

Biography: TCEQ

Office of Compliance and Enforcement
Program Support and Environmental Assistance Division
Texas Commission on Environmental Quality

Current Position

Keith is a Technical Specialist in the Program Support Section, where he provides advice on technical and policy matters concerning air issues. Currently, Keith's main job functions are project coordination on emissions events and oil and natural gas issues. Keith is also the agency's point of contact on outdoor burning regulations.

Prior Experience and Education

Keith received a Bachelor of Science degree in Mechanical Engineering from Texas Tech University in 1987. He joined the Monitoring Operations Division of the Texas Air Control Board in 1988. In 1991, he moved to the Engineering Services Section, where he developed air regulations and rule interpretations, along with addressing technical enforcement matters between regulated companies and the agency. From 2003 to 2012, Keith served as a technical advisor to the TCEQ's Chief Engineer and from 2012 to 2018 Keith served as the technical advisor to the Deputy Director of the Office of Air. After a short retirement, Keith returned to the agency in his current position with the Program Support and Environmental Assistance Division.
