Katie,

During team leader review, the following issues were noted:

1. Unit ID CAST: This unit will be removed from the OP-UA1, and will therefore not show up by name in the permit. It will remain on the OP-REQ2.
2. Unit ID CAST-STKS: Because this is a group of units (Stacks 1-4), it should be listed as individual units on the OP-SUM and grouped together. Please resubmit from OP-SUM with the individual units listed (STACK1, STACK2, STACK3, STACK4) in the Unit/Process ID No. column, and the group (CAST-STKS) listed in the Group ID No. column. Submit the updated OP-SUM through **STEERS by 6/28/24**.

Please note that you will have the chance to review the updated draft permit since these changes will slightly modify the permit content.

Sincerely,

Savannah G. Quiros

Just the OP-PBRSUP. When items are sent through STEERS by the RO “signing” it electronically, the items are automatically certified, no OP-CRO1 needed. Just make sure the RO is the one certifying the STEERS submittal!

Hi all,

The public notice authorization package (PNAP) is scheduled to be sent out on 06/14/2024. I wanted to ask if it would be possible for you to publish within two weeks of receiving the PNAP in order to keep the project on schedule.

Texas Commission on Environmental Quality

Public Involvement Plan Form for Permit and Registration Applications

The Public Involvement Plan is intended to provide applicants and the agency with information about how public outreach will be accomplished for certain types of applications in certain geographical areas of the state. It is intended to apply to new activities; major changes at existing plants, facilities, and processes; and to activities which are likely to have significant interest from the public. This preliminary screening is designed to identify applications that will benefit from an initial assessment of the need for enhanced public outreach.

All applicable sections of this form should be completed and submitted with the permit or registration application. For instructions on how to complete this form, see TCEQ-20960-inst.

Section 1. Preliminary Screening

- ☒ New Permit or Registration Application
☐ New Activity - modification, registration, amendment, facility, etc. (see instructions)

If neither of the above boxes are checked, completion of the form is not required and does not need to be submitted.

Section 2. Secondary Screening

- ☒ Requires public notice,
☒ Considered to have significant public interest, **and**
☒ Located within any of the following geographical locations:

- Austin
- Dallas
- Fort Worth
- Houston
- San Antonio
- West Texas
- Texas Panhandle
- Along the Texas/Mexico Border
- Other geographical locations should be decided on a case-by-case basis

**If all the above boxes are not checked, a Public Involvement Plan is not necessary.
Stop after Section 2 and submit the form.**

- ☐ Public Involvement Plan not applicable to this application. Provide **brief** explanation.

Section 3. Application Information

Type of Application (check all that apply):

Air ☒ Initial ☐ Federal ☐ Amendment ☐ Standard Permit ☒ Title V
Waste ☐ Municipal Solid Waste ☐ Industrial and Hazardous Waste ☐ Scrap Tire
☐ Radioactive Material Licensing ☐ Underground Injection Control

Water Quality

- ☐ Texas Pollutant Discharge Elimination System (TPDES)
☐ Texas Land Application Permit (TLAP)
☐ State Only Concentrated Animal Feeding Operation (CAFO)
☐ Water Treatment Plant Residuals Disposal Permit
☐ Class B Biosolids Land Application Permit
☐ Domestic Septage Land Application Registration

Water Rights New Permit

- ☐ New Appropriation of Water
☐ New or existing reservoir

Amendment to an Existing Water Right

- ☐ Add a New Appropriation of Water
☐ Add a New or Existing Reservoir
☐ Major Amendment that could affect other water rights or the environment

Section 4. Plain Language Summary

Provide a brief description of planned activities.

This permit will authorize the manufacturing of polymer concrete storage vaults using a styrene-based resin combined with dry aggregate materials. Terra-Vaults, Inc. has listed in the application the pollutants and amounts that will be emitted for each facility. Terra-Vaults is proceeding with this permit application in an abundance of caution, to fulfill regulatory requirements, although Terra-Vaults has decided to terminate operations at this facility and to relocate them to a new facility at a property it has leased in an industrial park in Gainesville, Texas.

Section 5. Community and Demographic Information

Community information can be found using EPA's EJ Screen, U.S. Census Bureau information, or generally available demographic tools.

Information gathered in this section can assist with the determination of whether alternative language notice is necessary. Please provide the following information.

Fort Worth

(City)

Tarrant

(County)

48439106101

(Census Tract)

Please indicate which of these three is the level used for gathering the following information.

☐

City

☐

County

☒

Census Tract

(a) Percent of people over 25 years of age who at least graduated from high school

70

(b) Per capita income for population near the specified location

19,629

(c) Percent of minority population and percent of population by race within the specified location

White: 26%, black: 41%, Asian: 11%, Hispanic: 37%, Other: 10%, Two or more races: 12%

(d) Percent of Linguistically Isolated Households by language within the specified location

7% only Spanish Speaking households

(e) Languages commonly spoken in area by percentage

English: 62%, Spanish: 26%, Other Indo-European: 12%

(f) Community and/or Stakeholder Groups

(g) Historic public interest or involvement

Local interest from the Echo Heights Stop Six Environmental Coalition and from the City of Fort Worth as of November 2023

Section 6. Planned Public Outreach Activities

(a) Is this application subject to the public participation requirements of Title 30 Texas Administrative Code (30 TAC) Chapter 39?

☒ Yes ☐ No

(b) If yes, do you intend at this time to provide public outreach other than what is required by rule?

☒ Yes ☐ No

If Yes, please describe.

Although Terra-Vaults' operations at its Fort Worth facility meet or better regulatory requirements, Terra-Vaults, for business reasons, has decided to relocate its facility to an industrial park in Gainesville, Texas. Terra-Vaults has been in communication with Echo Heights Stop Six Environmental Coalition, which brought suit against TCEQ challenging issuance of Terra-Vaults' Fort Worth TCEQ NSR permit, and has apprised them of this decision and of the timing for its implementation, that is, operations at the Fort Worth facility will be terminated when the Gainesville facility is permitted and operating. Terra-Vaults intends to apprise the Coalition of the fact that this public notice is to fulfill regulatory requirements and does not reflect any change in its decision.

If you answered "yes" that this application is subject to 30 TAC Chapter 39, answering the remaining questions in Section 6 is not required.

(c) Will you provide notice of this application in alternative languages?

☐ Yes ☐ No

Please refer to Section 5. If more than 5% of the population potentially affected by your application is Limited English Proficient, then you are required to provide notice in the alternative language.

If yes, how will you provide notice in alternative languages?

- ☐ Publish in alternative language newspaper
- ☐ Posted on Commissioner's Integrated Database Website
- ☐ Mailed by TCEQ's Office of the Chief Clerk
- ☐ Other (specify)

(d) Is there an opportunity for some type of public meeting, including after notice?

☐ Yes ☐ No

(e) If a public meeting is held, will a translator be provided if requested?

☐ Yes ☐ No

(f) Hard copies of the application will be available at the following (check all that apply):

- ☐ TCEQ Regional Office ☐ TCEQ Central Office
- ☐ Public Place (specify)

Section 7. Voluntary Submittal

For applicants voluntarily providing this Public Involvement Plan, who are not subject to formal public participation requirements.

Will you provide notice of this application, including notice in alternative languages?

☐ Yes ☐ No

What types of notice will be provided?

- ☐ Publish in alternative language newspaper
- ☐ Posted on Commissioner's Integrated Database Website
- ☐ Mailed by TCEQ's Office of the Chief Clerk
- ☐ Other (specify)

Hi Katie,

Two things:

1. Unit ID CAST on form OP-UA1: Please put CAST on OP-REQ2. You don't need a permit shield, we would just be using OP-REQ2 for documentation of negative applicability.
2. Citation 115.126(3): Because the question "VOC Concentration or Emission Rate at Maximum Operating Conditions" from the OP-UA15 was answered "YES", it indicates that Unit CAST-STKS has a VOC emission rate or concentration less than the applicable exemption limits at maximum actual operating conditions and you're choosing to use alternative recordkeeping, so that's why 115.126(4) is in the WDP. If you don't want to use the standard recordkeeping, you would answer "NO" to this question. A "NO" answer would give you monitoring/testing requirement 115.126(3)(C) and recordkeeping requirements 115.126(3) and 115.126(3)(C).

Please send me the OP-REQ2 (and an updated OP-UA15 if you decide to change your answer) through STEERS by **05/07/2024**. Please send me the confirmation number from your submittal so I can find your information faster.

Thank you!

Sincerely,

Hi Savannah,

I thought that our consultants (Trinity Consultants) had sent you this information. By copying this email, I am requesting that they follow up with you immediately (and copy me). Sorry for the confusion. More will follow promptly. Thank you for the note; it is much appreciated.

Sincerely,

Dennis

Subject: Technical Review and Working Draft Permit - FOP O4487/Project 35574, Terra-Vaults, Inc/Fort Worth Facility

Dennis,

My name is Savannah Quiros, and I have been assigned to the Federal Operating Permit (FOP) initial issuance application of Permit No. O4487 for Terra-Vaults, Inc, Fort Worth Facility. This application has been assigned Project No. 35574. Please address all correspondence pertaining to this permit application, including any updates, to the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

As an FYI, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

I have conducted a technical review of this application and I have attached an electronic copy of the Working Draft Permit (WDP) for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

Please review the WDP and submit to me any comments you have regarding it by 04/23/2024. Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP.

Please review the "SOP Technical Review Fact Sheet" located at http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf. This guidance contains important information regarding the review process, application updates, WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified submittals, including application updates supporting the WDP comments is required to be submitted with the WDP response. After final review of the WDP, additional changes, supported by application updates, may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that were not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Thank you for your cooperation.

Sincerely,

Savannah G. Quiros

*RE: Title V Permit Initial Application
Terra-Vaults, Inc. – Fort Worth Facility
TCEQ Customer Reference Number: (CN) 606108165
TCEQ Regulated Entity Reference Number: (RN) 111668448*

Dear Air Permits Initial Review Team:

Terra-Vaults owns and operates a polymer concrete storage vault manufacturing facility (Fort Worth Facility) located at 4701 S Edgewood Terrace, Fort Worth, Texas 76119 in Tarrant County. Terra-Vaults has been assigned Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 606108165 with the Fort Worth Facility assigned TCEQ Regulated Entity Reference Number (RN) 111668448. Operations at the Fort Worth Facility are authorized under New Source Review (NSR) Permit No. 173549 (pending at time of submittal, but expected to be issued by middle of October 2023), and one non-registerable Permit by Rule (PBR).

The Fort Worth Facility is located in Fort Worth, Tarrant County, Texas. Tarrant County is currently designated as severe nonattainment for the 2008 8-hour ozone standard, moderate nonattainment for the 2015 8-hour ozone standard, and attainment or unclassified area for all other criteria pollutants.¹ The site is a minor source with respect to the Prevention of Significant Deterioration (PSD) program and Nonattainment New Source Review (NNSR). The site does not have any registered PBRs. However, additional finishing operations, such as grinding with hand-held equipment, are authorized under claimed non-registerable PBR 106.265.

Terra-Vaults is participating in the Texas Audit Act to identify gaps in compliance. During the audit, it was determined that the site became subject to the Title V program around April 2023. This was identified as a violation, and the disclosure of violation was submitted to the TCEQ Audit group in August 2023. This submittal is serving as the corrective action to the disclosed violation.

The site is a major source for hazardous air pollutants (HAP) under the federal operating permits program (Title V) as the site's potential to emit (PTE) for a single HAP (styrene) is greater than 10 tpy. Therefore, Terra-Vaults is submitting this Initial Title V Permit Application.

1. EXECUTIVE SUMMARY

Terra-Vaults owns and operates a polymer concrete storage vault manufacturing facility located in Fort Worth, Texas (Fort Worth Facility). Terra-Vaults has been assigned Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 606108165 with the Fort Worth Facility assigned TCEQ Regulated Entity Reference Number (RN) 111668448. Operations at the Fort Worth Facility are authorized under New Source Review (NSR) Permit No. 173549 (issuance pending at time of submittal), and one non-registerable Permit by Rule (PBR).

The Fort Worth Facility is located in Fort Worth, Tarrant County, Texas. Tarrant County is currently designated as severe nonattainment for the 2008 8-hour ozone standard, moderate nonattainment for the 2015 8-hour ozone standard, and attainment or unclassified area for all other criteria pollutants¹. The site is a minor source with respect to the Prevention of Significant Deterioration (PSD) program and Nonattainment New Source Review (NNSR). The site does not have any registered Permit by Rules (PBR). However, additional finishing operations, such as grinding with hand-held equipment, are authorized under claimed non-registerable PBR 106.265.

Terra-Vaults is participating in the Texas Audit Act to identify gaps in compliance. During the audit, it was determined that the site became subject to the Title V program around April 2023. This was identified as a violation, and the disclosure of violation was submitted to the TCEQ Audit group in August 2023. This submittal is serving as the corrective action to the disclosed violation.

The site is a major source for hazardous air pollutants (HAP) under the federal operating permits program (Title V) as the site's potential to emit (PTE) for a single HAP (styrene) is greater than 10 tons per year (tpy). Therefore, Terra-Vaults is submitting this Initial Title V Permit Application.

The Fort Worth Facility is subject to the Texas Federal Operating Permits (FOP) Program according to Title 30 of the Texas Administrative Code Section (§) 122.120 (30 TAC §122.120) and is submitted in accordance with 30 TAC §122.132 and through the TCEQ State of Texas Environmental Electronic Reporting System (STEERS).

2. PROCESS DESCRIPTION AND PROCESS FLOW DIAGRAM

Terra-Vaults manufactures polymer concrete storage vaults using a styrene-based resin combined with dry aggregate materials at the Fort Worth Facility. These activities take place in an enclosed building with emissions from the process routed through four identical stacks (Emission Point Numbers [EPNs] STACK1, STACK2, STACK3, STACK4). Details on the process are included below. A process flow diagram is included at the end of this section.

To create the polymer concrete product, styrene-based resin and dry aggregate materials are combined in a mixing unit to create a mixture slurry that is then loaded into a hopper (Facility Identification Number [FIN] AGGTRANS, EPNs STACK1, STACK2, STACK3, STACK4). Material bonding is activated by the addition of a catalyst.

The resin is stored in totes and transferred into a valve that is directly above the mixing tank. Aggregate in hoppers is transferred into the mixing tank. Wet material is mixed using a fixed mixing blade inside the tank. Once the material is combined, it is transferred to a mobile hopper. Catalyst is added to the wet material and is mixed again to begin the curing process.

The catalyzed resin mixture is transferred to a mold and left to cure and harden to the desired shape (FIN CAST, EPNs STACK1, STACK2, STACK3, STACK4). Once fully cured, the product is removed from the mold to undergo final inspection and ancillary operations including superficial or aesthetic corrections. These corrections include grinding and sanding of the finished enclosures (on-site PBR 106.265). Cleaning operations take place periodically and at the end of each batch using acetone (FIN CLEAN, EPNs STACK1, STACK2, STACK3, STACK4).

AA. Subpart FFFF - National Emission Standards for Hazardous Air Pollutants for Miscellaneous Organic Chemical Production and Processes (MON) (continued)	
13. Group 1 wastewater streams are transferred to an offsite treatment facility meeting the requirements of 40 CFR § 63.138(h). <i>If the response to Question VIII.AA.13 is "NO," go to Question VIII.AA.15.</i>	<input type="checkbox"/> YES <input type="checkbox"/> NO
14. The option to document in the notification of compliance status report that the wastewater will be treated in a facility meeting the requirements of 40 CFR § 63.138(h) is elected.	<input type="checkbox"/> YES <input type="checkbox"/> NO
15. Group 1 wastewater streams or residuals with a total annual average concentration of compounds in Table 8 of 40 CFR Part 63, Subpart FFFF less than 50 ppmw are transferred offsite. <i>If the response to Question VIII.AA.15 is "NO," go to Question VIII.AA.17.</i>	<input type="checkbox"/> YES <input type="checkbox"/> NO
16. The transferor is demonstrating that less than 5 percent of the HAP in Table 9 of 40 CFR Part 63, Subpart FFFF is emitted from waste management units up to the activated sludge unit.	<input type="checkbox"/> YES <input type="checkbox"/> NO
17. The application area includes waste management units that receive or manage a Group 1 wastewater stream, or a residual removed from a Group 1 wastewater stream prior to shipment or transport.	<input type="checkbox"/> YES <input type="checkbox"/> NO
18. The application area includes containers that receive, manage, or treat a Group 1 wastewater stream or a residual removed from a Group 1 wastewater stream.	<input type="checkbox"/> YES <input type="checkbox"/> NO
19. The application area includes individual drain systems that receive or manage a Group 1 wastewater stream, or a residual removed from a Group 1 wastewater stream. <i>If the response to Question VIII.AA.19 is "NO," go to Question VIII.AA.22.</i>	<input type="checkbox"/> YES <input type="checkbox"/> NO
20. The application area includes individual drain systems that are complying with 40 CFR § 63.136 through the use of cover and, if vented, closed vent systems and control devices.	<input type="checkbox"/> YES <input type="checkbox"/> NO
