## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

October 7, 2024

THE HONORABLE CAROL ALVARADO  
TEXAS SENATE  
PO BOX 12068  
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application  
Project Number: 37202  
Permit Number: O1331  
BASF Corporation  
Pasadena Plant  
Pasadena, Harris County  
Regulated Entity Number: RN100225689  
Customer Reference Number: CN600124895

Dear Senator Alvarado:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-95.152222,29.731111&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

Good day, Mr. Ahmed/Mr. Melancon,

There seems to be an issue with the mailing address listed in the application for the Technical Contact Mr. Melancon, for Project 37202, Permit 1331, BASF Corporation; the United States Postal Service does not acknowledge 4403 Pasadena Freeway, Pasadena, Texas 77503 nor the one provided by Mr. Ahmed, 4403 La Porte Hwy 225, Pasadena, Texas 77501. When the USPS acknowledges the address, it will provide the 4 digits extension after the zip code.

Also, it is given an error that these addresses are not found.

Please an address that is verifiable by USPS. I noticed you have used a PO BOX 600 as a mailing address. If you want to use that one, please send me approval that you will be using the PO Box address or another address, as long as it is acknowledged by USPS.

Please promptly provide me a verifiable address so I may complete this project, I would appreciate it if you will send it to me by **COB, today**, to declare this application administratively complete.

Thank you,

## EXECUTIVE SUMMARY

BASF Corporation (BASF) operates the Pasadena Plant located in Pasadena, Texas (Harris County). BASF has been assigned Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 600124895 and the Pasadena Plant has been assigned the TCEQ Regulated Entity Reference Number (RN) 100225689. The site operates under Title V Site Operating Permit (SOP) Number O1331. Primary operations at the plant are authorized under TCEQ New Source Review (NSR) Permit No. 8199A.

BASF is submitting this renewal application to request renewal for Title V Permit Number O1331. The permit expires on April 2, 2025. This application is being submitted timely in accordance with the timeline required in 30 Texas Administrative Code (TAC) §122.133(2), and it contains the information required by the SOP application procedures specified in 30 TAC §122.132.

The following change is incorporated into the Title V permit:

- Title V ID No. D-705 was authorized under PBR registration No. 177215 on August 27, 2024. BASF is requesting the addition of this emission source to the Title V permit. A permit shield was also added to this tank via form OP-REQ2.

The temporary flare (EPN 16B\_TEMP) authorized under Standard Permit No. 173592 and the associated fugitives (EPN FUG-16B\_TEMP) authorized under Permit by Rule No. 176732 will be located on site for less than 6 months. Therefore, these sources have not been incorporated into the operating permit per 30 TAC §122.10(13)(F).

The following TCEQ forms are provided to complete this permit renewal application:

- OP-CRO1 (Appendix A);
- OP-1 (Appendix B);
