Dear Mr. Cargile:

The effective federal operating permit (FOP) for DCP Midstream, LP, Port Arthur Gas Plant is enclosed. On November 13, 2009, the Texas Commission on Environmental Quality (TCEQ) received an objection on this permit project from the Environmental Protection Agency (EPA). The TCEQ responded on June 30, 2010. The EPA authorized the issuance of this project on March 23, 2011. This FOP constitutes authority to operate the emission units identified in the FOP application.

It should be noted that from the date of this letter DCP Midstream, LP, Port Arthur Gas Plant must operate in accordance with the requirements of Title 30 Texas Administrative Code Chapter 122 (30 TAC Chapter 122) and the FOP. Some of the terms and conditions contained in the FOP include recordkeeping conditions, reporting conditions (which includes deviation reporting), and compliance certification conditions. All reports, along with any questions regarding the reports, shall be forwarded to the Texas Commission on Environmental Quality, Beaumont Regional Office, 3870 Eastex Freeway, Beaumont, Texas 77703-1830.

Consistent with 30 TAC Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Thank you again for your cooperation in this matter. If you have questions concerning the review of this notice, please contact Ms. Natalia Escobedo at (512) 239-6202.

This action is taken under authority delegated by the Executive Director of the TCEQ.

Sincerely,

Steve Hagle, P.E., Director  
Air Permits Division
