Hi all,

Attached are pages 4-6 and 14-16 of the draft permit for your review/records. The language is a little different since there is no longer an OP-PBRSUP. The PNAP will be sent out this week!

Sincerely,

Savannah G. Quiros

Hi all,

Per my phone conversation with Catherine, I understand that you are no longer using PBR 106.263. This will revise the forms I need:

- **Updated OP-REQ1 pages 87 and 88.** Remove 106.263 from the permits by rule table.
- **Final form OP-CRO1.** Please submit through STEERS using the time period from 01/16/2025 to when the form is submitted

Please note that since you don't have any PBRs, the language in the draft permit will change to be more general under the New Source Review Authorization requirements. (it will not reference the OP-PBRSUP).

Please submit these items through STEERS by **06/12/2025**.

Sincerely,

Savannah G. Quiros

Hi all,

Per my phone conversation with Catherine, I understand that you are no longer using PBR 106.263. This will revise the forms I need:

- **Updated OP-REQ1 pages 87 and 88.** Remove 106.263 from the permits by rule table.
- **Final form OP-CRO1.** Please submit through STEERS using the time period from 01/16/2025 to when the form is submitted

Please note that since you don't have any PBRs, the language in the draft permit will change to be more general under the New Source Review Authorization requirements. (it will not reference the OP-PBRSUP).

Please submit these items through STEERS by **06/12/2025**.

Sincerely,

Savannah G. Quiros

Good morning Savannah,

May we have some additional time to address your request below? I was out of town last Thursday and Friday when you sent this request. I would like to request that you grant us until Friday, June 6th, as we need to coordinate the RO's signature in STEERS.

Thank you for your understanding.

Hi Jenny,

I need two more items from you by **06/02/2025**:

1. **Updated form OP-PBRSUP**. The monitoring requirements on table D has “Monitoring requirements will be consistent with 106.263”. The table needs to have the actual monitoring that is used to show compliance with the PBR. Per the form instructions provide the monitoring and/or recordkeeping requirements used to demonstrate compliance with the applicable PBR conditions, general requirements of 30 TAC §106.4 or general requirements (if any) in effect at the time of the claim, and any certified registration of emission limits as applicable for the emission units. Refer to page 4 of the form instructions for examples. Please submit all four tables (A-D) through STEERS with the latest date, even if the rest of the table is empty. For more information on this, you can view the form and instructions here: [TCEQ Form 20875 - OP-PBRSUP - Instructions Permit By Rule Supplemental Table](#)

2. **Final form OP-CRO1**. Please submit through STEERS using the time period from 01/16/2025 to when the form is submitted.

Hi Jenny,

I can't give an exact issuance date – it really depends. After the Public Notice package is sent out, you'll publish, and the public comment period lasts 30 days. The EPA review period runs at the same time, for 45 days. So if you published this weekend, you would get an issuance date around the end of May. And that would be if no comments were received.

At this time, I don't need an OP-CRO1. There were no updates in this project, and the application was sent through STEERS, so everything is certified. I hope to get the Public Notice Package to you soon.

Ms. Towns,

I have conducted a technical review of the renewal application for the Plains Pipeline LP for the Wink Complex. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP continues the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

Please review the WDP and submit to me any comments you have on the working draft permit by **03/14/2025**. Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP.

Please review the second portion of the "SOP Technical Review Fact Sheet" located at http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf. This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application information, including application updates supporting the WDP comments, is required. After final review of the WDP, additional changes supported by application updates may require

certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that was not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Thank you for your cooperation.

Sincerely,

Savannah G. Quiros

Hello Mx. Quiros,

On behalf of Plains Pipeline, LP, I am responding to your request for additional information regarding the FOP renewal application of Permit No. O4152, project no. 37229 for Plains Pipeline LP/Wink Complex.

There were a few deficiencies found during review. Please submit the following items to me by **01/17/2025:**

- **OP-PBR SUP:** all four tables (A through D) are required. Please make sure all tables have the heading filled out (same date, permit number, regulated entity number). You can enter “none” in the sections that do not apply. [Please see the updated form attached.](#)

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBR SUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1. [We will provide an updated signed OP-CRO1 form through STEERS certifying the changes to the is application prior to the public notice process. Please advise if there are any other review questions you anticipate asking.](#)

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#). We will submit application updates with signed OP-CRO1 via email to the TCEQ region and the EPA Region 6.

Please review the "SOP Technical Review Fact Sheet" located at http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf. Dear Sir or Madame:

In accordance with 30 Texas Administrative Code (TAC) §122.241, Plains Pipeline, LP (Plains) is submitting this Title V permit renewal application to the Texas Commission on Environmental Quality (TCEQ) to request renewal of Title V Site Operating Permit (SOP) No. O4152 for the Plains Wink Complex located at 5887 CR 201 in Wink, Texas (Site). As required, this renewal application consists of the following TCEQ forms:

- OP-1 (Site Information Summary).
- OP-2 (Application for Permit Renewal/Revision).
- OP-ACPS (Application and Compliance Plan and Schedule).
- OP-REQ1 (Application Area-Wide Applicability Determination and General Information).

The renewal application is being submitted in a timely manner in accordance with 30 TAC §122.133, which requires air permit applications be submitted 6 months in advance. The Plains Wink Complex permit was submitted on April 8, 2020, expires on April 8, 2025, and the application is due October 8, 2024. In addition to the renewal, Plains modified the Non-Rule Standard Permit No. 134690.

Should you have any questions regarding this SOP Renewal Application, please do not hesitate to contact me at (713) 646-4286 or via e-mail at Richard.Anderson@Plains.com.

Application Compliance Plan and Schedule

Date: 9/30/2024	Regulated Entity No.: RN100214253	Permit No.: O4152
Company Name: Plains Pipeline, LP		Area Name: Wink Complex

- Part 1 of this form must be submitted with all initial FOP applications and renewal applications.
- The Responsible Official must use Form OP-CRO1 (Certification by Responsible Official) to certify information contained in this form in accordance with 30 TAC § 122.132(d)(8).

Part 1

A. Compliance Plan — Future Activity Committal Statement	
The <i>Responsible Official</i> commits, utilizing reasonable effort, to the following: As the responsible official it is my intent that all emission units shall continue to be in compliance with all applicable requirements they are currently in compliance with, and all emission units shall be in compliance by the compliance dates with any applicable requirements that become effective during the permit term.	
B. Compliance Certification - Statement for Units in Compliance* (Indicate response by entering an "X" in the appropriate column)	
1. With the exception of those emission units listed in the Compliance Schedule section of this form (Part 2, below), and based, at minimum, on the compliance method specified in the associated applicable requirements, are all emission units addressed in this application in compliance with all their respective applicable requirements as identified in this application?	☒ YES ☐ NO
2. Are there any non-compliance situations addressed in the Compliance Schedule Section of this form (Part 2)?	☐ YES ☒ NO
3. If the response to Item B.2, above, is "Yes," indicate the total number of Part 2 attachments included in this submittal. <i>(For reference only)</i>	
* For Site Operating Permits (SOPs), the complete application should be consulted for applicable requirements and their corresponding emission units when assessing compliance status. For General Operating Permits (GOPs), the application documentation, particularly Form OP-REQ1 should be consulted as well as the requirements contained in the appropriate General Permits portion of 30 TAC Chapter 122. Compliance should be assessed based, at a minimum, on the required monitoring, testing, record keeping, and/or reporting requirements, as appropriate, associated with the applicable requirement in question.
