
If adopted, the amendments to §§39.405(g)(3) and (h)(2)(C) and (3); 39.411(e)(4)(A)(i), (e)(5), (f)(8), and (g); 39.419(e)(1); 39.420(d)(6); 39.601; and 39.603 will be submitted to the United States Environmental Protection Agency (EPA) as revisions to the state implementation plan (SIP).

**Background and Summary of the Factual Basis for the Proposed Rules**

The proposed rulemaking is intended to update some of the commission’s procedural rules and is not intended to impose any new procedural or substantive requirements.

In 1999, the 76th Texas Legislature enacted House Bill (HB) 801, which revised public participation in environmental permitting for certain permit applications declared administratively complete on or after September 1, 1999. The rulemaking to implement HB 801 (and other bills) consolidated the public participation rules across the agency which have subsequently been amended to implement legislation and policy decisions of the commission. The commission necessarily retained procedural rules applicable to certain permit applications declared administratively complete before September 1, 1999, and to other actions of the commission.

On June 12, 2019, the commission determined that the rules in 30 TAC Chapter 39,
Subchapters A - E; Chapter 50, Subchapters A - C; Chapter 55, Subchapters A and B; and Chapter 80, §§80.3, 80.5, and 80.251 are obsolete and no longer needed because no applications subject to these rules remain pending with the commission (June 28, 2019, issue of the *Texas Register* (44 TexReg 3304)). As a result, the commission is concurrently proposing to repeal obsolete rules in Chapters 39, 50, 55, and 80 (Rule Project Number 2019-119-039-LS) which necessitates updating other rules, primarily to remove obsolete text and update cross-references.

As part of this rulemaking, the commission is proposing amendments to 30 TAC Chapters 55, 101, and 116 to make necessary changes due to the proposed repeals for which revisions to the SIP are also necessary. Sections 39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 include text that is now obsolete, and this rulemaking will update or remove that text.

Concurrently with this rulemaking, the commission is proposing amendments to 30 TAC Chapters 33, 35, 39, 50, 55, 60, 70, 80, 90, 205, 285, 294, 305, 321, 330 - 332, 334, 335, and 350, and new sections in Chapter 39, to make necessary changes due to the proposed repeals (Rule Project Number 2019-121-033-LS). In addition, this rulemaking addresses public notice requirements for certain applications that are not subject to contested case hearing, but are currently subject to rules in Chapter 39, Subchapters A and B, without regard to the specified date of administrative completeness. The public notice requirements for those applications would be relocated to proposed new
Chapter 39, Subchapter P.

The public’s opportunity to participate in the permitting process will not change nor be affected in any way as a result of these rulemaking projects.

The public’s opportunity to participate in the permitting process will not change nor be affected in any way as a result of these three rulemaking projects.

*Federal Clean Air Act, §110(l)*

All revisions to the SIP are subject to EPA’s finding that the revisions will not interfere with any applicable requirement concerning attainment and reasonable further progress of the national ambient air quality standards, or any other requirement of the Federal Clean Air Act (74 United States Code (USC), §7410(l)). This statute has been interpreted to be whether the revision will "make air quality worse" (*Kentucky Resources Council, Inc. v. EPA*, 467 F.3d 986 (6th Cir. 2006), cited with approval in *Galveston-Houston Association for Smog Prevention (GHASP) v. U.S. EPA*, 289 Fed. Appx. 745, 2008 WL 3471872 (5th Cir.)). Because procedural rules have no direct nexus with air quality, and because the current applicable public participation rules are approved as part of the Texas SIP, EPA should find that there is no backsliding from the current SIP and that this SIP revision complies with 42 USC, §7410(l).
Section by Section Discussion

The commission proposes to make various stylistic, non-substantive changes such as grammatical corrections. These changes are non-substantive and generally are not specifically discussed in this preamble.

Subchapter H: Applicability and General Provisions

§39.405, General Notice Provisions

The commission proposes to amend §39.405(g)(3) to remove obsolete text because no applications filed prior to June 24, 2010 remain pending for commission review. The commission also proposes to amend §39.405(h)(2)(C) and (3) to update cross-references to 19 TAC Chapter 89.

§39.411, Text of Public Notice

The commission proposes to amend §39.411(e)(4)(A)(i) and (ii), (e)(5), (f)(8) and (9), and (g) to remove obsolete text because no applications filed prior to June 24, 2010 remain pending for commission review.

§39.419, Notice of Application and Preliminary Decision

The commission proposes to amend §39.419(e)(1) to remove obsolete text because no applications filed prior to June 24, 2010 remain pending for commission review.

§39.420, Transmittal of the Executive Director’s Response to Comments and Decision
The commission proposes to amend §39.420(b)(6) and (d)(6) to update the reference from the commission’s Office of Public Assistance to the External Relations Division.

Subchapter K: Public Notice of Air Quality Permit Applications

§39.601, Applicability

The commission proposes to amend §39.601 to remove obsolete text because no applications declared administratively complete before September 1, 1999 remain pending for the commission’s review.

§39.603, Newspaper Notice

The commission proposes to amend §39.603(f)(1) and (g) to update cross-references.

Fiscal Note: Costs to State and Local Government

Jené Bearse, Analyst in the Budget and Planning Division, determined that for the first five-year period the proposed rulemaking is in effect, no fiscal implications are anticipated for the agency or for other units of state or local government as a result of administration or enforcement of the proposed rules.

This rulemaking will amend §§39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 to remove obsolete text and update cross-references.
Public Benefits and Costs

Ms. Bearse determined that for each year of the first five years the proposed rulemaking is in effect, the public benefit anticipated will be improved readability and minimized confusion with regard to applicable rules. The rulemaking does not remove or add any current requirements regarding public participation for certain types of permit applications. The proposed amendments are not anticipated to result in fiscal implications for businesses or individuals.

Local Employment Impact Statement

The commission reviewed this proposed rulemaking and determined that a Local Employment Impact Statement is not required because the proposed rulemaking does not adversely affect a local economy in a material way for the first five years that the proposed rules are in effect.

Rural Community Impact Statement

The commission reviewed this proposed rulemaking and determined that the proposed rules do not adversely affect rural communities in a material way for the first five years that the proposed rules are in effect. The rulemaking applies state-wide to all applicants for certain types of permit applications and the public and communities interested in those applications. The change will minimize confusion with regard to applicable rules.
Small Business and Micro-Business Assessment

No adverse fiscal implications are anticipated for small or micro-businesses due to the implementation or administration of the proposed rulemaking for the first five-year period the proposed rules are in effect. This rulemaking addresses the removal of obsolete text.

Small Business Regulatory Flexibility Analysis

The commission reviewed this proposed rulemaking and determined that a Small Business Regulatory Flexibility Analysis is not required because the proposed rules do not adversely affect a small or micro-business in a material way for the first five years the proposed rules are in effect.

Government Growth Impact Statement

The commission prepared a Government Growth Impact Statement assessment for this proposed rulemaking. The proposed rulemaking does not create or eliminate a government program and will not require an increase or decrease in future legislative appropriations to the agency. The proposed rulemaking does not require the creation of new employee positions, eliminate current employee positions, nor require an increase or decrease in fees paid to the agency. The proposed rulemaking does not create, expand, repeal, or limit an existing regulation, nor does it increase or decrease the number of individuals subject to its applicability. During the first five years, the proposed rules should not impact positively or negatively the state’s economy.
Draft Regulatory Impact Analysis Determination

The commission reviewed the rulemaking action in light of the regulatory analysis requirements of Texas Government Code, §2001.0225, and determined that the action is not subject to Texas Government Code, §2001.0225, because it does not meet the definition of a "Major environmental rule" as defined in that statute. A "Major environmental rule" is a rule the specific intent of which is to protect the environment or reduce risks to human health from environmental exposure, and that may adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, or the public health and safety of the state or a sector of the state. The proposed amendments to §§39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 are not specifically intended to protect the environment or reduce risks to human health from environmental exposure, nor do the amendments affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, or the public health and safety of the state or a sector of the state. Rather, this rulemaking removes obsolete text and updates a cross-reference to ensure there is no confusion regarding the applicable rules for public participation for certain air quality permit applications.

Texas Government Code, Texas Government Code, §2001.0225, applies to a major environmental rule, the result of which is to: exceed a standard set by federal law, unless the rule is specifically required by state law; exceed an express requirement of
state law, unless the rule is specifically required by federal law; exceed a requirement of a delegation agreement or contract between the state and an agency or representative of the federal government to implement a state and federal program; or adopt a rule solely under the general authority of the commission. The proposed amendments to §§39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 do not exceed an express requirement of state law or a requirement of a delegation agreement and were not developed solely under the general powers of the agency but are authorized by specific sections of the Texas Government Code and the Texas Water Code that are cited in the Statutory Authority section of this preamble. Therefore, this rulemaking is not subject to the regulatory analysis provisions of Texas Government Code, §2001.0225(b).

Written comments on the Draft Regulatory Impact Analysis Determination may be submitted to the contact person at the address listed under the Submittal of Comments section of this preamble.

**Takings Impact Assessment**

The commission evaluated the proposed rulemaking and performed an analysis of whether Texas Government Code, Chapter 2007, is applicable. The proposed amendments to §§39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 are procedural in nature and will not burden private real property. The proposed amendments do not affect private property in a manner that restricts or limits an owner's right to the
property that would otherwise exist in the absence of a governmental action. Consequently, this rulemaking action does not meet the definition of a taking under Texas Government Code, §2007.002(5). The proposed amendments do not directly prevent a nuisance or prevent an immediate threat to life or property. Therefore, this rulemaking action will not constitute a taking under Texas Government Code, Chapter 2007.

Consistency with the Coastal Management Program

The commission reviewed the proposed rules and found that they are neither identified in Coastal Coordination Act implementation rules, 31 TAC §505.11(b)(2) or (4), nor will the amendments affect any action or authorization identified in Coastal Coordination Act implementation rules, 31 TAC §505.11(a)(6). Therefore, the proposed amendments are not subject to the Texas Coastal Management Program.

Written comments on the consistency of this rulemaking may be submitted to the contact person at the address listed under the Submittal of Comments section of this preamble.

Effect on Sites Subject to the Federal Operating Permits Program

The proposed amendments to §§39.405, 39.411, 39.419, 39.420, 39.601, and 39.603 will not require any changes to outstanding federal operating permits.
Announcement of Hearing

The commission will hold a public hearing on this proposal in Austin on December 10, 2019, at 10:00 a.m., in Building E, Room 201S, at the commission's central office located at 12100 Park 35 Circle. The hearing is structured for the receipt of oral or written comments by interested persons. Individuals may present oral statements when called upon in order of registration. Open discussion will not be permitted during the hearing; however, commission staff members will be available to discuss the proposal 30 minutes prior to the hearing.

Persons who have special communication or other accommodation needs who are planning to attend the hearing should contact Sandy Wong, Office of Legal Services at (512) 239-1802 or 1-800-RELAY-TX (TDD). Requests should be made as far in advance as possible.

Submittal of Comments

Written comments may be submitted to Ms. Kris Hogan, MC 205, Office of Legal Services, Texas Commission on Environmental Quality, P.O. Box 13087, Austin, Texas 78711-3087, or faxed to (512) 239-4808. Electronic comments may be submitted at: https://www6.tceq.texas.gov/rules/ecomments/. File size restrictions may apply to comments being submitted via the eComments system. All comments should reference Rule Project Number 2019-120-039-LS. The comment period closes on December 16, 2019. Copies of the proposed rulemaking can be obtained from the commission’s
website at https://www.tceq.texas.gov/rules/pro.pose_adopt.html. For further information, please contact Amy Browning, Environmental Law Division, at (512) 239-0891.
SUBCHAPTER H: APPLICABILITY AND GENERAL PROVISIONS

§§39.405, 39.411, 39.419, 39.420

Statutory Authority

The amendments are proposed under Texas Water Code (TWC), §5.013, concerning General Jurisdiction of Commission, which establishes the general jurisdiction of the commission; TWC, §5.102, concerning General Powers, which provides the commission with the general powers to carry out its duties under the TWC; TWC, §5.103, concerning Rules, which authorizes the commission to adopt rules necessary to carry out its powers and duties under the TWC; and TWC, §5.105, concerning General Policy, which authorizes the commission by rule to establish and approve all general policy of the commission. The amendments are also proposed under Texas Health and Safety Code (THSC), §382.002, concerning Policy and Purpose, which establishes the commission’s purpose to safeguard the state’s air resources, consistent with the protection of public health, general welfare, and physical property; THSC, §382.011, concerning General Powers and Duties, which authorizes the commission to control the quality of the state’s air; THSC, §382.012, concerning State Air Control Plan, which authorizes the commission to prepare and develop a general, comprehensive plan for the proper control of the state’s air; THSC, §382.017, concerning Rules, which authorizes the commission to adopt rules consistent with the policy and purposes of the Texas Clean Air Act; and THSC, §382.056, concerning Notice of Intent to Obtain Permit or Permit Review; Hearing, which prescribes the public participation requirements for certain applications filed with the commission. In addition, the
amendments are also proposed under Texas Government Code, §2001.004, concerning Requirement to Adopt Rules of Practice and Index Rules, Orders, and Decisions, which requires state agencies to adopt procedural rules; and Texas Government Code §2003.047, concerning Hearings for Texas Commission on Environmental Quality, which authorizes the State Office of Administrative Hearings to conduct hearings for the commission; and the Federal Clean Air Act, 42 United States Code, §§7401, et seq., which requires states to submit state implementation plan revisions that specify the manner in which the national ambient air quality standards will be achieved and maintained within each air quality control region of the state.

The proposed amendments implement THSC, §382.056.

(a) Failure to publish notice. If the chief clerk prepares a newspaper notice that is required by Subchapters G - J, L, and M of this chapter (relating to Public Notice for Applications for Consolidated Permits; Applicability and General Provisions; Public Notice of Solid Waste Applications; Public Notice of Water Quality Applications and Water Quality Management Plans; Public Notice of Injection Well and Other Specific Applications; and Public Notice for Radioactive Material Licenses) and the applicant does not cause the notice to be published within 45 days of mailing of the notice from the chief clerk, or for Notice of Receipt of Application and Intent to Obtain Permit,
within 30 days after the executive director declares the application administratively
complete, or fails to submit the copies of notices or affidavit required in subsection (e)
of this section, the executive director may cause one of the following actions to occur.

   (1) The chief clerk may cause the notice to be published and the applicant
shall reimburse the agency for the cost of publication.

   (2) The executive director may suspend further processing or return the
application. If the application is resubmitted within six months of the date of the
return of the application, it will be exempt from any application fee requirements.

   (b) Electronic mailing lists. The chief clerk may require the applicant to provide
necessary mailing lists in electronic form.

   (c) Mail or hand delivery. When Subchapters G - L of this chapter require notice
by mail, notice by hand delivery may be substituted. Mailing is complete upon deposit
of the document, enclosed in a prepaid, properly addressed wrapper, in a post office
or official depository of the United States Postal Service. If hand delivery is by courier-
receipted delivery, the delivery is complete upon the courier taking possession.

   (d) Combined notice. Notice may be combined to satisfy more than one
applicable section of this chapter.
(e) Notice and affidavit. When Subchapters G - J and L of this chapter require an applicant to publish notice, the applicant must file a copy of the published notice and a publisher's affidavit with the chief clerk certifying facts that constitute compliance with the requirement. The deadline to file a copy of the published notice which shows the date of publication and the name of the newspaper is ten business days after the last date of publication. The deadline to file the affidavit is 30 calendar days after the last date of publication for each notice. Filing an affidavit certifying facts that constitute compliance with notice requirements creates a rebuttable presumption of compliance with the requirement to publish notice. When the chief clerk publishes notice under subsection (a) of this section, the chief clerk shall file a copy of the published notice and a publisher's affidavit.

(f) Published notice. When this chapter requires notice to be published under this subsection:

(1) the applicant shall publish notice in the newspaper of largest circulation in the county in which the facility is located or proposed to be located or, if the facility is located or proposed to be located in a municipality, the applicant shall publish notice in any newspaper of general circulation in the municipality;
(2) For applications for solid waste permits and injection well permits, the applicant shall publish notice in the newspaper of largest general circulation that is published in the county in which the facility is located or proposed to be located. If a newspaper is not published in the county, the notice must be published in any newspaper of general circulation in the county in which the facility is located or proposed to be located. The requirements of this subsection may be satisfied by one publication if the newspaper is both published in the county and is the newspaper of largest general circulation in the county; and

(3) Air quality permit applications required by Subchapters H and K of this chapter (relating to Applicability and General Provisions and Public Notice of Air Quality Permit Applications, respectively) to publish notice shall comply with the requirements of §39.603 of this title (relating to Newspaper Notice).

(g) Copy of application. The applicant shall make a copy of the application available for review and copying at a public place in the county in which the facility is located or proposed to be located. If the application is submitted with confidential information marked as confidential by the applicant, the applicant shall indicate in the public file that there is additional information in a confidential file. The copy of the application must comply with the following.
(1) A copy of the administratively complete application must be available for review and copying beginning on the first day of newspaper publication of Notice of Receipt of Application and Intent to Obtain Permit and remain available for the publications' designated comment period.

(2) A copy of the complete application (including any subsequent revisions to the application) and executive director's preliminary decision must be available for review and copying beginning on the first day of newspaper publication required by this section and remain available until the commission has taken action on the application or the commission refers issues to State Office of Administrative Hearings; and

(3) where applicable, for air quality permit applications [filed on or after June 24, 2010], the applicant shall also make available the executive director's draft permit, preliminary determination summary and air quality analysis for review and copying beginning on the first day of newspaper publication required by §39.419 of this title (relating to Notice of Application and Preliminary Decision) and remain available until the commission has taken action on the application or the commission refers issues to State Office of Administrative Hearings.

(h) Alternative language newspaper notice.
(1) Applicability. The following are subject to this subsection:

(A) Air quality permit applications; and

(B) Permit applications other than air quality permit applications that are required to comply with §39.418 or §39.419 of this title (relating to Notice of Receipt of Application and Intent to Obtain Permit; and Notice of Application and Preliminary Decision) that are filed on or after November 30, 2005.

(2) This subsection applies whenever notice is required to be published under §39.418 or §39.419 of this title, and either the elementary or middle school nearest to the facility or proposed facility is required to provide a bilingual education program as required by Texas Education Code, Chapter 29, Subchapter B, and 19 TAC §89.1205(a) (relating to Required Bilingual Education and English as a Second Language Programs) and one of the following conditions is met:

(A) students are enrolled in a program at that school;

(B) students from that school attend a bilingual education program at another location; or
(C) the school that otherwise would be required to provide a bilingual education program has been granted an exception from the requirements to provide the program as provided for in 19 TAC §89.1207(a) (relating to Bilingual Education Exceptions and English as a Second Language Waivers [Exceptions and Waivers]).

(3) Elementary or middle schools that offer English as a second language under 19 TAC §89.1205(d) [§89.1205(e)], and are not otherwise affected by 19 TAC §89.1205(a), will not trigger the requirements of this subsection.

(4) The notice must be published in a newspaper or publication that is published primarily in the alternative languages in which the bilingual education program is or would have been taught, and the notice must be in those languages.

(5) The newspaper or publication must be of general circulation in the county in which the facility is located or proposed to be located. If the facility is located or proposed to be located in a municipality, and there exists a newspaper or publication of general circulation in the municipality, the applicant shall publish notice only in the newspaper or publication in the municipality. This paragraph does not apply to notice required to be published for air quality permits under §39.603 of this title.
(6) For notice required to be published in a newspaper or publication under §39.603 of this title, relating to air quality permits, the newspaper or publication must be of general circulation in the municipality or county in which the facility is located or is proposed to be located, and the notice must be published as follows.

(A) One notice must be published in the public notice section of the newspaper and must comply with the applicable portions of §39.411 of this title (relating to Text of Public Notice).

(B) Another notice with a total size of at least six column inches, with a vertical dimension of at least three inches and a horizontal dimension of at least two column widths, or a size of at least 12 square inches, must be published in a prominent location elsewhere in the same issue of the newspaper. This notice must contain the following information:

(i) permit application number;

(ii) company name;

(iii) type of facility;

(iv) description of the location of the facility; and
(v) a note that additional information is in the public notice section of the same issue.

(7) Waste and water quality alternative language must be published in the public notice section of the alternative language newspaper and must comply with §39.411 of this title.

(8) The requirements of this subsection are waived for each language in which no publication exists, or if the publishers of all alternative language publications refuse to publish the notice. If the alternative language publication is published less frequently than once a month, this notice requirement may be waived by the executive director on a case-by-case basis.

(9) Notice under this subsection will only be required to be published within the United States.

(10) Each alternative language publication must follow the requirements of this chapter that are consistent with this subsection.

(11) If a waiver is received under this subsection on an air quality permit application, the applicant shall complete a verification and submit it as required under
§39.605(3) of this title (relating to Notice to Affected Agencies). If a waiver is received under this subsection on a waste or water quality application, the applicant shall complete a verification and submit it to the chief clerk and the executive director.

(i) Failure to publish notice of air quality permit applications. If the chief clerk prepares a newspaper notice that is required by Subchapters H and K of this chapter for air quality permit applications and the applicant does not cause the notice to be published within 45 days of mailing of the notice from the chief clerk, or, for Notice of Receipt of Application and Intent to Obtain Permit, within 30 days after the executive director declares the application administratively complete, or fails to submit the copies of notices or affidavit required in subsection (j) of this section, the executive director may cause one of the following actions to occur.

(1) The chief clerk may cause the notice to be published and the applicant shall reimburse the agency for the cost of publication.

(2) The executive director may suspend further processing or return the application. If the application is resubmitted within six months of the date of the return of the application, it will be exempt from any application fee requirements.

(j) Notice and affidavit for air quality permit applications. When Subchapters H and K of this chapter require an applicant for an air quality permit action to publish
notice, the applicant must file a copy of the published notice and a publisher’s affidavit with the chief clerk certifying facts that constitute compliance with the requirement. The deadline to file a copy of the published notice which shows the date of publication and the name of the newspaper is ten business days after the last date of publication. The deadline to file the affidavit is 30 calendar days after the last date of publication for each notice. Filing an affidavit certifying facts that constitute compliance with notice requirements creates a rebuttable presumption of compliance with the requirement to publish notice. When the chief clerk publishes notice under subsection (i) of this section, the chief clerk shall file a copy of the published notice and a publisher’s affidavit.

(k) For applications filed on or after September 1, 2015, and subject to providing notice as prescribed by Texas Water Code, §5.115, the commission shall make available on the commission's website notice of administratively complete applications for a permit or license authorized under the Texas Water Code and the Texas Health and Safety Code.

(a) Applicants shall use notice text provided and approved by the agency. The executive director may approve changes to notice text before notice being given.
(b) When Notice of Receipt of Application and Intent to Obtain Permit by publication or by mail is required by Subchapters H and K of this chapter (relating to Applicability and General Provisions and Public Notice of Air Quality Permit Applications) for air quality permit applications, those applications are subject to subsections (e) - (h) of this section. When notice of receipt of application and intent to obtain permit by publication or by mail is required by Subchapters H - J and L of this chapter (relating to Applicability and General Provisions, Public Notice of Solid Waste Applications, Public Notice of Water Quality Applications and Water Quality Management Plans, and Public Notice of Injection Well and Other Specific Applications), Subchapter G of this chapter (relating to Public Notice for Applications for Consolidated Permits), or for Subchapter M of this chapter (relating to Public Notice for Radioactive Material Licenses), the text of the notice must include the following information:

(1) the name and address of the agency and the telephone number of an agency contact from whom interested persons may obtain further information;

(2) the name, address, and telephone number of the applicant and a description of the manner in which a person may contact the applicant for further information;

(3) a brief description of the location and nature of the proposed activity;
(4) a brief description of public comment procedures, including:

(A) a statement that the executive director will respond to comments raising issues that are relevant and material or otherwise significant; and

(B) a statement in the notice for any permit application for which there is an opportunity for a contested case hearing, that only disputed factual issues that are relevant and material to the commission’s decision that are raised during the comment period can be considered if a contested case hearing is granted;

(5) a brief description of procedures by which the public may participate in the final permit decision and, if applicable, how to request a public meeting, contested case hearing, reconsideration of the executive director’s decision, a notice and comment hearing, or a statement that later notice will describe procedures for public participation, printed in a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice. The notice should include a statement that a public meeting will be held by the executive director if requested by a member of the legislature who represents the general area where the facility is to be located or there is substantial public interest in the proposed activity;

(6) the application or permit number;
(7) if applicable, a statement that the application or requested action is subject to the Coastal Management Program and must be consistent with the Coastal Management Program goals and policies;

(8) the location, at a public place in the county in which the facility is located or proposed to be located, at which a copy of the application is available for review and copying;

(9) a description of the procedure by which a person may be placed on a mailing list in order to receive additional information about the application;

(10) for notices of municipal solid waste applications, a statement that a person who may be affected by the facility or proposed facility is entitled to request a contested case hearing from the commission. This statement must be printed in a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice; and

(11) any additional information required by the executive director or needed to satisfy public notice requirements of any federally authorized program; or

(12) for radioactive material licenses under Chapter 336 of this title (relating to Radioactive Substance Rules), if applicable, a statement that a written
environmental analysis on the application has been prepared by the executive director, is available to the public for review, and that written comments may be submitted; and

(13) for Class 3 modifications of hazardous industrial solid waste permits, the statement "The permittee’s compliance history during the life of the permit being modified is available from the agency contact person."

(c) Unless mailed notice is otherwise provided for under this section, the chief clerk shall mail Notice of Application and Preliminary Decision to those listed in §39.413 of this title (relating to Mailed Notice). When notice of application and preliminary decision by publication or by mail is required by Subchapters G - J and L of this chapter, the text of the notice must include the following information:

(1) the information required by subsection (b)(1) - (11) of this section;

(2) a brief description of public comment procedures, including a description of the manner in which comments regarding the executive director’s preliminary decision may be submitted, or a statement in the notice for any permit application for which there is an opportunity for contested case hearing, that only relevant and material issues raised during the comment period can be considered if a contested case hearing is granted. The public comment procedures must be printed in
a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice;

(3) if the application is subject to final approval by the executive director under Chapter 50 of this title (relating to Action on Applications and Other Authorizations), a statement that the executive director may issue final approval of the application unless a timely contested case hearing request or a timely request for reconsideration (if applicable) is filed with the chief clerk after transmittal of the executive director's decision and response to public comment;

(4) a summary of the executive director's preliminary decision and whether the executive director has prepared a draft permit;

(5) the location, at a public place in the county in which the facility is located or proposed to be located, at which a copy of the complete application and the executive director's preliminary decision are available for review and copying;

(6) the deadline to file comments or request a public meeting. The notice should include a statement that a public meeting will be held by the executive director if requested by a member of the legislature who represents the general area where the facility is to be located or there is substantial public interest in the proposed activity; and
(7) for radioactive material licenses under Chapter 336 of this title, if applicable, a statement that a written environmental analysis on the application has been prepared by the executive director, is available to the public for review, and that written comments may be submitted.

(d) When notice of a public meeting or notice of a hearing by publication or by mail is required by Subchapters G - J and L of this chapter, the text of the notice must include the following information:

(1) the information required by subsection (b)(1) - (3), (6) - (8), and (11) of this section;

(2) the date, time, and place of the meeting or hearing, and a brief description of the nature and purpose of the meeting or hearing, including the applicable rules and procedures; and

(3) for notices of public meetings only, a brief description of public comment procedures, including a description of the manner in which comments regarding the executive director’s preliminary decision may be submitted and a statement in the notice for any permit application for which there is an opportunity
for contested case hearing, that only relevant and material issues raised during the comment period can be considered if a contested case hearing is granted.

(e) When Notice of Receipt of Application and Intent to Obtain Permit by publication or by mail is required by Subchapters H and K of this chapter for air quality permit applications, the text of the notice must include the information in this subsection:

(1) the name and address of the agency and the telephone number of an agency contact from whom interested persons may obtain further information;

(2) the name, address, and telephone number of the applicant and a description of the manner in which a person may contact the applicant for further information;

(3) a brief description of the location and nature of the proposed activity;

(4) a brief description of public comment procedures, including:

(A) a statement that the executive director will respond to:
(i) all comments regarding applications for Prevention of Significant Deterioration and Nonattainment permits under Chapter 116, Subchapter B of this title (relating to New Source Review Permits) and Plant-wide Applicability Limit permits under Chapter 116 of this title (relating to Control of Air Pollution by Permits for New Construction or Modification) [filed on or after June 18, 2010];

(ii) all comments regarding applications subject to the requirements of Chapter 116, Subchapter E of this title (relating to Hazardous Air Pollutants: Regulations Governing Constructed or Reconstructed Major Sources (FCAA, §112(g), 40 CFR Part 63)), whether for construction or reconstruction, filed on or after June 18, 2010; and

(iii) for all other air quality permit applications, comments raising issues that are relevant and material or otherwise significant; and

(B) a statement in the notice for any air quality permit application for which there is an opportunity for a contested case hearing, that only disputed factual issues that are relevant and material to the commission's decision that are raised during the comment period can be considered if a contested case hearing is granted;
(5) a brief description of procedures by which the public may participate in the final permit decision and, if applicable, how to request a public meeting, contested case hearing, reconsideration of the executive director’s decision, a notice and comment hearing, or a statement that later notice will describe procedures for public participation, printed in a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice. Where applicable, the notice should include a statement that a public meeting will be held by the executive director if requested by a member of the legislature who represents the general area where the facility is to be located if there is substantial public interest in the proposed activity when requested by any interested person for the following applications [that are filed on or after June 18, 2010]:

(A) air quality permit applications subject to the requirements for Prevention of Significant Deterioration and Nonattainment in Chapter 116, Subchapter B of this title;

(B) applications for the establishment or renewal of, or an increase in, a plant-wide applicability limit subject to Chapter 116 of this title; and

(C) applications subject to the requirements of Chapter 116, Subchapter E of this title, whether for construction or reconstruction;
(6) the application or permit number;

(7) if applicable, a statement that the application or requested action is subject to the Coastal Management Program and must be consistent with the Coastal Management Program goals and policies;

(8) the location, at a public place in the county in which the facility is located or proposed to be located, at which a copy of the application is available for review and copying;

(9) a description of the procedure by which a person may be placed on a mailing list in order to receive additional information about the application;

(10) at a minimum, a listing of criteria pollutants for which authorization is sought in the application which are regulated under national ambient air quality standards or under state standards in Chapters 111 - 113, 115, and 117 of this title (relating to Control of Air Pollution from Visible Emissions and Particulate Matter, Control of Air Pollution from Sulfur Compounds, Standards of Performance for Hazardous Air Pollutants and for Designated Facilities and Pollutants, Control of Air Pollution from Volatile Organic Compounds, and Control of Air Pollution from Nitrogen Compounds);
(11) If notice is for any air quality permit application except those listed in paragraphs (12) and (15) of this subsection, the following information must be printed in a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice:

(A) a statement that a person who may be affected by emissions of air contaminants from the facility or proposed facility is entitled to request a contested case hearing from the commission within the following specified time periods:

(i) for air quality permit applications subject to the requirements for Prevention of Significant Deterioration and Nonattainment permits in Chapter 116, Subchapter B of this title a statement that a request for a contested case hearing must be received by the commission by the end of the comment period or within 30 days after the mailing of the executive director's response to comments;

(ii) for air quality permit applications subject to the requirements of Chapter 116, Subchapter E of this title, whether for construction or reconstruction, a statement that a request for a contested case hearing must be received by the commission by the end of the comment period or within 30 days after the mailing of the executive director's response to comments;
(iii) for renewals of air quality permits that would not result in an increase in allowable emissions and would not result in the emission of an air contaminant not previously emitted and the application does not involve a facility for which the applicant’s compliance history is in the lowest classification under Texas Water Code, §5.753 and §5.754 and the commission's rules in Chapter 60 of this title (relating to Compliance History), a statement that a request for a contested case hearing must be received by the commission before the close of the 15-day comment period provided in response to the last publication of Notice of Receipt of Application and Intent to Obtain Permit;

(iv) for initial registrations for concrete batch plants under the Air Quality Standard Permit for Concrete Batch Plants adopted by the commission under Chapter 116, Subchapter F of this title (relating to Standard Permits) received on or after January 1, 2017, the following statements:

(I) a request for a contested case hearing must be received by the commission before the close of the comment period provided in response to the last publication of the consolidated Notice of Receipt of Application and Intent to Obtain Permit and Notice of Application and Preliminary Decision in §39.603(c) of this title (relating to Newspaper Notice);
(II) if no hearing requests are received by the end of the 30-day comment period there is no further opportunity to request a contested case hearing; and

(III) if any hearing requests are received before the close of the 30-day comment period, the opportunity to file a request for a contested case hearing is extended to 30 days after the mailing of the executive director's response to comments;

(v) for new air quality permit applications and for permit amendment applications issued under Chapter 116, Subchapters B and G of this title (relating to New Source Review Permits and Flexible Permits), for which the executive director has declared the application administratively and technically complete and prepared a draft permit within 15 days of receipt of the application, the following information:

(I) the date the application was received and the date the draft permit was completed; and

(II) a request for a contested case hearing must be received by the commission before the close of the comment period provided in response to the last publication of the consolidated Notice of Receipt of Application
and Intent to Obtain Permit and Notice of Application and Preliminary Decision in §39.603(d) of this title. If no hearing requests are received by the end of the 30-day comment period there is no further opportunity to request a contested case hearing. If any hearing requests are received before the close of the 30-day comment period, the opportunity to file a request for a contested case hearing is extended to 30 days after the mailing of the executive director's response to comments; or

(vi) for all air quality permit applications other than those in clauses (i) - (v) of this subparagraph, a statement that a request for a contested case hearing must be received by the commission before the close of the 30-day comment period provided in response to the last publication of Notice of Receipt of Application and Intent to Obtain Permit. If no hearing requests are received by the end of the 30-day comment period following the last publication of Notice of Receipt of Application and Intent to Obtain Permit, there is no further opportunity to request a contested case hearing. If any hearing requests are received before the close of the 30-day comment period following the last publication of Notice of Receipt of Application and Intent to Obtain Permit, the opportunity to file a request for a contested case hearing is extended to 30 days after the mailing of the executive director's response to comments;

(B) a statement that a request for a contested case hearing must be received by the commission;
(C) a statement that a contested case hearing request must include the requester’s location relative to the proposed facility or activity;

(D) a statement that a contested case hearing request should include a description of how the requestor will be adversely affected by the proposed facility or activity in a manner not common to the general public, including a description of the requestor’s uses of property which may be impacted by the proposed facility or activity;

(E) a statement that only relevant and material issues raised during the comment period can be considered if a contested case hearing request is granted; and

(F) if notice is for air quality permit applications described in subparagraph (A)(vi) of this paragraph, a statement that when no hearing requests are timely received the applicant shall publish a Notice of Application and Preliminary Decision that provides an opportunity for public comment and to request a public meeting.

(12) if notice is for air quality applications for a permit under Chapter 116, Subchapter L of this title (relating to Permits for Specific Designated Facilities),
filed on or before January 1, 2018, a Multiple Plant Permit under Chapter 116, Subchapter J of this title (relating to Multiple Plant Permits), or for a Plant-wide Applicability Limit under Chapter 116 of this title, a statement that any person is entitled to request a public meeting or a notice and comment hearing, as applicable from the commission;

(13) notification that a person residing within 440 yards of a concrete batch plant authorized by the Air Quality Standard Permit for Concrete Batch Plants adopted by the commission under Chapter 116, Subchapter F of this title is an affected person who is entitled to request a contested case hearing;

(14) the statement: "The facility's compliance file, if any exists, is available for public review in the regional office of the Texas Commission on Environmental Quality;"

(15) if notice is for an application for an air quality permit under Chapter 116, Subchapter B, Division 6 of this title (relating to Prevention of Significant Deterioration Review) that would authorize only emissions of greenhouse gases as defined in §101.1 of this title (relating to Definitions), a statement that any interested person is entitled to request a public meeting or a notice and comment hearing, as applicable, from the commission; and
(16) any additional information required by the executive director or needed to satisfy federal public notice requirements.

(f) The chief clerk shall mail Notice of Application and Preliminary Decision, or the consolidated Notice of Receipt of Application and Intent to Obtain Permit and Notice of Application and Preliminary Decision, as provided for in §39.603(c) or (d) of this title, to those listed in §39.602 of this title (relating to Mailed Notice). When notice of application and preliminary decision by publication or by mail is required by Subchapters H and K of this chapter for air quality permit applications, the text of the notice must include the information in this subsection:

(1) the information required by subsection (e) of this section;

(2) a summary of the executive director's preliminary decision and whether the executive director has prepared a draft permit;

(3) the location, at a public place in the county with internet access in which the facility is located or proposed to be located, at which a copy of the complete application and the executive director's draft permit and preliminary decision are available for review and copying;
(4) a brief description of public comment procedures, including a description of the manner in which comments regarding the executive director's draft permit and, where applicable, preliminary decision, preliminary determination summary, and air quality analysis may be submitted, or a statement in the notice for any air quality permit application for which there is an opportunity for contested case hearing, that only relevant and material issues raised during the comment period can be considered if a contested case hearing is granted. The public comment procedures must be printed in a font style or size that clearly provides emphasis and distinguishes it from the remainder of the notice;

(5) the deadline to file comments or request a public meeting. The notice should include a statement that a public meeting will be held by the executive director if requested by a member of the legislature who represents the general area where the facility is to be located or there is substantial public interest in the proposed activity. The notice must include a statement that the comment period will be for at least 30 days following publication of the Notice of Application and Preliminary Decision;

(6) if the application is subject to final approval by the executive director under Chapter 50 of this title, a statement that the executive director may issue final approval of the application unless a timely contested case hearing request or a timely request for reconsideration (if applicable) is filed with the chief clerk after transmittal of the executive director's decision and response to public comment;
(7) If the executive director prepares a Response to Comments as required by §55.156 of this title (relating to Public Comment Processing), the chief clerk will make the executive director’s response to public comments available on the commission’s website;

(8) in addition to the requirements in paragraphs (1) - (7) of this subsection, for air quality permit applications [filed on or after June 18, 2010] for permits under Chapter 116, Subchapter B, Divisions 5 and 6 of this title (relating to Nonattainment Review Permits and Prevention of Significant Deterioration Review):

(A) as applicable, the degree of increment consumption that is expected from the source or modification;

(B) a statement that the state’s air quality analysis is available for comment;

(C) the deadline to request a public meeting;

(D) a statement that the executive director will hold a public meeting at the request of any interested person; and
(E) a statement that the executive director's draft permit and preliminary decision, preliminary determination summary, and air quality analysis are available electronically on the commission's website at the time of publication of the Notice of Application and Preliminary Decision; and

(9) in addition to the requirements in paragraphs (1) - (7) of this subsection, for air quality permit applications [filed on or after June 18, 2010] for permits under Chapter 116, Subchapter E of this title:

(A) the deadline to request a public meeting;

(B) a statement that the executive director will hold a public meeting at the request of any interested person; and

(C) a statement that the executive director's draft permit and preliminary decision are available electronically on the commission's website at the time of publication of the Notice of Application and Preliminary Decision.

(g) When notice of a public meeting by publication or by mail is required by Subchapters H and K of this chapter for air quality permit applications [filed on or after June 18, 2010], the text of the notice must include the information in this subsection. [Air quality permit applications filed before June 18, 2010, are governed by
the rules in Subchapters H and K of this chapter as they existed immediately before June 18, 2010, and those rules are continued in effect for that purpose.]

(1) the information required by subsection (e)(1) - (3), (4)(A), (6), (8), (9), and (16) of this section;

(2) the date, time, and place of the public meeting, and a brief description of the nature and purpose of the meeting, including the applicable rules and procedures; and

(3) a brief description of public comment procedures, including a description of the manner in which comments regarding the executive director's draft permit and preliminary decision, and, as applicable, preliminary determination summary, and air quality analysis may be submitted and a statement in the notice for any air quality permit application for which there is an opportunity for contested case hearing, that only relevant and material issues raised during the comment period can be considered if a contested case hearing is granted.

(h) When notice of a contested case hearing under Chapter 80 of this title (relating to Contested Case Hearings) by publication or by mail is required by Subchapters H and K of this chapter for air quality permit applications, the text of the notice must include the following information:
(1) the information required by subsection (e)(1) - (3), (6), (9), and (16) of this section; and

(2) the date, time, and place of the hearing, and a brief description of the nature and purpose of the hearing, including the applicable rules and procedures.

§39.419. Notice of Application and Preliminary Decision.

(a) After technical review is complete, the executive director shall file the preliminary decision and the draft permit with the chief clerk, except for air applications under subsection (e) of this section. The chief clerk shall mail the preliminary decision concurrently with the Notice of Application and Preliminary Decision. For applications filed on or after September 1, 2015, this mailing will occur no earlier than 30 days after written notification of the draft permit is provided by the executive director to the state senator and state representative of the area in which the facility which is the subject of the application is or will be located. Then, when this chapter requires notice under this section, notice must be given as required by subsections (b) - (e) of this section.

(b) The applicant shall publish Notice of Application and Preliminary Decision at least once in the same newspaper as the Notice of Receipt of Application and Intent to
Obtain Permit, unless there are different requirements in this section or a specific subchapter in this chapter for a particular type of permit. The applicant shall also publish the notice under §39.405(h) of this title (relating to General Notice Provisions), if applicable.

(c) Unless mailed notice is otherwise provided under this section, the chief clerk shall mail Notice of Application and Preliminary Decision to those listed in §39.413 of this title (relating to Mailed Notice).

(d) The notice must include the information required by §39.411(c) of this title (relating to Text of Public Notice).

(e) For air applications the following apply.

(1) [Air quality permit applications that are filed on or after June 24, 2010, are subject to this paragraph. Applications filed before June 24, 2010 are governed by the rules as they existed immediately before June 24, 2010, and those rules are continued in effect for that purpose.] After technical review is complete for applications subject to the requirements for Prevention of Significant Deterioration and Nonattainment permits in Chapter 116, Subchapter B of this title (relating to New Source Review Permits), the executive director shall file the executive director's draft permit and preliminary decision, the preliminary determination summary and air
quality analysis, as applicable, with the chief clerk and the chief clerk shall post these on the commission's website. Notice of Application and Preliminary Decision must be published as specified in Subchapter K of this chapter (relating to Public Notice of Air Quality Permit Applications) and, as applicable, under §39.405(h) of this title, unless the application is for any renewal application of an air quality permit that would not result in an increase in allowable emissions and would not result in the emission of an air contaminant not previously emitted and the application does not involve a facility for which the applicant’s compliance history is in the lowest classification under Texas Water Code, §5.753 and §5.754 and the commission's rules in Chapter 60 of this title (relating to Compliance History).

(2) If notice under this section is required, the chief clerk shall mail notice according to §39.602 of this title (relating to Mailed Notice).

(3) If the applicant is seeking authorization by permit, registration, license, or other type of authorization required to construct, operate, or authorize a component of the FutureGen project as defined in §91.30 of this title (relating to Definitions), any application submitted on or before January 1, 2018, shall be subject to the public notice and participation requirements in Chapter 116, Subchapter L of this title (relating to Permits for Specific Designated Facilities).

§39.420. Transmittal of the Executive Director's Response to Comments and
Decision.

(a) Except for air quality permit applications, when required by and subject to §55.156 of this title (relating to Public Comment Processing), after the close of the comment period, the chief clerk shall transmit to the people listed in subsection (b) of this section the following information:

(1) the executive director's decision;

(2) the executive director's response to public comments;

(3) instructions for requesting that the commission reconsider the executive director's decision; and

(4) instructions for requesting a contested case hearing.

(b) The following persons shall be sent the information listed in subsection (a) of this section:

(1) the applicant;

(2) any person who requested to be on the mailing list for the permit
action;

(3) any person who submitted comments during the public comment period;

(4) any person who timely filed a request for a contested case hearing;

(5) Office of the Public Interest Counsel; and

(6) the director of the External Relations Division [Office of Public Assistance].

(c) When required by and subject to §55.156 of this title, for air quality permit applications, after the close of the comment period, the chief clerk shall:

(1) transmit to the people listed in subsection (d) of this section the following information:

(A) the executive director's decision;

(B) the executive director's response to public comments;
(C) instructions for requesting that the commission reconsider the executive director's decision; and

(D) instructions, which include the statements in clause (ii) of this subparagraph, for requesting a contested case hearing for applications:

(i) for the following types of applications:

(I) permit applications which are subject to the requirements for Prevention of Significant Deterioration and Nonattainment permits in Chapter 116, Subchapter B of this title (relating to New Source Review Permits) as described in §39.402(a)(2) of this title (relating to Applicability to Air Quality Permits and Permit Amendments);

(II) permit and permit amendment applications which are not subject to the requirements for Prevention of Significant Deterioration and Nonattainment permits in Chapter 116, Subchapter B of this title, and for which hearing requests were received by the end of the 30-day comment period following the final publication of Notice of Receipt of Application and Intent to Obtain Permit, and these requests were not withdrawn as described in:

(-a-) §39.402(a)(1), (3), (11) and (12) of this
(b) §§39.402(a)(4) and (5) of this title;

(III) applications described in §39.402(7) of this title;

and

(ii) the following statements must be included:

(I) a statement that a person who may be affected by emissions of air contaminants from the facility or proposed facility is entitled to request a contested case hearing from the commission;

(II) that a contested case hearing request must include the requestor's location relative to the proposed facility or activity;

(III) that a contested case hearing request should include a description of how and why the requestor will be adversely affected by the proposed facility or activity in a manner not common to the general public, including a description of the requestor's uses of property which may be impacted by the proposed facility or activity;
(IV) that only relevant and material disputed issues of fact raised during the comment period can be considered if a contested case hearing request is granted; and

(V) that a contested case hearing request may not be based on issues raised solely in a comment withdrawn by the commenter in writing by filing a withdrawal letter with the chief clerk prior to the filing of the Executive Director’s Response to Comment; and

(2) for applications subject to the requirements of requirements for Prevention of Significant Deterioration and Nonattainment permits in Chapter 116, Subchapter B of this title, make available by electronic means on the commission’s Web site the executive director's draft permit and preliminary decision, the executive director’s response to public comments, and as applicable, preliminary determination summary and air quality analysis.

(d) The following persons shall be sent the information listed in subsection (c) of this section:

(1) the applicant;

(2) any person who requested to be on the mailing list for the permit
(3) any person who submitted comments during the public comment period;

(4) any person who timely filed a request for a contested case hearing;

(5) Office of the Public Interest Counsel; and

(6) the director of the External Relations Division [Office of Public Assistance].

(e) For air quality permit applications which meet the following conditions, items listed in subsection (c)(1)(C) and (D) of this section are not required to be included in the transmittals:

(1) applications for which no timely hearing request is submitted in response to the Notice of Receipt of Application and Intent to Obtain a Permit;

(2) applications for which one or more timely hearing requests are submitted in response to the Notice of Receipt of Application and Intent to Obtain Permit and for which this is the only opportunity to request a hearing, and all of the
requests are withdrawn before the date the preliminary decision is issued;

(3) the application is for any renewal application that would not result in an increase in allowable emissions and would not result in the emission of an air contaminant not previously emitted unless the application involves a facility for which the applicant’s compliance history is in the lowest classification under Texas Water Code, §5.753 and §5.754 and the commission's rules in Chapter 60 of this title (relating to Compliance History); or

(4) applications for a Prevention of Significant Deterioration permit that would authorize only emissions of greenhouse gases as defined in §101.1 of this title (relating to Definitions);[;]

(f) For applications for which all timely comments and requests have been withdrawn before the filing of the executive director’s response to comments, the chief clerk shall transmit only the items listed in subsection (a)(1) and (2) of this section and the executive director may act on the application under §50.133 of this title (relating to Executive Director Action on Application or WQMP Update).

(g) For post-closure order applications under Subchapter N of this chapter (relating to Public Notice of Post-Closure Orders), the chief clerk shall transmit only items listed in subsection (a)(1) and (2) of this section to the people listed in subsection
(b)(1) - (3), (5), and (6) of this section.

(h) For applications for air quality permits under Chapter 116, Subchapter L of this title (relating to Permits for Specific Designated Facilities), the chief clerk will not transmit the item listed in subsection (a)(4) of this section.
SUBCHAPTER K: PUBLIC NOTICE OF AIR QUALITY PERMIT APPLICATIONS

§39.601, §39.603

Statutory Authority

The amendments are proposed under Texas Water Code (TWC), §5.013, concerning General Jurisdiction of Commission, which establishes the general jurisdiction of the commission; TWC, §5.102, concerning General Powers, which provides the commission with the general powers to carry out its duties under the TWC; TWC, §5.103, concerning Rules, which authorizes the commission to adopt rules necessary to carry out its powers and duties under the TWC; and TWC, §5.105, concerning General Policy, which authorizes the commission by rule to establish and approve all general policy of the commission. The amendments are also proposed under Texas Health and Safety Code (THSC), §382.002, concerning Policy and Purpose, which establishes the commission’s purpose to safeguard the state’s air resources, consistent with the protection of public health, general welfare, and physical property; THSC, §382.011, concerning General Powers and Duties, which authorizes the commission to control the quality of the state’s air; THSC, §382.012, concerning State Air Control Plan, which authorizes the commission to prepare and develop a general, comprehensive plan for the proper control of the state’s air; THSC, §382.017, concerning Rules, which authorizes the commission to adopt rules consistent with the policy and purposes of the Texas Clean Air Act; and THSC, §382.056, concerning Notice of Intent to Obtain Permit or Permit Review; Hearing, which prescribes the public participation requirements for certain applications filed with the commission. In addition, the
amendments are also proposed under Texas Government Code, §2001.004, concerning Requirement to Adopt Rules of Practice and Index Rules, Orders, and Decisions, which requires state agencies to adopt procedural rules; and Texas Government Code, §2003.047, concerning Hearings for Texas Commission on Environmental Quality, which authorizes the State Office of Administrative Hearings to conduct hearings for the commission; and the Federal Clean Air Act, 42 United States Code, §§7401, et seq., which requires states to submit state implementation plan revisions that specify the manner in which the national ambient air quality standards will be achieved and maintained within each air quality control region of the state.

The proposed amendments implement THSC, §382.056.

[AIR QUALITY PERMIT APPLICATIONS OR REGISTRATIONS THAT ARE DECLARED ADMINISTRATIVELY COMPLETE BEFORE SEPTEMBER 1, 1999 ARE SUBJECT TO THE REQUIREMENTS OF CHAPTER 116, SUBCHAPTER B, DIVISION 3 (RELATING TO PUBLIC NOTIFICATION AND COMMENT PROCEDURES) (EFFECTIVE MARCH 21, 1999) OR (EFFECTIVE DECEMBER 24, 1998).] AIR QUALITY PERMIT APPLICATIONS OR REGISTRATIONS THAT ARE DECLARED ADMINISTRATIVELY COMPLETE BY THE EXECUTIVE DIRECTOR ON OR AFTER SEPTEMBER 1, 1999 ARE SUBJECT TO THIS SUBCHAPTER.

(a) Notice of Receipt of Application and Intent to Obtain Permit (NORI) under §39.418 of this title (relating to Notice of Receipt of Application and Intent to Obtain Permit) is required to be published no later than 30 days after the executive director declares an application administratively complete. This notice must contain the text as required by §39.411(e) of this title (relating to Text of Public Notice). This notice is not required for Plant-wide Applicability Limit permit applications.

(b) Notice of Application and Preliminary Decision (NAPD) under §39.419 of this title (relating to Notice of Application and Preliminary Decision) is required to be published within 33 days after the chief clerk has mailed the preliminary decision concurrently with the NAPD to the applicant. This notice must contain the text as required by §39.411(f) of this title.

(c) Owners and operators who submit initial registration applications on or after January 1, 2017, for authorization to construct and operate a concrete batch plant under the Air Quality Standard Permit for Concrete Batch Plants adopted by the commission under Chapter 116, Subchapter F of this title (relating to Standard Permits) shall publish a consolidated NORI under §39.418 of this title and a NAPD under §39.419 of this title no later than 30 days after the chief clerk has mailed the
preliminary decision concurrently with the consolidated NORI and NAPD to the registrant. This notice must contain the text as required by §39.411(f) of this title.

(d) Owners and operators who submit applications that are declared administratively and technically complete and for which a draft permit is prepared by the executive director within 15 days of receipt of the application shall publish a consolidated NORI under §39.418 of this title and a NAPD under §39.419 of this title no later than 30 days after the executive director notifies the applicant of the declaration of administrative completeness and the chief clerk has mailed the preliminary decision concurrently with the consolidated NORI and NAPD to the applicant. This notice must contain the text as required by §39.411(e) of this title.

(e) General newspaper notice. Unless otherwise specified, when this chapter requires published notice of an air quality permit application or registration, the applicant or registrant shall publish notice in a newspaper of general circulation in the municipality in which the facility is located or is proposed to be located or in the municipality nearest to the location or proposed location of the facility, as follows.

(1) One notice must be published in the public notice section of the newspaper and must comply with §39.411(e) - (g) of this title.
(2) Another notice with a total size of at least six column inches, with a vertical dimension of at least three inches and a horizontal dimension of at least two column widths, or a size of at least 12 square inches, must be published in a prominent location elsewhere in the same issue of the newspaper. This notice must contain the following information:

(A) permit application or registration number;

(B) company name;

(C) type of facility;

(D) description of the location of the facility; and

(E) a note that additional information is in the public notice section of the same issue.

(f) Alternative publication procedures for small businesses.

(1) The applicant or registrant does not have to comply with subsection (e)(2) [(d)(2)] of this section if all of the following conditions are met:
(A) the applicant or registrant and source meets the definition of a small business stationary source in Texas Water Code, §5.135 including, but not limited to, those which:

(i) are not a major stationary source for federal air quality permitting;

(ii) do not emit 50 tons or more per year of any regulated air pollutant;

(iii) emit less than 75 tons per year of all regulated air pollutants combined; and

(iv) are owned or operated by a person that employs 100 or fewer individuals; and

(B) if the applicant’s or registrant’s site meets the emission limits in §106.4(a) of this title (relating to Requirements for Permitting by Rule) it will be considered to not have a significant effect on air quality.

(2) The executive director may post information regarding pending air permit applications on its website, such as the permit number, company name, project
type, facility type, nearest city, county, date public notice authorized, information on comment periods, and information on how to contact the agency for further information.

(g) If an air application or registration is referred to State Office of Administrative Hearings for a contested case hearing under Chapter 80 of this title (relating to Contested Case Hearings), the applicant or registrant shall publish notice once in a newspaper as described in subsection (e) [(d)] of this section, containing the information under §39.411(h) of this title. This notice must be published and affidavits filed with the chief clerk no later than 30 days before the scheduled date of the hearing.
