

40 CFR Part 60, Subpart D: Standards of Performance for Fossil-Fuel-Fired Steam Generators - Requirements Reference Tables

Subpart D Standards

- [§60.40\(a\)2](#) For facilities that burn fuels (such as only gaseous fuels) that have no specific SO₂ requirements.
- [§60.42\(a\)\(1\)](#) Particulate matter requirements
- [§60.42\(a\)\(2\)](#) PM Opacity requirements
- [§60.42\(b\)\(1\)](#) PM Opacity requirements for Southwestern Public Service Company's Harrington Station #1
- [§60.42\(c\)](#) §60.42Da(a) alternate to meeting requirements for particulate matter
- [§60.43\(a\)\(1\)](#) SO₂ requirements for liquid fossil fuel or liquid fossil fuel/wood residue facilities
- [§60.43\(a\)\(2\)](#) SO₂ requirements for solid fossil fuel or solid fossil fuel/wood residue facilities
- [§60.43\(b\)](#) SO₂ requirements for facilities combusting liquid and solid fossil fuels simultaneously (with or without wood residue)
- [§60.43\(d\)1](#) §60.43Da(i)(3) alternate to meeting SO₂ requirements
- [§60.43\(d\)2](#) §60.42b(k)(4) alternate to meeting SO₂
- [§60.44\(a\)\(1\)](#) NO_x requirements for gaseous fossil fuel facilities
- [§60.44\(a\)\(2\)](#) NO_x requirements for liquid fossil fuel, liquid fossil fuel/wood residue, or gaseous fossil fuel/wood residue
- [§60.44\(a\)\(3\)](#) NO_x requirements for solid fossil fuel or solid fossil fuel/wood residue (except lignite)
- [§60.44\(a\)\(4\)](#) NO_x requirements for lignite or lignite/wood residue facilities
- [§60.44\(a\)\(5\)](#) NO_x requirements for lignite mined in ND, SD, MT and cyclone-fired unit
- [§60.44\(b\)](#) NO_x requirements for facilities combusting fossil fuels simultaneously
- [§60.44\(c\)](#) NO_x requirements for facilities combusting in combination coal refuse (25%w) with gaseous, liquid, or other solid fossil fuels or wood residue
- [§60.44\(e\)](#) §60.44Da(e)(3) alternate to meeting NO_x requirements which necessitate specific reporting
