Dear Mr. Baran:

The revised effective federal operating permit (FOP) for Dal-Tile Corporation is enclosed. On December 18, 2009, the Environmental Protection Agency (EPA) notified the Texas Commission on Environmental Quality (TCEQ) of objections to the issuance of the FOP. The TCEQ responded to EPA objections on June 28, 2010. On December 20, 2011, the EPA informed the TCEQ that there were no additional comments on FOP O2420. This FOP constitutes authority to operate the emission units identified in the FOP application.

Consistent with Title 30 Texas Administrative Code Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Thank you again for your cooperation in this matter. If you have questions concerning the review or this notice, please contact Ms. Kim Strong, P.E. at (512) 239-0252.
