Dear Mr. Laughlin:

The effective federal operating permit (FOP) for E. I. du Pont de Nemours and Company, Sabine General Site is enclosed. On November 6, 2009, the Environmental Protection Agency (EPA) notified the Texas Commission on Environmental Quality (TCEQ) of objections to the issuance of the FOP. The TCEQ responded to EPA objections on April 21, 2010. Per the March 18, 2011 EPA letter to the TCEQ, Sabine General Site's objection has been addressed. This FOP constitutes authority to operate the emission units identified in the FOP application.

It should be noted that from the date of this letter E. I. du Pont de Nemours and Company, Sabine General Site must operate in accordance with the requirements of Title 30 Texas Administrative Code Chapter 122 (30 TAC Chapter 122) and the FOP. Some of the terms and conditions contained in the FOP include recordkeeping conditions, reporting conditions (which includes deviation reporting), and compliance certification conditions. All reports, along with any questions regarding the reports, shall be forwarded to the Texas Commission on Environmental Quality, Beaumont Regional Office, 3870 Eastex Fwy, Beaumont, Texas 77703-1830.

Consistent with 30 TAC Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.
