Dear Mr. Freiburger:

The revised effective federal operating permit (FOP) for Phillips 66 Company, Sweeny Refinery is enclosed. This letter constitutes authority to operate the changes identified in the FOP revision application.

All significant changes to site operating permits are subject to public petition for 60 days following the expiration of the 45-day U.S. Environmental Protection Agency (EPA) review. The public petition period for the FOP extends from July 7, 2012 until September 4, 2012. If the EPA receives a valid petition and objects to the above-referenced permit revision, you will be notified promptly by the Texas Commission on Environmental Quality (TCEQ).

Consistent with 30 TAC Chapter 122, Subchapter C, the permit holder shall submit an application to the Air Permits Division (APD) for a revision to an FOP for those activities at a site which change, add, or remove one or more FOP terms or conditions. The permit holder shall also submit an application to the APD for a revision to a permit to address the following: the adoption of an applicable requirement previously designated as federally enforceable only; the promulgation of a new applicable requirement; the adoption of a new state-only requirement; or a change in a state-only designation.

Thank you again for your cooperation in this matter. If you have questions concerning the review or this notice, please contact Mr. Alfredo Mendoza, P.E. at (512) 239-1335.

Mr. Gary A. Freiburger
