Dear Mr. Baldauf:

The revised effective federal operating permit (FOP) for The Goodyear Tire & Rubber Company, Houston Chemical Plant is enclosed. On January 8, 2010, the Environmental Protection Agency (EPA) notified the Texas Commission on Environmental Quality (TCEQ) of objections to the issuance of the FOP. The TCEQ responded to EPA objections on June 30, 2010. On February 17, 2012, the EPA informed the TCEQ that there were no additional comments on FOP O1227. This letter constitutes authority to operate the changes identified in the FOP revision application.

Consistent with Title 30 Texas Administrative Code Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Please note, changes have been made to the permit since commencement of the public announcement period. A detailed explanation of these changes is enclosed.
