## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

March 3, 2025

THE HONORABLE JOSE MENENDEZ  
TEXAS SENATE  
PO BOX 12068  
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application  
Project Number: 37590  
Permit Number: O2846  
United Services Automobile Association  
San Antonio Facility  
San Antonio, Bexar County  
Regulated Entity Number: RN101966075  
Customer Reference Number: CN600611354

Dear Senator Menendez:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-98.576388,29.533333&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Jose Menendez

## 1. EXECUTIVE SUMMARY

---

United Services Automobile Association (USAA) owns and operates its headquarters in San Antonio, Texas (San Antonio Facility), which is located in Bexar County. USAA has been assigned Customer Number (CN) 600611354. The San Antonio Facility has been assigned Texas Commission on Environmental Quality (TCEQ) Air Quality Account Number BG-1306-P and Regulated Entity Number (RN) 101966075.

Bexar County is currently classified as serious nonattainment for the 2015 ozone standard and attainment or unclassified area for all remaining criteria pollutants.<sup>1</sup> The San Antonio Facility is a minor source with respect to federal New Source Review permitting and a major source with respect to the federal operating permits program (Title V) due to potential emissions of Nitrogen Oxides (NO<sub>x</sub>) and Carbon Monoxide (CO).

USAA is currently authorized under TCEQ Federal Operating Permit (FOP) No. O2846 issued on November 4, 2020 which has a renewal date of June 4, 2025. As specified in Title 30 Texas Administrative Code Section 122.241, Title V permits are required to be renewed every five (5) years. State and Federal regulations also require permit holders to submit timely and complete permit applications between six (6) and eighteen (18) months prior to the expiration date of the permit. This permit expires on November 3, 2025; thus, this permit renewal application is being submitted in accordance with 30 TAC Chapter 122.241 prior to June 4, 2025. With this permit renewal application, USAA is requesting that Permit No. O2846 be reissued to include all equipment and operations that are currently permitted under FOP No. O2846 except as noted in section 3 of this application.

Section 2 contains a summary of the permitted operations associated with this renewal application. Section 3 contains a summary of the requested changes associated with this application. Section 4 of this application contains TCEQ General and Administrative Forms including the Site Information Summary Form OP-1, Permit Renewal Form OP-2, Application Compliance Plan and Schedule Form OP-ACPS, Responsible Official Certification Form OP-CRO1, and Individual Unit Summary Form OP-SUMR. Section 5 of this application contains TCEQ Potentially Applicable Requirement Forms including the Area-Wide Applicability Determinations and General Information Form OP-REQ1, Negative Applicability Requirement Determinations Form OP-REQ2, and Permit-by-Rule Supplemental Form OP-PBRSUP. An area map and plot plan of the San Antonio Facility are provided in Appendices A and B, respectively.

## 2. PROCESS DESCRIPTION

---

USAA is a nationwide provider of insurance and banking resources. The San Antonio Facility is the headquarters for all USAA customer operations. The site also provides support to additional USAA facilities across the United States and abroad.

Operations at the San Antonio Facility include the storage of essential information on computer storage devices related to insurance data, critical banking operations, and the maintenance of disaster preparedness workstations among other business activities at the headquarters. Emergency generators, comfort boilers, water heaters, and diesel storage tanks are used in support of these essential operations. The San Antonio Facility operates continuously throughout the year (i.e., 8,760 hours).

Additional equipment operated at the site, but considered off-permit sources include a small paint booth, small heaters, and cooling water units.

### **3. REQUESTED CHANGES**

---

As stated in Section 1, USAA wishes to renew the FOP O2846 with no major revisions. GRPBOIL and GRPHEAT have been removed from the permit. GRP-BOIL2 has been added to the permit with no applicable requirements.
