Follow Up Flag: Follow up Flag Status: Completed

Good afternoon Felicia.

Please note that a final certification is required before we can send the PNAP. This is to specifically certify the Draft Permit 'Permit Shield' updates that were incorporated on 02/06/2025. Apologies for any inconvenience caused.

Kindly submit any one of the following by April 8th, 2025:

- 1. An OP-CRO1 certification through STEERS. Submitting any document through STEERS gets automatically certified by the RO/DAR.
- 2. If you plan to send me an email copy of the OP-CRO1, please send a follow-up hard copy of the original RO signature OP-CRO1 via mail.

Sincerely,

#### Anugraha Renny

Cc: MRyan@trinityconsultants.com

Subject: RE: WDP -- FOP O2529/Project 37145, Covestro LLC/Covestro Baytown

Good afternoon,

I came across a few items in the WDP that I have corrected. Please see **pages 63 and 64** of the attached WDP. Following are the changes:

- 1. The Permit Shield 'Basis of Determination' for Unit ID Nos. FT71000100, FT71000510, FT71001400, FT71003200, FT71003500, FT71005110, FT71005120 is changed to 'This storage vessel does not contain greater than 40,000 gallons of petroleum liquids.' The second part 'or was constructed prior to 6/11/73' can be removed. This is because of 2 reasons:
- a.) The rule NSPS K already states that it only applies to storage vessels constructed/recon/modified after June 11, 1973 so it not necessary to mention that again.
- b.) To make sure we use the right applicability citation 60.110(a) 'The affected facility to which this subpart applies is each storage vessel for petroleum liquids which has a storage capacity greater than 151,412 liters (40,000 gallons).'
- 2. Similarly, the Basis of determination of Unit ID FT71000520 has been updated to 'Tank constructed, modified or reconstructed before June 11, 1973.' in conjunction with the rule.

Please review the document and let me know if you have any questions.

Sincerely,

Subject: WDP -- FOP O2529/Project 37145, Covestro LLC/Covestro Baytown

Good afternoon Felicia,

I have conducted a technical review of renewal application for Covestro LLC, Covestro Baytown. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

Please review the WDP and submit to me any comments you have on the working draft permit by **January 23, 2025**.

Please review the second portion of the "SOP Technical Review Fact Sheet" located at <a href="http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title V/sop wdp factsheet.p">http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title V/sop wdp factsheet.p</a>

<u>df</u>. This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application updates is required to be submitted. Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at Where to Submit FOP Applications and Permit-Related Documents.

Thank you for your cooperation.

Happy Holidays!

### Form OP-CRO2 Change of Responsible Official Information Federal Operating Permit Program

The Texas Commission on Environmental Quality (TCEQ) shall be notified of a new appointment or administrative information change (e.g., address, phone number, title) for a Responsible Official (RO), Designated Representative (DR), or Alternate Designated Representative (ADR) in the next submittal. This form satisfies the requirements for notification (a revised Certificate of Representation must also be submitted to the U.S. Environmental Protection agency for changes in the DR and ADR). After the initial submittal, if there is a change of Duly Authorized Representative (DAR) appointment or administrative information changes for the DAR, include a revised Form OP-DEL (Delegation of Responsible Official) with the next submittal to TCEQ.

Follow Up Flag: Follow up Flag Status: Completed

Good evening Felicia,

I have been assigned to the Federal Operating Permit (FOP) initial issuance application of Permit No. O2529 for Covestro LLC, Covestro Baytown. This application has been assigned Project No. 37145. Please address all correspondence pertaining to this permit application, including any updates, to me at the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high-level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit please refer to Forms OP-PBRSUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at Where to Submit FOP Applications and Permit-Related Documents.

Thank you for your corporation.

Sincerely,

#### Anugraha Renny

Texas Commission on Environmental Quality Air Permits Division, MC 163 P.O. Box 13087, Austin, TX 78711-3087 Phone: (512) 239-1297

### TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

September 20, 2024

THE HONORABLE BRANDON CREIGHTON TEXAS SENATE PO BOX 12068 AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application

Project Number: 37145 Permit Number: O2529

Covestro LLC SI Area

Baytown, Chambers County

Regulated Entity Number: RN100209931 Customer Reference Number: CN601544042

#### Dear Senator Creighton:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. https://gisweb.tceq.texas.gov/LocationMapper/?marker=-94.905,29.746944&level=13.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Brandon Creighton Page 2 September 20, 2024

Re: Accepted Federal Operating Permit Renewal Application

This letter is being sent to you for information only and no action is required. If you need further information, please contact me at (512) 239-1250.

Sincerely,

Samuel Short, Deputy Director

Air Permits Division

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

September 20, 2024

THE HONORABLE TERRI LEO-WILSON TEXAS HOUSE OF REPRESENTATIVES PO BOX 2910 AUSTIN TX 78768-2910

Accepted Federal Operating Permit Renewal Application

Project Number: 37145 Permit Number: O2529

Covestro LLC SI Area

Baytown, Chambers County

Regulated Entity Number: RN100209931 Customer Reference Number: CN601544042

#### Dear Representative Leo-Wilson:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application, https://gisweb.tceq.texas.gov/LocationMapper/?marker=-94.905,29.746944&level=13.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site.

This letter is being sent to you for information only and no action is required. If you need further information, please contact me at (512) 239-1250.

Sincerely,

Samuel Short, Deputy Director Air Permits Division Office of Air

## **TABLE OF CONTENTS**

1.	EXECUTIVE SUMMARY	1-1
2.	TCEQ FORMS	2-1

Covestro LLC | SL Area — FOP O2529 Renewal Trinity Consultants

#### 1. EXECUTIVE SUMMARY

Covestro LLC (Covestro) owns and operates the SL Area at the Covestro Baytown Site located at 8500 West Bay Road, Baytown, Chambers County, Texas. Covestro has been assigned Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 601544042. The Covestro Baytown Site has been assigned TCEQ Regulated Entity Reference Number (RN) 100209931 and TCEQ Air Quality Account Number CI-0016-S. The SL Area is authorized by Federal Operating Permit (FOP) 02529.

With this application, Covestro is requesting to renew FOP O2529 and incorporate the following update to ensure permit requirements accurately represent units at the plant:

#### Adding FL72006800

In accordance with 30 TAC §122.133, this renewal application is submitted 6 months prior to the expiration date of April 1, 2025. Section 2 contains all the required forms for this submittal. These include a site information summary (OP-1), application for permit revision (OP-2), applicable requirements summary (OP-REQ1 and OP-REQ3), unit attribute forms (OP-UA), individual unit summaries (OP-SUMR), application compliance plan and schedule (OP-ACPS), Permit By Rule Supplemental Table (OP-PBRSUP), and a certification by responsible official (OP-CRO1).

Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FT75000900	106.472	09/04/2000	1) No visible emissions - No monitoring needed given the contents of the tank are liquids that do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FT75001000	106.472	09/04/2000	l) No visible emissions - No monitoring needed given the contents of the tank are liquids that do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FL72004300	106.472	09/04/2000	l) No visible emissions - No monitoring needed given the liquids loaded do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 5 to determine compliance with PBR 106.4 emission limits.
FL72006800	106.472	09/04/2000	I) No visible emissions - No monitoring needed given the liquids loaded do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 5 to determine compliance with PBR 106.4 emission limits.
SHP-CNTBRG	106.263	11/01/2001	Keep records on-site of all MSS activities authorized under the PBR to show compliance with 106.4 limits. Keep records on-site to document the subsection of 106.263 under which the MSS activitiues are authorized.

# Form OP-CRO1 Certification by Responsible Official Federal Operating Permit Program Texas Commission on Environmental Quality

All initial issuance, revision, renewal, and reopening permit application submittals requiring certification must be addressed using this form. Updates to site operating permit (SOP) and temporary operating permit (TOP) applications, other than public notice verification materials, must be certified prior to authorization of public notice or start of public announcement. Updates to general operating permit (GOP) applications must be certified prior to receiving an authorization to operate under a GOP.

I. Identifying Information

		Code of Federal Regulations Part 63 - National Emission Standards for Hazardorce Categories (continued)	ous Air Pollutants
	O. Si	ibpart DD - National Emission Standards for Off-site Waste and Recovery Opera	ations (continued)
	13	. The application area receives offsite materials with average VOHAP concentration less than 500 ppmw at the point of delivery that are not combined with materials having a VOHAP concentration of 500 ppmw or greater.  If the response to Question VIII.O.11 is "NO," go to Question VIII.O.14.	□YES □NO
	12	2. VOHAP concentration is determined by direct measurement.	□YES □NO
	13	VOHAP concentration is based on knowledge of the off-site material.	□YES □NO
	14	The application area includes an equipment component that is a pump, compressor, and agitator, pressure relief device, sampling connection system, open-ended valve or line, valve, connector or instrumentation system.  If the response to Question VIII.O.14 is "NO," go to Question VIII.O.17.	□YES □NO
	15	An equipment component in the application area contains or contacts off-site material with a HAP concentration greater than or equal to 10% by weight.	□YES □NO
	16	6. An equipment component in the application area is intended to operate 300 hours or more during a 12-month period.	□YES □NO
	17	7. The application area includes containers that manage non-exempt off-site material.	□YES □NO
	18	The application area includes individual drain systems that manage non-exempt off-site materials.	□YES □NO

### **Federal Operating Permit Program**

Date:	09/13/2024

#### Expedite Title V

#### Certification

I certify that I am the Duly Authorized Representative for this application and that, based on information and belief formed after reasonable inquiry, the statements and information on this form are true, accurate, and complete.

- 1. I am Felicia T Powell, the owner of the STEERS account ER062147.
- 2. I have the authority to sign this data on behalf of the applicant named above.
- 3. I have personally examined the foregoing and am familiar with its content and the content of any attachments, and based upon my personal knowledge and/or inquiry of any individual responsible for information contained herein, that this information is true, accurate, and complete.
- 4. I further certify that I have not violated any term in my TCEQ STEERS participation agreement and that I have no reason to believe that the confidentiality or use of my password has been compromised at any time.
- 5. I understand that use of my password constitutes an electronic signature legally equivalent to my written signature.
- 6. I also understand that the attestations of fact contained herein pertain to the implementation, oversight and enforcement of a state and/or federal environmental program and must be true and complete to the best of my knowledge.
- 7. I am aware that criminal penalties may be imposed for statements or omissions that I know or have reason to believe are untrue or misleading.
- 8. I am knowingly and intentionally signing Title V Existing 2529.
- 9. My signature indicates that I am in agreement with the information on this form, and authorize its submittal to the TCEC

Covestro LLC | SL Area — FOP O2529 Renewal Trinity Consultants

#### 1. EXECUTIVE SUMMARY

Covestro LLC (Covestro) owns and operates the SL Area at the Covestro Baytown Site located at 8500 West Bay Road, Baytown, Chambers County, Texas. Covestro has been assigned Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 601544042. The Covestro Baytown Site has been assigned TCEQ Regulated Entity Reference Number (RN) 100209931 and TCEQ Air Quality Account Number CI-0016-S. The SL Area is authorized by Federal Operating Permit (FOP) 02529.

With this application, Covestro is requesting to renew FOP O2529 and incorporate the following update to ensure permit requirements accurately represent units at the plant:

#### Adding FL72006800

In accordance with 30 TAC §122.133, this renewal application is submitted 6 months prior to the expiration date of April 1, 2025. Section 2 contains all the required forms for this submittal. These include a site information summary (OP-1), application for permit revision (OP-2), applicable requirements summary (OP-REQ1 and OP-REQ3), unit attribute forms (OP-UA), individual unit summaries (OP-SUMR), application compliance plan and schedule (OP-ACPS), Permit By Rule Supplemental Table (OP-PBRSUP), and a certification by responsible official (OP-CRO1).

### Texas Commission on Environmental Quality Form OP-ACPS Application Compliance Plan and Schedule

Date: 9/13/2024	Regulated Entity No.: RN1002	09931	Permit No.: 2529
Company Name: Coves	tro LLC	Area Na	me: SL Area

- Part 1 of this form must be submitted with all initial FOP applications and renewal applications.
- The Responsible Official must use Form OP-CRO1 (Certification by Responsible Official) to certify information contained in this form in accordance with 30 TAC § 122.132(d)(8).

#### Part 1

_		
Α.	Compliance Plan — Future Activity Committal Statement	
As th	Responsible Official commits, utilizing reasonable effort, to the following: ne responsible official it is my intent that all emission units shall continue to be in complial cable requirements they are currently in compliance with, and all emission units shall be ne compliance dates with any applicable requirements that become effective during the p	in compliance
В.	Compliance Certification - Statement for Units in Compliance* (Indicate response by entering an "X" in the appropriate column)	
1.	With the exception of those emission units listed in the Compliance Schedule section of this form (Part 2, below), and based, at minimum, on the compliance method specified in the associated applicable requirements, are all emission units addressed in this application in compliance with all their respective applicable requirements as identified in this application?	⊠ YES □ NO
2.	Are there any non-compliance situations addressed in the Compliance Schedule Section of this form (Part 2)?	☐ YES ⊠ NO
3.	If the response to Item B.2, above, is "Yes," indicate the total number of Part 2 attachments included in this submittal. (For reference only)	
*	For Site Operating Permits (SOPs), the complete application should be consulted for apprequirements and their corresponding emission units when assessing compliance status For General Operating Permits (GOPs), the application documentation, particularly Formshould be consulted as well as the requirements contained in the appropriate General Formshould TAC Chapter 122.	s. m OP-REQ1
	Compliance should be assessed based, at a minimum, on the required monitoring, test keeping, and/or reporting requirements, as appropriate, associated with the applicable question.

FC720DG1NE	106.262	168075	Keep records of the number of railcars degassed on a rolling 12-month basis. Calculate emissions using ideal gas law to determine compliance with PBR 106.4 emission limits.
FT71002200	106.472	09/04/2000	l) No visible emissions - No monitoring needed given the contents of the tank are liquids that do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FT75000900	106.472	09/04/2000	1) No visible emissions - No monitoring needed given the contents of the tank are liquids that do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FT75001000	106.472	09/04/2000	l) No visible emissions - No monitoring needed given the contents of the tank are liquids that do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 7 to determine compliance with PBR 106.4 emission limits.
FL72004300	106.472	09/04/2000	l) No visible emissions - No monitoring needed given the liquids loaded do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 5 to determine compliance with PBR 106.4 emission limits.
FL72006800	106.472	09/04/2000	I) No visible emissions - No monitoring needed given the liquids loaded do not produce fumes. 2) Chemicals loaded, unloaded, or stored are limited to the list found in 106.472(1)-(9). Emissions will be estimated using AP- 42 Chapter 5 to determine compliance with PBR 106.4 emission limits.
SHP-CNTBRG	106.263	11/01/2001	Keep records on-site of all MSS activities authorized under the PBR to show compliance with 106.4 limits. Keep records on-site to document the subsection of 106.263 under which the MSS activitiues are authorized.

## Form OP-CRO1 Certification by Responsible Official Federal Operating Permit Program Texas Commission on Environmental Quality

All initial issuance, revision, renewal, and reopening permit application submittals requiring certification must be addressed using this form. Updates to site operating permit (SOP) and temporary operating permit (TOP) applications, other than public notice verification materials, must be certified prior to authorization of public notice or start of public announcement. Updates to general operating permit (GOP) applications must be certified prior to receiving an authorization to operate under a GOP.

VIII. Title 40 Code of Federal Regulations Part 63 - National Emission Standards for Hazardous Air Pollutants for Source Categories (continued)					
E.	Subpart O - Ethylene Oxide Emissions Standards for Sterilization Facilities				
	1.	The application area includes sterilization facilities where ethylene oxide is used in the sterilization or fumigation of materials.  If the response to Question VIII.E.1 is "NO," go to Section VIII.F.	□YES	⊠NO	
	2.	Sterilization facilities located in the application area are subject to 40 CFR Part 63, Subpart O.  If the response to Question VIII.E.2 is "NO," go to Section VIII.F.	□YES	□NO	
	3.	The sterilization source has used less than 1 ton (907 kg) of ethylene oxide within all consecutive 12-month periods after December 6, 1996.	□YES	□NO	
	4.	The sterilization source has used less than 10 tons (9070 kg) of ethylene oxide within all consecutive 12-month periods after December 6, 1996.	□YES	□NO	
F.	Subpart Q - National Emission Standards for Industrial Process Cooling Towers				
	1.	The application area includes industrial process cooling towers.  If the response to Question VIII.F.1 is "NO," go to Section VIII.G.	□YES	⊠NO	
	2.	Chromium-based water treatment chemicals have been used on or after September 8, 1994.	□YES	□NO	
G.	Subpart R - National Emission Standards for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations)				
	1.	The application area includes a bulk gasoline terminal.	□YES	×NO	
	2.	The application area includes a pipeline breakout station.  If the responses to Questions VIII.G.1 and VIII.G.2 are both "NO," go to Section VIII.H.	□YES	⊠NO	
	3.	The bulk gasoline terminal or pipeline breakout station is located within a contiguous area and under common control with another bulk gasoline terminal or a pipeline breakout station.  If the response to Question VIII.G.3 is "YES," go to Question VIII.G.10.	□YES	□NO	

Date:	09/13/2024
Permit No.:	2529
RN No.:	RN100209931

For SOP applications, answer ALL questions unless otherwise directed.

Form OP-REQ1: Page 42					
VIII. Title 40 Code of Federal Regulations Part 63 - National Emission Standards for Hazardous Air Pollutants for Source Categories (continued)					
	G. Subpart R - National Emission Standards for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations) (continued)				
4.	The bulk gasoline terminal or pipeline breakout station is located within a contiguous area and under common control with sources, other than bulk gasoline terminals or pipeline breakout stations that emit or have the potential to emit HAPs.	□YES □NO			
	If the response to Question VIII.G.4 is "YES," go to Question VIII.G.10.				
5.	An emissions screening factor was calculated for the bulk gasoline terminal or pipeline breakout station.	□YES □NO			
	If the response to Question VIII.G.5 is "NO," go to Question VIII.G.10.				
6.	The value 0.04(OE) is less than 5% of the value of the bulk gasoline terminal emissions screening factor (ET) or the pipeline breakout station emissions screening factor (Ep).  If the response to Question VIII.G.6 is "NO," go to Question VIII.G.10.	YES NO			
7.	Emissions screening factor less than 0.5 (ET or EP < 0.5).  If the response to Question VIII.G.7 is "YES," go to Section VIII.H.	YES NO			
8.	Emissions screening factor greater than or equal to 0.5, but less than 1.0 (0.5 $\leq$ ET or EP $<$ 1.0).  If the response to Question VIII.G.8 is "YES," go to Section VIII.H.	YES NO			
9.	Emissions screening factor greater than or equal to 1.0 (ET or EP $\geq$ 1.0). If the response to Question VIII.G.9 is "YES," go to Question VIII.G.11.	□YES □NO			
10	The site at which the application area is located is a major source of HAP.  If the response to Question VIII.G.10 is "NO," go to Section VIII.H.	□YES □NO			
11	The application area is using an alternative leak monitoring program as described in 40 CFR § 63.424(f).	□YES □NO			

Date:	09/13/2024
Permit No.:	2529

	6.	The application area includes process wastewater streams that are designated as Group 1 or are determined to be Group 1 for compounds listed in Table 8 of 40 CFR Part 63, Subpart G or Table 8 and Table 9, as appropriate, of 40 CFR Part 63, Subpart FFFF.	□YES	□NO
	7.	The application area includes process wastewater streams that are Group 2 for compounds listed in Table 8 or Table 8 and Table 9, as appropriate, of 40 CFR Part 63, Subpart FFFF.	□YES	□NO
	8.	All Group 1 wastewater streams at the site are demonstrated to have a total source mass flow rate of less than 1 MG/yr.  If the response to Question VIII.AA.8 is "YES," go to Section VIII.AA.22.	□YES	□NO
	9.	The site has untreated and/or partially treated Group 1 wastewater streams demonstrated to have a total source mass flow rate of less than 1 MG/yr.  If the response to Question VIII.AA.9 is "NO," go to Question VIII.AA.11.	□YES	□NO
	10.	The application area includes waste management units that receive or manage a partially treated Group 1 wastewater stream prior to or during treatment.	□YES	□NO
	11.	Group 1 wastewater streams or residual removed from Group 1 wastewater streams are transferred to an on-site treatment operation that is not owned or operated by the owner or operator of the source generating the waste stream or residual.	□YES	□NO
	12.	Group 1 wastewater streams or residual removed from Group 1 wastewater streams are transferred to an off-site treatment operation.  If the responses to Questions VIII.AA.11 and VIII.AA.12 are both "NO," go to Question VIII.AA.18.	□YES	□NO
