries in metes and bounds, area, physical culture, and computation sheet for survey closure;

(3) a preliminary engineering report including:

(A) a description of the existing area, conditions, topography, and proposed improvements;

(B) preliminary itemized cost estimate for the proposed improvements and associated plans for financing such improvements;

(C) a listing of other entities capable of providing same or similar services and reasons why those are unable to provide such services;

(D) copies of any agreements, meeting minutes, contracts, or permits executed or in draft form with other entities including, but not limited to, federal, state, or local entities or governments or persons;

(E) an evaluation of the effect the district and its projects will have on the following:

(i) land elevations;

(ii) subsidence/groundwater level and recharge;

(iii) natural run-off rates and drainage; and

(iv) water quality;

(F) a table summarizing overlapping taxing entities and the most recent tax rates by those entities; and

(G) complete justification for creation of the district supported by evidence that the project is feasible, practical, necessary, and will benefit all the land to be included in the district;

(4) affidavits by those persons desiring appointment by the commission as temporary or initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for temporary or initial directors, in accordance with TWC, §49.052 and §66.102, where applicable; and

(5) other data as the executive director may require.

(j) Creation applications for Local Government Code, Chapter 375, Municipal Management Districts in General, shall contain the items listed in subsection (a) of this section and the following:

(1) a petition requesting creation signed by owners of a majority of the assessed value of real property in the proposed district, or 50 persons who own property in the proposed district, if more than 50 people own real property in the proposed district. The petition shall include the following:

(A) a boundary description by metes and bounds, by verifiable landmarks, including a road, creek, or railroad line, or by lot and block number if there is a recorded map or plat and survey;

(B) purpose(s) for which district is being created;

(C) general nature of the work, projects or services proposed to be provided, the necessity for those services, and an estimate of the costs associated with such;

(D) name of proposed district, which must be generally descriptive of the location of the district, followed by "Management District" or "Improvement District";

(E) list of proposed initial directors and experience and term of each; and

(F) a resolution of municipality in support of creation, if inside a city;

(2) a preliminary plan or report providing sufficient details on the purpose and projects of district as allowed in Local Government Code, Chapter 375, including budget, statement of expenses, revenues, and sources of such revenues;

(3) a certificate by the central appraisal district indicating the owners and tax valuation of land within the proposed district as reflected on the county tax rolls as of the date of the petition or any amended petition. If the tax rolls do not show the petitioner(s) to be the owners of the majority of value of the land within the proposed district, then the petitioner(s) shall submit to the executive director a certified copy of the deed(s) tracing title from the person(s) listed on the central appraisal district certificate as owners of the land to the petitioner(s) and any additional information required by the executive director necessary to show accurately the ownership of the land to be included in the district;

(4) affidavits by those persons desiring appointment by the commission as initial directors, showing compliance with applicable statutory requirements of qualifications and eligibility for initial directors, in accordance with Local Government Code, §375.063; and

(5) if the application includes a request for approval of a fire plan, information meeting the requirements of §293.123 of this title, except for a certified

copy of a district board resolution, references to a district board having adopted a plan,
and the additional \$100 filing fee.

SUBCHAPTER D: APPOINTMENT OF DIRECTORS
§293.32

Statutory Authority

The amendment is proposed under the authority of Texas Water Code (TWC), §5.103, which provides the commission's authority to adopt any rules necessary to carry out its powers and duties under the laws of Texas.

The proposed amendment implements TWC, §53.063.

§293.32. Qualifications of Directors.

(a) Unless otherwise provided, an applicant for appointment as a director must be at least 18 years old, a resident citizen of Texas, and either own land subject to taxation in the district or be a qualified voter within the district.

(1) A director of a fresh water supply district created under Texas Water Code (TWC), Chapter 53:

(A) must be:

(i) a resident of this state;

(ii) an owner of taxable property in the district; and

(iii) at least 18 years of age; or

(B) [if the district is located wholly or partly within Denton County]

must be a registered voter of the district [but need not own land subject to taxation in the district].

(2) A director of a regional district created for the purposes defined under TWC [Texas Water Code], §59.004 must be at least 18 years old and a resident of this state, but need not be a landowner or qualified voter within the district.

(3) A director of a special utility district created for the purposes defined under TWC [Texas Water Code], §65.012, must be a resident citizen of this state and either own land subject to taxation in the district, or be a user of the facilities of the district or be a qualified voter in the district.

(4) A director of a stormwater control district created for the purposes defined under TWC [Texas Water Code], §66.012, must reside within the boundaries of the proposed district but need not be a landowner or qualified voter within the district.

(5) A director of a groundwater conservation district must be a registered voter in the precinct that the person represents pursuant to TWC [Texas Water Code], §36.059(b).

(6) A person cannot be appointed to fill a vacancy on the board of a municipal utility district, under TWC [Texas Water Code], Chapter 54, if the person:

(A) resigned from that board:

(i) within two years preceding the vacancy date; or

(ii) on or after the vacancy date but before the vacancy is filled; or

(B) was defeated in a directors election held by that district in the two years preceding the vacancy date.

(7) A director shall not be a developer of property in the district, or be related within the third degree of affinity or consanguinity to a developer of property in the district, any other member of the governing board of the district, or the manager,

engineer, or attorney for the district, or other person providing professional services to the district.

(8) A director shall not be an employee of any developer of property in the district, or any director, manager, engineer, attorney, or other person providing professional services to the district, or a developer of property in the district in connection with the district or property located in the district.

(b) As used in this section, a developer of property in the district means any person who owns land located within a district covered under this section and who has divided or proposes to divide the land into two or more parts for the purpose of laying out any subdivision or any tract of land or any addition to any town or city, or for laying out suburban lots or building lots, or any lots, streets, alleys, or parks or other portions intended for public use, or the use of purchasers or owners of lots fronting thereon or adjacent thereto. (See TWC [Texas Water Code], §49.052(d).)

SUBCHAPTER E: ISSUANCE OF BONDS
§293.41, §293.51

Statutory Authority

The amendments are proposed under the authority of Texas Water Code (TWC), §5.103, which provides the commission's authority to adopt any rules necessary to carry out its powers and duties under the laws of Texas.

The proposed amendments implement TWC, §49.181(h) and §54.209.

§293.41. Approval of Projects and Issuance of Bonds.

(a) Bonds, as referred to in this subchapter, include any bonds authorized to be issued by the Texas Water Code (TWC) or special statute, and are represented by an instrument issued in bearer or registered form. This section does not apply to:

(1) refunding bonds, if the commission issued an order approving the issuance of the bonds or notes that originally financed the project;

(2) refunding bonds that are issued by a district under an agreement between the district and a municipality allowing the issuance of the district's bonds to refund bonds issued by the municipality to pay the cost of financing facilities;

(3) bonds issued to and approved by the Farmers Home Administration, the United States Department of Agriculture, the North American Development Bank, or the Texas Water Development Board, or successor agencies; [or]

(4) refunding bonds issued to refund bonds described by paragraph (3) of this subsection; or [.]

(5) bonds issued by a public utility agency created under Local Government Code, Chapter 572, any of the public entities participating in which are districts, if at least one of those districts is a district described by subsection (d)(1)(E) of this section.

(b) This subchapter does apply to revenue notes to the extent described in §293.80(d) of this title (relating to Revenue Notes) and contract tax obligations to the extent described in §293.89 of this title (relating to Contract Tax Obligations).

(c) The commission has the statutory responsibility to approve projects relating to the issuance and sale of bonds for districts as defined in TWC, §49.001(1), and other districts where specifically required by law.

(d) This subchapter does not apply to:

(1) a district if:

(A) [(1)] the boundaries include one entire county;

(B) [(2)] the district was created by a special act of the legislature;

and

(i) [(A)] the district is located entirely within one county and entirely within one or more home-rule municipalities;

(ii) [(B)] the total taxable value of the real property and improvements to the real property, zoned by one or more home-rule municipalities for residential purposes and located within the district, does not exceed 25% of the total taxable value of all taxable property in the district, as shown by the most recent certified appraisal tax roll prepared by the appraisal district for the county; and

(iii) [(C)] the district was not required by law to obtain commission approval of its bonds before September 1, 1995;

(C) [(3)] the district is a special water authority as defined by TWC, §49.001(8);

(D) [(4)] the district is governed by a board of directors appointed in whole or part by the governor, a state agency, or the governing body or chief elected official of a municipality or county and does not provide, or propose to provide, water, wastewater, drainage, reclamation, or flood control services to residential retail or commercial customers as its principal function; or

(E) [(5)] the district:

(i) [(A)] is a municipal utility district operating under TWC, Chapter 54, that includes territory in only two counties;

(ii) [(B)] has outstanding long-term indebtedness that is rated BBB or better by a nationally recognized rating agency for municipal securities; and

(iii) [(C)] has at least 5,000 active water connections; or [.]

(F) the district:

(i) is a conservation and reclamation district created under the Texas Constitution, Article 16, §59, that includes territory in at least three counties;
and

(ii) has the rights, privileges, and functions applicable to a river authority under TWC, Chapter 30; or

(2) a public utility agency created under Local Government Code, Chapter 572, any of the public entities participating in which are districts, if at least one of those districts is a district described by paragraph (1)(E) of this subsection.

(e) A district located within Bastrop, Bexar, Brazoria, Fort Bend, Galveston, Harris, Montgomery (except for a district all or part of which is located in Montgomery County and includes land within a planned community of at least 15,000 acres, of which a majority of the developed acreage is subject to restrictive covenants containing ad valorem assessments), Travis, Waller, or Williamson Counties may submit bond applications, which include recreational facilities that are supported by taxes, in accordance with TWC, §49.4645.

(1) Bond applications submitted under this subsection must include a copy of a district's park plan as required under TWC, §49.4645(b), in addition to other

application requirements under §293.43 of this title (relating to Application Requirements). The park plan is to be signed and sealed by a registered landscape architect, a registered professional engineer, or any other design professional allowed by law to engage in landscape architecture.

(2) Bond applications submitted under this subsection may include:

(A) forests, greenbelts, open spaces, and native habitat;

(B) sidewalks, trails, paths, boardwalks, and fitness trail equipment, subject to the following restrictions:

(i) the sidewalks, trails, paths, boardwalks, and fitness trail equipment unrelated to golf courses;

(ii) the sidewalks, trails, paths, boardwalks, and fitness trail equipment located outside of the right-of-way required by applicable government agencies for streets, unless a district has completed and financed at least 90% of its projected water, wastewater, and drainage facilities to serve residential development within the district; and

(iii) if a district has completed and financed at least 90% of its projected water, wastewater, and drainage facilities to serve residential development within the district prior to the annexation of land, the location restriction in clause (ii) of this subparagraph only applies to annexed land;

(C) pedestrian bridges and underpasses that are less than 200 feet in length and not related to golf courses;

(D) outdoor ballfields, including, but not limited to, soccer, football, baseball, softball, and lacrosse, outdoor skate/roller blade facilities, associated scoreboards, and bleachers designed for less than 500 people per field or per skate/roller blade facility;

(E) parks (outdoor playground facilities and associated ground surface material, picnic tables, benches, barbeque grills, fire pits, fireplaces, trash receptacles, drinking water fountains, open-air pavilions/gazebos, open-air amphitheaters/assembly facilities designed for less than 500 people, open-air shade structures, restrooms and changing rooms, concession stands, water playgrounds, recreational equipment storage facilities, and emergency call boxes);

(F) amenity lakes, and associated water features, docks, piers, overlooks, and non-motorized boat launches subject to §293.44(a)(24) of this title (relating to Special Considerations);

(G) amenity/recreation centers, outdoor tennis courts, and outdoor basketball courts if the district has funded water, wastewater, and drainage facilities to serve at least 90% of the residential development within the district;

(H) fences no higher than eight feet that are located within public right-of-way or district sites/easements and are along streets if the district has funded water, wastewater, and drainage facilities to serve at least 90% of the residential development within the district; and

(I) landscaping (including, but not limited to, trees, shrubs, and berms) and associated irrigation, fences, information signs/kiosks, lighting (except street lighting), and parking related to items listed in subparagraphs (A) through (G) of this paragraph.

(3) Bond applications submitted under this subsection shall not include:

(A) indoor or outdoor swimming pools, pool decks, and associated equipment or storage facilities;

(B) golf courses, clubhouses, and related structures or facilities;

(C) air conditioned buildings, gymnasiums, spas, fitness centers, and habitable structures, except as allowed in paragraph (2) of this subsection;

(D) sound barrier walls;

(E) retaining walls used for roadway purposes;

(F) fences, such as for subdivisions and lots, which are not related to district facilities, except as allowed in paragraph (2) of this subsection;

(G) signs and monuments, such as for subdivisions and developments, which are not related to district facilities; and

(H) street lighting.

(4) A district's outstanding principal debt (bonds, notes, and other obligations), payable from any source, for recreational facilities must not exceed 1% of the taxable value of property in the district, as supported by a certificate from the central appraisal district, at the time of issuance of the debt or exceed the estimated cost provided in the park plan required under TWC, §49.4645(b), whichever is smaller.

(5) A district may submit a bond application that proposes to fund recreational facilities only after or at the same time a district has funded water, wastewater, and/or drainage facilities, depending on a district's authorized functions, to serve the section that includes the recreational facilities or to serve areas along roads that are either adjacent to the recreational facilities or are necessary to provide access to the recreational facilities.

(6) Plans and specifications for recreational facilities must be signed and sealed by a registered landscape architect, a registered professional engineer, or any other design professional allowed by law to engage in landscape architecture.

§293.51. Land and Easement Acquisition.

(a) Water, sanitary sewer, storm sewer, drainage, and recreational facilities easements. All easements required within a district's boundaries for water lines; sanitary sewer lines; storm sewer lines; sanitary control at water plants; noise and odor control at

wastewater treatment plants; the right-of-way necessary for a drainage swale or ditch constructed generally along a street or road in lieu of a storm sewer; recreational facilities; and the right-of-way area required by governmental jurisdictions for streets that are used for recreational facilities, shall be dedicated to the district or the public by the developer without payment or reimbursement from the district. If any easements are required for such facilities on land not owned by a developer in the district, the district may acquire such land at its appraised market value, and may also pay legal, engineering, surveying, or court fees and expenses incurred in acquiring such land, and §293.47 of this title (relating to Thirty Percent of District Construction Costs to be [To Be] Paid by Developer) shall not apply to such acquisition.

(b) Land acquisition. A district may acquire the following in fee simple from any person, including the developer, in accordance with this section, and §293.47 of this title shall not apply to such acquisition:

(1) plant sites, including required sanitary control at water plants and noise and odor control at wastewater treatment plants;

(2) lift or pump station sites;

(3) drainage channels other than those described in subsection (a) of this section and other than those which are natural waterways with defined bed and banks;

(4) detention/retention pond sites;

(5) levees;

(6) mitigation sites for compliance with flood plain regulation and wetlands regulation or payments in lieu of mitigation;

(7) mitigation sites for compliance with endangered species permits or payments in lieu of mitigation, the cost of which shall be shared between the district and the developer as provided in §293.44(a)(22) of this title (relating to Special Considerations); or

(8) recreational facility sites that are outside of the right-of-way required by governmental jurisdictions to be dedicated for streets and roads.

(c) Price of land acquisition.

(1) If a district acquires such a site, as described in subsection (b) of this section, which is outside of the 100-year floodplain, from a developer within the district or subsequent owner of developer reimbursables, the price shall be determined by adding to the price paid by the developer for such land or easement in a bona fide transaction between unrelated parties the developer's actual taxes and interest paid to the date of acquisition by the district. The interest rate shall not exceed the net effective interest rate on the bonds sold, or the interest rate actually paid by the developer for loans obtained for this purpose, whichever is less. If a developer uses its own funds rather than borrowed funds, the net effective interest rate on the bonds sold shall be applied. Provided, however, if the executive director determines that such price appears to exceed the fair market value of such land or easement, the executive director may require an appraisal to be obtained by the district from a qualified independent appraiser and payment to the seller may be limited to the fair market value of such land as shown by the appraisal; if the seller acquired the land after the improvements to be financed by the district were constructed, the price shall be limited to the fair market value of such land or easement established without the improvements being constructed; or if the seller acquired the land more than five years before the creation of the district and the records relating to the actual price paid and the taxes and interest costs are impossible or difficult to obtain, the district, upon executive director approval, may purchase such site at fair market value based on an appraisal prepared by a qualified, independent appraiser. If the land or easement needed by the district is being

acquired based on the appraised value, the application to the commission for approval to purchase such a site must contain a request by the district to acquire the site in such manner and must explain the reason that the seller is unable to provide the price and carrying cost records.

(2) If a district acquires such a site, as described in subsection (b) of this section, which is within the 100-year floodplain, from a developer within the district or subsequent owner of developer reimbursables, the price shall be the lesser of the amount as determined by subsection (c)(1) of this section or fair market value based on an appraisal prepared by a qualified, independent appraiser hired by the district's board upon their initiative.

(3) If the land or easement needed by the district is being acquired from an entity other than a developer or subsequent owner of developer reimbursables in the district, the district may pay the fair market value established by a qualified, independent appraiser, and may also pay legal, engineering, surveying, or court fees and expenses incurred in acquiring such land or easement.

(d) Joint storm water detention/water amenity facilities. If a detention or retention pond is also being used as an amenity by the developer or as a recreational facility as described in §293.44(a)(24) of this title, payment to the developer shall be

limited to that cost that is associated only with the drainage or recreational function of the facility. The land costs of combined water amenity and detention facilities should be shared with the developer on the basis of the volume of water storage attributable to each use, with the water amenity portion subject to reimbursement as a recreational facility in the percentage described in §293.44(a)(24) of this title.

(e) Land or easements outside the district's boundaries. Land or easements needed for any district facilities outside the district's boundaries may be purchased by the district as part of the district project at a price not to exceed the fair market value thereof. The district may also pay legal, engineering, surveying, or court fees and expenses spent in acquiring such land. If the land or easements are purchased from a developer who owns land within the district, the price paid by the district shall be determined in accordance with subsection (c) of this section and such purchase price shall be subject to the provisions of §293.47 of this title unless the facilities constructed in, on, or over such land, easements, or rights-of-way are exempt from such contribution or the district is exempt from such contribution under the terms of §293.47 of this title. Districts operating under Texas Water Code (TWC), Chapter 54, except one affected by House Bill 2965, 76th Legislature, 1999, are prohibited from exercising the power of eminent domain outside the district's boundaries to acquire:

(1) a site for a water treatment plant, water storage facility, wastewater treatment plant, or wastewater disposal plant;

(2) a site for a park, swimming pool, or other recreational facility, as defined by TWC, §49.462 [except a trail];

(3) an exclusive easement through a county regional park; or [a site for a trail on real property designated as a homestead as defined by Texas Property Code, §41.002; or]

(4) a site or easement for a road project [an exclusive easement through a county regional park].

(f) Shared land or easements outside the district's boundaries. If the out-of-district land or easement is required for a drainage channel downstream of the district and a portion of such land or easement is or will be needed by another district(s), whether upstream or downstream, for development, the district shall only pay for its proportionate share of the land costs based upon the acreage of the drainage area contributing drainage to such drainage channel at full development. However, in the event there is no developer in another district(s) to dedicate the district's pro rata share of the required land, the district may pay the entire cost to acquire such land, but the

commission shall order the other district(s) to reimburse the district at such time as development occurs in the other district that requires such drainage right-of-way.

(g) Regional facilities. A district may use bond proceeds to acquire the entire site for any regional plant, lift or pump station [sation], detention pond, drainage channel, levee, or recreational facility if the commission determines that regionalization will be promoted and the district will recover the appropriate pro rata share of the site costs, carrying costs, and bond issuance costs from future participants. The district may pay the fair market value based on an appraisal for such regional site and also may pay legal, engineering, surveying, or court fees and expenses incurred in acquiring such land. The commission shall, by separate order, order other districts participating in such regional facility to reimburse the acquiring district a proportionate share of such site costs, carrying costs, and bond issuance costs at such time as development occurs in such other districts requiring such regional site.

(h) Certification by registered professional engineer. Prior to the district purchasing or obligating district funds for the purchase of sites for water plants, wastewater plants, or lift or pump stations, the district must have a registered professional engineer certify that the site is suitable for the purposes for which it intended and identify what areas will need to be designated as buffer zones to satisfy all entities with jurisdictional authority.

(i) Joint recreational and drainage/detention sites without a constant level lake.

If a drainage/detention site will also be used for recreational facility purposes, the costs are allocated 50% to drainage/detention and 50% to recreational purposes. If the recreational facility site includes an existing drainage/detention easement, then the area used to determine the reimbursement amount for the site excludes the area of the existing easement.

**SUBCHAPTER G: OTHER ACTIONS REQUIRING COMMISSION
CONSIDERATION FOR APPROVAL
§293.81**

Statutory Authority

The amendment is proposed under the authority of Texas Water Code (TWC), §5.103, which provides the commission's authority to adopt any rules necessary to carry out its powers and duties under the laws of Texas.

The proposed amendment implements TWC, §49.273(i).

§293.81. Change Orders.

A change order is a change in plans and specifications for construction work that is under contract. For purposes of this section, a variation between estimated quantities and actual quantities or use of supplemental items included in the bid where no change in plans and specifications has occurred is not a change order.

(1) Districts are authorized to issue change orders subject to the following conditions.

(A) Except as provided in this subparagraph, change orders, in aggregate, shall not be issued to increase the original contract price more than 10%.

Additional change orders may be issued only in response to:

(i) unanticipated conditions encountered during construction;

(ii) changes in regulatory criteria; or

(iii) coordination with construction of other political subdivisions or entities.

(B) All change orders must be in writing and executed by the district and the contractor and approved by the district's engineer.

(2) No commission approval is required if the change order is \$50,000 [\$25,000] or less. If the change order is more than \$50,000 [\$25,000], the executive director or his designated representative may approve the change order. For purposes of this section, if either the total additions or total deletions contained in the change order exceed \$50,000 [\$25,000], even though the net change in the contract price will be \$50,000 [\$25,000] or less, approval by the executive director is required.

(3) If the change order is \$50,000 [\$25,000] or less, a copy of the change order signed by the contractor and an authorized representative of the district shall be submitted to the executive director within ten days of the execution date of the change order, together with any revised construction plans and specifications approved by all agencies and entities having jurisdictional responsibilities, i.e. city, county, state, other, if required.

(4) Applications for change orders requiring approval shall include:

(A) a copy of the change order signed by an authorized officer or employee of the district and the contractor, and a resolution or letter signed by the board president indicating concurrence in the proposed change;

(B) revised construction plans and specifications approved by all agencies and entities having jurisdictional responsibilities, i.e., city, county, state, other, if required;

(C) a detailed explanation for the change;

(D) a detailed cost summary showing additions and/or deletions to the approved plans and specifications, and new contract price or cost estimate;

(E) a statement indicating amount and source of funding for the change in plans including how the available funds were generated;

(F) the number of utility connections added or deleted by the change, if any;

(G) certification as to the availability and sufficiency of water supply and wastewater treatment capacities to serve such additional connections;

(H) filing fee in the amount of \$100; and

(I) other information as the executive director or the commission may require.

(5) Copies of all changes in plans, specifications and supporting documents for all water district projects will be sent directly to the appropriate commission field office, simultaneously with the submittal of the documents to the executive director.

(6) Requirements relating to change orders shall also apply to construction carried out in accordance with §293.46 of this title (relating to Construction Prior to Commission Approval), except commission approval or disapproval will not be given. Change orders which are subject to executive director approval will be evaluated during the bond application review.
