Dear Mr. Connelly:

The revised effective federal operating permit (FOP) for Ticona Polymers, Inc., Co-Gen is enclosed. On November 20, 2009, the Environmental Protection Agency (EPA) notified the Texas Commission on Environmental Quality (TCEQ) of objections to the issuance of the FOP. The TCEQ responded to EPA objections on June 30, 2010 and February 10, 2012. On March 23, 2012, the EPA informed the TCEQ that there were two additional comments and then to proceed with the permit process on FOP O2013. The comments have been addressed. This FOP constitutes authority to operate the emission units identified in the FOP application.

Consistent with Title 30 Texas Administrative Code Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Thank you again for your cooperation in this matter. If you have questions concerning the review or this notice, please contact Ms. Kim Strong, P.E. at (512) 239-0252.
