§39.551, §39.553
Effective June 24, 2010

§39.551. Application for Wastewater Discharge Permit, Including Application for the Disposal of Sewage Sludge or Water Treatment Sludge.

(a) Applicability. This section applies to applications for wastewater discharge permits, including disposal of sewage sludge or water treatment sludge applications that are declared administratively complete on or after September 1, 1999. This subchapter does not apply to registrations and notifications for sludge disposal under §312.13 of this title (relating to Actions and Notice).

(b) Notice of receipt of application and intent to obtain permit.

(1) Notice under §39.418 of this title (relating to Notice of Receipt of Application and Intent to Obtain Permit) is required to be published no later than 30 days after the executive director deems an application administratively complete. This notice must contain the text as required by §39.411(b)(1) - (9) and (11) of this title (relating to Text of Public Notice). In addition to the requirements of §39.418 of this title, the chief clerk shall mail notice to the School Land Board if the application will affect lands dedicated to the permanent school fund. The notice shall be in the form required by Texas Water Code, §5.115(c).

(2) Mailed notice to adjacent or downstream landowners is not required for:

(A) an application to renew a permit;

(B) an application for a new Texas Pollutant Discharge Elimination System (TPDES) permit for a discharge authorized by an existing state permit issued before September 14, 1998 for which the application does not propose any term or condition that would constitute a major amendment to the state permit under §305.62 of this title (relating to Amendments); or

(C) an application for a new permit or major amendment to a TPDES permit that authorizes the discharges from a municipal separate storm sewer system.

(3) For permits listed in paragraph (2)(C) of this subsection, the executive director will require the applicant to post a copy of the notice of receipt of application and intent to obtain a permit. The notice must be posted within 30 days of the application being declared administratively complete and remain posted until
the commission has taken final action on the application. The notice must be posted at a place convenient and readily accessible to the public in the administrative offices of the political subdivision in the county in which the MS4 or discharge is located.

(c) Notice of application and preliminary decision. Notice under §39.419 of this title (relating to Notice of Application and Preliminary Decision) is required to be published after the chief clerk has mailed the preliminary decision and the Notice of Application and Preliminary Decision to the applicant. This notice must contain the text required by §39.411(b)(1) - (3), (5) - (7), (9), and (11) and (c)(2) - (6) of this title. In addition to §39.419 of this title, for all applications except applications to renew permits, the following provisions apply.

(1) The applicant shall publish notice of application and preliminary decision at least once in a newspaper regularly published or circulated within each county where the proposed facility or discharge is located and in each county affected by the discharge. The executive director shall provide to the chief clerk a list of the appropriate counties, and the chief clerk shall provide the list to the applicant.

(2) The chief clerk shall mail notice to the persons listed in §39.413 of this title (relating to Mailed Notice).

(A) For any application involving an average daily discharge of five million gallons or more, in addition to the persons listed in §39.413 of this title, the chief clerk shall mail notice to each county judge in the county or counties located within 100 statute miles of the point of discharge who has requested in writing that the commission give notice, and through which water into or adjacent to which waste or pollutants are to be discharged under the permit, flows after the discharge.

(B) If the notice of the receipt of application and intent to obtain a permit was mailed more than two years prior to the time that notice of application and preliminary decision is scheduled by the executive director to be mailed, the applicant must submit an updated landowner map, landowner list, and any associated information for mailing the notice of application and preliminary decision. Notwithstanding this requirement, the Executive Director may require an updated landowner map, landowner list, and any associated information for mailing the notice of the application and preliminary decision if circumstances in the area have significantly changed that warrant updated lists.

(3) The notice must set a deadline to file public comment with the chief clerk that is not less than 30 days after newspaper publication. However, the notice may be mailed to the county judges under paragraph (2) of this subsection no later than 20 days before the deadline to file public comment.
(4) For TPDES permits, the text of the notice shall include:

(A) everything that is required by §39.411(b)(1) - (3), (5) - (7), (9), and (11) and (c)(2) - (6) of this title;

(B) a general description of the location of each existing or proposed discharge point and the name of the receiving water; and

(C) for applications concerning the disposal of sludge:

(i) the use and disposal practices;

(ii) the location of the sludge treatment works treating domestic sewage sludge; and

(iii) the use and disposal sites known at the time of permit application.

(5) Mailed notice to adjacent or downstream landowners is not required for:

(A) an application to renew a permit;

(B) an application for a new TPDES permit for a discharge authorized by an existing state permit issued before September 14, 1998 for which the application does not propose any term or condition that would constitute a major amendment to the state permit under §305.62 of this title; or

(C) an application for a new permit or major amendment to a TPDES permit that authorizes the discharges from a municipal separate storm sewer system.

(6) For permits listed in paragraph (5)(C) of this subsection, the executive director will require the applicant to post a copy of the notice of application and preliminary decision. The notice must be posted on or before the first day of published newspaper notice and must remain posted until the commission has taken final action on the application. The notice must be posted at a place convenient and readily accessible to the public in the administrative offices of the political subdivision in the county in which the MS4 or discharge is located.

(d) Notice of application and preliminary decision for certain TPDES permits. For a new TPDES permit for which the discharge is authorized by an existing state permit issued before September 14, 1998, the following shall apply:
(1) If the application does not propose any term or condition that would constitute a major amendment to the state permit under §305.62 of this title, the following mailed and published notice is required.

(A) The applicant shall publish notice of the application and preliminary decision at least once in a newspaper regularly published or circulated within each county where the proposed facility or discharge is located and in each county affected by the discharge. The executive director shall provide to the chief clerk a list of the appropriate counties, and the chief clerk shall provide the list to the applicant.

(B) The chief clerk shall mail notice of the application and preliminary decision, providing an opportunity to submit public comments, to request a public meeting, or to request a public hearing to those listed in §39.413 of this title.

(C) The notice must set a deadline to file public comment, or to request a public meeting, with the chief clerk that is at least 30 days after newspaper publication.

(D) The text of the notice shall include:

(ii) a general description of the location of each existing or proposed discharge point and the name of the receiving water; and

(iii) for applications concerning the disposal of sludge:

(I) the use and disposal practices;

(II) the location of the sludge treatment works treating domestic sewage sludge; and

(III) the use and disposal sites known at the time of permit application.

(2) If the application proposes any term or condition that would constitute a major amendment to the state permit under §305.62 of this title, the applicant must follow the notice requirements of subsection (b) of this section.

(e) Notice for other types of applications. Except as required by subsections (a), (b), and (c) of this section, the following notice is required for certain applications.
(1) For an application for a minor amendment to a permit other than a TPDES permit, or for an application for a minor modification of a TPDES permit, under Chapter 305, Subchapter D of this title (relating to Amendments, Renewals, Transfers, Corrections, Revocation, and Suspension of Permits), the chief clerk shall mail notice, that the executive director has determined the application is technically complete and has prepared a draft permit, to the mayor and health authorities for the city or town, and to the county judge and health authorities for the county in which the waste will be discharged. The notice shall state the deadline to file public comment, which shall be no earlier than ten days after mailing notice.

(2) For an application for a renewal of a confined animal feeding operation permit which was issued between July 1, 1974, and December 31, 1977, for which the applicant does not propose to discharge into or adjacent to water in the state and does not seek to change materially the pattern or place of disposal, no notice is required.

(3) For an application for a minor amendment to a TPDES permit under Chapter 305, Subchapter D of this title, the following requirements apply.

(A) The chief clerk shall mail notice of the application and preliminary decision, providing an opportunity to submit public comments and to request a public meeting to:

The executive director shall provide to the chief clerk a list of the appropriate counties.

(3) Not less than 30 days before the hearing, the chief clerk shall mail notice to the persons listed in §39.413 of this title, except that mailed notice to adjacent or downstream landowners is not required for an application to renew a permit.
