

Texas Commission on Environmental Quality
Exemption §106.182 Checklist
(Previously Standard Exemption 33)
Ceramic Ware Kilns

The following checklist has been developed so the Texas Commission on Environmental Quality (TCEQ) can confirm you meet exemption requirements. The questions are derived from § 106, Subchapter A, and the exemption list. Please read all questions and check “YES” or “NO” (equivalent to True or False), or give specific information as applicable to your facility. If you do not meet all conditions of a specific exemption, you will not be allowed to operate the facility under exemption and you must apply for a construction permit as required under § 116.111 prior to construction.

For additional assistance with your application, including resources to help calculate your emissions, please visit the Small Business and Local Government Assistance (SBLGA) webpage at the following link:
www.TexasEnviroHelp.org .

Please check the most appropriate answer	
1. Kilns are used for firing ceramic ware?	<input type="checkbox"/> YES <input type="checkbox"/> NO
2. Kilns are heated by natural gas?	<input type="checkbox"/> YES <input type="checkbox"/> NO
3. Kilns are heated by liquid petroleum gas?	<input type="checkbox"/> YES <input type="checkbox"/> NO
4. Kilns are heated by electricity?	<input type="checkbox"/> YES <input type="checkbox"/> NO
5. Kilns are heated by any combination of above?	<input type="checkbox"/> YES <input type="checkbox"/> NO
6. The total heat input is 10 million Btu per hour or less?	<input type="checkbox"/> YES <input type="checkbox"/> NO
7. This facility will have emissions of lead?	<input type="checkbox"/> YES <input type="checkbox"/> NO
8. This facility will have emissions of beryllium?	<input type="checkbox"/> YES <input type="checkbox"/> NO
9. This facility will have emissions of fluorides?	<input type="checkbox"/> YES <input type="checkbox"/> NO
10. Emissions of SO ₂ from both the material being fired and fuel burned do not exceed 25 tons per year?	<input type="checkbox"/> YES <input type="checkbox"/> NO
11. Emissions of Particulate Matter (PM) from both the material being fired and fuel burned do not exceed 25 tons per year?	<input type="checkbox"/> YES <input type="checkbox"/> NO
12. Calculations of SO ₂ and PM emissions from both the material being fired and fuel burned are attached?	<input type="checkbox"/> YES <input type="checkbox"/> NO
