

End 30-Day Public Comment Period

Description:

The date entered here indicates the end of the 30-day public notice comment period. In some cases, the public notice comment period is extended beyond the 30-day period. Reasons for this extension include:

- Request from commentor to extend public notice period was granted;
- Alternate language publication required and the applicant publishes notice in the English newspaper and Spanish publication on different dates then the 30-day public notice period extends to the end of the second publication; or
- The public notice period is automatically extended if public hearing is requested and approved by the Texas Commission on Environmental Quality (TCEQ).
