

**NORTHBELT**  
**§§351.1-351.4**

**§351.1. Definitions.**

**Authority** - The Gulf Coast Waste Disposal Authority.

**Regional Area** - The area within the City of Houston, its extraterritorial jurisdiction and termed the Northbelt Service Area.

**§351.2. Designation of Regional Area.**

The area within the City of Houston, its extraterritorial jurisdiction and termed the Northbelt Service Area is designated as an area in which it is necessary for the health, safety and welfare of the people in the area that a regional system of waste collection, treatment and disposal be implemented to serve the needs of the citizens in the area by preventing pollution and maintaining and enhancing the quality of water in the state.

**§351.3. Permittee.**

Subject to §26.084, all applications for domestic waste discharge permits, after June 24, 1975, for the discharge of waste in the Regional Area shall be in the name of the Authority.

**§351.4. Submission of Agreements to Executive Director.**

The Authority shall submit whatever binding agreements it may enter into with the entities in the Regional Area for the providing of regional waste collection, treatment and disposal service to the Executive Director for approval.

**ROSILLO CREEK**  
**§§351.21-351.22**

**§351.21. Designation of Regional Area.**

Rosillo Creek and portions of Leon, Olmos, and Salado Creeks and their respective watersheds and defined by Exhibit No. 2, a part of Ordinance No. 38511 of the City of San Antonio dated May 7, 1970, an area lying wholly within Bexar County, Texas is designated as an area which the development and use of regional and area-wide waste collection, treatment, and disposal systems are necessary and desirable in order to prevent pollution and maintain and enhance the quality of the waters in the state.

**§351.22. Designation of Regional Entity.**

The City of San Antonio is designated as the governmental agency to implement the regional and area-wide system in the Regional Area in Rosillo Creek and portions of Leon, Olmos, and Salado Creeks and their respective watersheds.

**EAST FORK TRINITY RIVER**  
**§§351.31-351.35**

**§351.31. Definitions.**

**District** - The North Texas Municipal Water District.

**Regional Area** - The watershed area of the East Fork of the Trinity River that lies in Dallas, Kaufman, Rockwall, and Collin Counties.

**§351.32. Designation of Regional Area.**

The watershed area of the East Fork of the Trinity River that lies in Dallas, Kaufman, Rockwall, and Collin Counties is designated as an area in which the implementation of a regional or area-wide system is necessary or desirable to effectuate the policy stated in §26.081.

**§351.33. Designation of Regional Entity.**

The North Texas Municipal Water District is designated as the governmental entity to design, construct and be the operating agency for a regional sewerage system in the Regional Area and to provide the services therefor.

**§351.34. Duck Creek Site.**

The Duck Creek site described in the North Central Texas Council of Government's Upper Trinity River Basin Comprehensive Sewerage Plan will not be designated as a regional sewerage treatment center.

**§351.35. Additional Duties of Regional Entity.**

After development of the area-wide system, the District shall provide regional wastewater collection and treatment service to all legal entitles requiring such services within the defined area, upon such terms as may be agreed upon by the parties or as may be ordered by the Commission if agreement cannot be reached.

**LOWER RIO GRANDE VALLEY**  
**§§351.41-351.45**

**§351.41. Definitions.**

**Authority** - The Rio Grande Valley Pollution Control Authority.

**Regional Area** - The area of Hidalgo and Cameron Counties, excluding the area within the boundaries of the Cameron County Fresh Water Supply District No. 1 and the incorporated and extraterritorial jurisdictional limits of the City of Brownsville, Texas.

**§351.42. Designation of Regional Area.**

The area of Hidalgo and Cameron Counties, excluding the area within the boundaries of the Cameron County Fresh Water Supply District No. 1 and the incorporated and extraterritorial jurisdiction limits of the City of Brownsville, Texas, is designated as an area in which the implementation of a regional system is necessary to effectuate the policy stated in §26.081.

**§351.43. Designation of Regional Entity.**

The Rio Grande Valley Pollution Control Authority is designated as the governmental entity to design, construct, and operate a regional sewerage system in the Regional Area.

**§351.44. Additional Duties of Regional Entity.**

After development of the area-wide system, the Rio Grande Valley Pollution Control Authority shall provide a regional wastewater collection and treatment service to all legal entities requiring such services within the Regional Area, upon such terms as may be agreed upon by the parties or as may be ordered by the Commission if agreement cannot be reached.

**§351.45. Assistance to Department.**

The Rio Grande Valley Pollution Control Authority is designated as the agency to aid the Department in inspection, surveillance, testing, enforcement, and such other powers and responsibilities contained in the Authority's creating and enabling legislation, in all of Hidalgo and Cameron Counties.

**HARRIS COUNTY FRESH WATER SUPPLY  
DISTRICT NO. 63  
§§351.51-351.54**

**§351.51. Definitions.**

**Authority** - The Gulf Coast Waste Disposal Authority. system which will provide waste disposal services to the Regional Area.

**Regional area** - The area including and adjacent to Harris County Fresh Water Supply District Number 63 and Rosewood Municipal Utility District, the perimeter of which is described as follows: Beginning at the intersection of Addicks-Howell Road and Westheimer-Beeler Road, proceeding south along Addicks-Howell Road to its intersection with Brays Bayou, then east along Brays Bayou to its intersection with Synott Road, then south along Synott Road to its intersection with Alief-Clodine Road, then east along Alief-Clodine Road to its intersection with Dairy-Ashford Road, then south along Dairy-Ashford Road to its intersection with High Star Drive, then east along High Star Drive to its intersection with Cook Road, then north along Cook Road to its intersection with Seventh, then east along Seventh to its intersection with Continental Drive, then south along Continental Drive to its intersection with High Star Drive, then east along High Star Drive to its intersection with Brays Bayou, then north along Brays Bayou to its intersection with Old Westheimer Road, then north along Old Westheimer Road to its intersection with Westheimer Road (FM 1093), then west along Westheimer Road to its intersection with the east boundary of Rosewood Municipal Utility District, then counter-clockwise around the perimeter of Rosewood Municipal Utility District to the intersection with Westheimer~Beeler Road, then west along Westheimer-Beeler Road, to the intersection with Addicks-Howell Road (the starting point).

**§351.52. Designation of Regional Area.**

The regional area including and adjacent to Harris County Fresh Water Supply District No. 63 and Rosewood Municipal Utility District, is designated as an area wherein it is necessary to the health, safety and welfare of the people to implement the state policy to encourage and promote the creation and use of a regional and area-wide waste collection, treatment and disposal system to serve the disposal needs of the citizens of that area and to prevent pollution and maintain and enhance the quality of the water in the state.

**§351.53. Designation of Regional Entity.**

The Gulf Coast Waste Disposal Authority is designated as the entity responsible for the planning, construction and operation of an integrated regional wastewater treatment system for the regional area, and the regional system proposed to be developed by the authority is designated as the system which will provide waste disposal services to the regional area.

**§351.54. Preparation of Plans and Contractual Instruments.**

The Authority, subject to the availability of funds, shall proceed as expeditiously as possible with the following:

(1) The preparation of plans and specifications for the regional wastewater treatment plant facilities and the submission of this data to the Executive Director.

(2) The preparation of contractual instruments necessary to implement the regional system and the initiation of a program designed to bring about the execution of these contractual documents.

**CIBOLO CREEK**  
**§§351.61-351.66**

**§351.61. Definitions.**

**Authority** - The Cibolo Creek Municipal Authority.

**Regional Area** - That portion of the Cibolo Creek Watershed lying in the vicinity of the cities of Cibolo, Schertz, Universal City, Selma, Bracken, and Randolph Air Force Base.

**§351.62. Designation of Regional Entity.**

The Cibolo Creek Municipal Authority is designated the governmental entity to develop a regional sewerage system in that area of Cibolo Creek Watershed, in the vicinity of the cities of Cibolo, Schertz, Universal City, Selma, Bracken, and Randolph Air Force Base.

**§351.63. Duties of Regional Entity.**

The Authority shall design and construct and be the operating agency in this area, with technical advice and assistance from the San Antonio River Authority as needed and requested. Should the Cibolo Creek Municipal Authority, at any future time and for any reason, be unable to operate this system in the manner necessary to protect the waters in that portion of the Cibolo Creek Watershed, the Board shall reserve the right to designate another regional or basin-wide authority to operate the system.

**§351.64. Prohibition of Restrictions Limiting Service.**

The Authority shall not permit any covenant or other restrictions to be placed in any of its bonds or other contracts which would prohibit the Authority from extending its lines and other facilities across county or service area lines to serve other entities in this area.

**§351.65. Issuance of Permits.**

All future permits and amendments to existing permits pertaining to discharges of domestic wastewater effluent within the Cibolo Creek Regional Area shall be issued only to the Authority.

**§351.66. Additional Duties of Regional Entity.**

The Cibolo Creek Municipal Authority shall provide waste treatment and disposal services to the City of Cibolo with the facilities provided pursuant to this order at the earliest practicable time, upon such terms as may be agreed upon by the parties or as may be ordered by the Commission if agreement cannot be reached. The Authority also shall provide domestic and municipal waste collection, treatment and disposal services, is required, to any legal entity requiring such services within the regional area upon such terms as may be agreed upon by the parties or as may be ordered by the Commission if agreement cannot be reached.

**BLACKHAWK**  
**§§351.81-351.87**

**§351.81. DEFINITIONS.**

**Blackhawk Service Area** - That area described as follows: Beginning at the intersection of IH 45 and FM 1959, proceeding west along FM 1959 to its intersection with Hall Road, then continuing west along the City of Friendswood's Extra Territorial Jurisdiction (ETJ) boundary to its intersection with Clear Creek, then east following Clear Creek to its intersection with the Brazoria County and Galveston County political boundary, then south 4.49 miles following the county line, then east 500 feet to its intersection with Chigger Creek, then east following Chigger Creek 3,600 feet, then southeast 3,800 feet to its intersection with FM 528, then south following FM 528, 1.18 miles, then east to its intersection with the City of Friendswood's and City of League City's political boundary, then east following the City of Friendswood's city limit following Clear Creek to its intersection with IH 45, then north following IH 45 to its intersection with FM 1959 completing the perimeter.

**Regional Entities** - The Gulf Coast Waste Disposal Authority and the City of Friendswood.

**§351.82. Designation of Regional Area.**

The area known as Blackhawk Service Area is designated as an area wherein it is necessary to the health, safety and welfare of the people to implement the state policy to encourage and promote the creation and use of a regional and area-wide waste collection, treatment and disposal system to serve the disposal needs of the citizens of that area to prevent pollution and maintain and enhance the quality of the water of the state.

**§351.83. Designation of Regional Entities.**

The Gulf Coast Waste Disposal Authority and the City of Friendswood as partners are jointly designated as the entities responsible for the planning, construction and operation of an integrated regional wastewater treatment system for the Blackhawk Service Area, as set out in the regional contract between these two entities.

**§351.84. Designation of Regional System.**

The regional system proposed to be developed by Gulf Coast Waste Disposal Authority and the City of Friendswood within the Blackhawk Service Area is designated as the system which will provide disposal services to the area.

**§351.85. Duties of Regional Entities.**

Gulf Coast Waste Disposal Authority and the City of Friendswood, subject to the availability of funds, are directed to proceed as expeditiously as possible with the following:

(1) The preparation of plans and specifications for the regional wastewater treatment plant facilities and the submission of this data to the Executive Director; and

(2) The preparation of contractual instruments necessary to implement the regional system and the initiation of a program designed to bring about the execution of these contractual documents.

**§351.86. Approval of Service Contracts.**

The Gulf Coast Waste Disposal Authority and the City of Friendswood shall submit whatever service contracts they may enter into with the different entities within the Blackhawk Service Area for the providing of waste collection, treatment and disposal services, to the Executive Director for approval; such approval shall be contingent on the reasonableness of the service contracts consistent with providing regional service for the area.

**§351.87. Issuance of Permits.**

All permit applications subsequent to May 27, 1975, shall be submitted in the names of the above regional entities for the Blackhawk Service Area.

**VIDOR METROPOLITAN AREA**  
**§§351.101-351.104**

**§351.101. DEFINITIONS.**

**Vidor Metropolitan Area** - That area which encompasses an approximately twenty-six (26) square mile area in northwest Orange County and includes the cities of Pine Forest, Rose City, and Vidor and development and semideveloped areas adjacent thereto.

**District** - The Orange County Water Control and Improvement District No. 1.

**§351.102. Designation of Regional Area.**

The Vidor Metropolitan Area is designated as an area in which the implementation of a regional or area-wide system is necessary or desirable to effectuate the policy stated in 26.081.

**§351.103. Designation of Regional Entities.**

Orange County Water Control and Improvement District No. 1 is designated as the governmental entity to design, construct and be the operating agency for a regional sewerage system in the Vidor Metropolitan Area and to provide the services therefor.

**§351.104. Designation of Regional System.**

After development of the area-wide system, the District shall provide regional wastewater collection and treatment service to all legal entities requiring such services within the Vidor Metropolitan Area, upon such terms as may be agreed upon by the parties or as may be ordered by the Commission if agreement cannot be reached.
