**From:** Tusar Swami <tusar.swami@tceq.texas.gov>  
**Sent:** Monday, June 9, 2025 11:12 AM  
**To:** Karen M Bullard (karen@bullardec.com) <karen@bullardec.com>  
**Subject:** Working Draft Permit -- FOP O37843/Project 4376, Fiber Glass Systems LP/Andrews Plant - Respond by 6/13.

Karen:

Good morning. Need some help from you. As per my note I sent you a working draft on 3/16/2025. If my memory serves me right, we had some exchanges at that time. But for some reasons I can not find those emails. If you can confirm that you did receive the working draft and did comment that will be very helpful. I am resending in case I did miss it earlier.

I have conducted a technical review of *revision* application for Fiber Glass Systems LP/Andrews Plant. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application dated March 10, 2025, and any updates provided.

As per the request the effective date for NSR permit is 167157 is updated to 12/09/2024. Rest of the permit is unchanged.

Please review the WDP and submit to me any comments you have on the working draft permit by **June 13<sup>th</sup>, 2025**.

Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP.

Please review the second portion of the “SOP Technical Review Fact Sheet” located at [http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title\\_V/sop\\_wdp\\_facsheet.pdf](http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_facsheet.pdf). This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application information, including application updates supporting the WDP comments, is required. After final review of the WDP, additional changes supported by application updates may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that was not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).**

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit. Thank you for your cooperation.

Sincerely,

*Tusar Swami, P.E.*

Karen:

If it is just one process, just make sure the requirements are acceptable to you. The description of the Unit ID conveys that. You just confirm that and we will proceed with Public Announcement.

If you think the site is represented better by more than one process you can do that also. The OP-UA66 attribute values may be different or same depending on the instructions.

**Subject:** Working Draft Permit -- FOP O4376/Project 37843, Fiber Glass Systems LP/Andrews Plant - respond by 4/30/2025

Karen:

Good morning. I have conducted a technical review of *minor revision* application for Fiber Glass Systems LP/Andrews Plant. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application dated March 10, 2025, and any updates provided. Following issues came up, for which we need clarification and may updates.

- Please note that PROPOLY is an existing Unit ID/Process ID. So, you cannot have another exact same Unit ID/Process ID saying it is new. Also note that the OP-UA66 (Table 1 for 40 CFR Part 63, Subpart WWWW) has been updated 10/23. If you believe these are two processes, you may distinguish them by identifying them as PROPOLY-1 and PROPOLY-2 (or by any other name as per your preference). Or if you believe this is just one process (as represented in the working draft) and you updated the attribute values as submitted in this revision.
- During the initial issuance of the permit, we had high level citations because our forms and logic were not ready then for detailed citations. If you wish to proceed with the 2 Process IDs, it is recommend to update the attribute values as per the latest OP-UA66.

[TCEQ Form 20977 - OP-UA66 Reinforced Plastic Composites Production](#)

Please review the WDP and submit to me any comments you have on the working draft permit by **April 30, 2025**.

Please review the second portion of the "SOP Technical Review Fact Sheet" located at [http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title\\_V/sop\\_wdp\\_facsheet.pdf](http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_facsheet.pdf). This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application information, including application updates supporting the WDP comments, is required. After final review of the WDP, additional changes supported by application updates may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that was not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**Subject:** RE: STEERS/TV 37843 / 4376 - STREAMLINE - FIBER GLASS SYSTEMS

Carolyn,

This minor revision doesn't require the company to publish notice (see screenshot from TCEQ guidance below). However, I've attached the document with the requested public notice information in case it is needed for the TCEQ posting.

Thanks,  
Karen.

- E. Processing procedures and timelines for Minor Revision:
- i. The assigned APD permit reviewer will contact the applicant during the technical review of the minor revision application. The permit reviewer may request additional information from the applicant based on the technical review of the application. The permit reviewer will submit a Working Draft Permit to the applicant for review.
  - ii. Minor permit revision review includes public announcement (for 30 days) and EPA review (for 45 days). The public announcement and EPA review begin on the same day.
  - iii. For minor revisions, the permit holder is not required to publish a newspaper notice. When the revisions are incorporated and a draft permit is prepared, the APD staff will post information regarding the minor permit revision on the TCEQ website to solicit public comments. Before this public announcement period begins, the APD staff will also provide a notice to the EPA and affected state(s), if any, that a draft revised permit is available for their comment.
  - iv. A copy of the draft permit and a 'Statement of Basis' will also be sent to the applicant before the start of the public announcement period.
  - v. APD staff will issue the revised permit after the conclusion of the EPA review period.

Subject: STEERS Title V Application Submittal (New Application)

The TV-E application has been successfully submitted by Jennifer Moyers. The submittal was received at 03/14/2025 02:35 PM.

The Reference number for this submittal is 768851

The confirmation number for this submittal is 639177.

The Area ID for this submittal is 4376.

The Project ID for this submittal is 37843.

The hash code for this submittal is DD8843AA912D6A90FC4EBD9B46E44E94F8070906F14C544B6E9BE2D98C7F5C4C.

You may access the original application submittal and the notice of final action documents from the COR Viewer which is available at <https://ida.tceq.texas.gov/steersstaff/index.cfm?fuseaction=openadmin.submitlog&newsearch=yes>.

If you have any questions, please contact the STEERS Help Line at 512-239-6925 or by e-mail at [steers@tceq.texas.gov](mailto:steers@tceq.texas.gov).

Re: Fiber Glass Systems, LP  
Andrews Plant  
Minor Revision Application for Site Operating Permit No. O4376  
Regulated Entity Number: RN100213594  
Customer Reference Number: CN600127633  
Andrews, Andrews County

To Whom It May Concern:

On behalf of Fiber Glass Systems, LP., I am submitting this request for a minor revision to their Federal Site Operating Permit (SOP) for their fiberglass manufacturing plant in Andrews, Texas.

This site operates under New Source Review Permit No. 167157, which was recently amended, adding an additional production building, increasing the emissions at the site and triggering the requirement for a Title V minor revision. The new emission sources will be added to the existing process ID PROPOLY. The emission sources operating under PROPOLY are "reinforced plastic composites production" and are the only items at the site with applicable requirements.

Fiber Glass Systems (FGS) is declaring these existing applicable requirements to be provisional terms and conditions (as defined in 30 TAC 122.10) of the SOP. By doing so, FGS is recognizing that such established provisional terms and conditions are the de-facto applicable requirements in the SOP for the change before the minor revision is issued by the TCEQ.

This package also contains the following forms required for application, according to the TCEQ guidance on minor revisions:

- OP-2
- OP-CRO1
- OP-SUMR
- OP-UA66
- OP-REQ3

If you have any questions regarding this material, please contact me via e-mail at [karen@bullardec.com](mailto:karen@bullardec.com) or by phone at (737) 500-6048.

Sincerely,

A handwritten signature in black ink that reads "Karen M. Bullard". The script is cursive and fluid.

Karen M. Bullard, P.E.  
Engineering Partner  
Bullard Environmental Consulting

**Form OP-CRO2**  
**Change of Responsible Official Information**  
**Federal Operating Permit Program**

The Texas Commission on Environmental Quality (TCEQ) shall be notified of a new appointment or administrative information change (e.g., address, phone number, title) for a Responsible Official (RO), Designated Representative (DR), or Alternate Designated Representative (ADR) in the next submittal. This form satisfies the requirements for notification (a revised Certificate of Representation must also be submitted to the U.S. Environmental Protection agency for changes in the DR and ADR). After the initial submittal, if there is a change of Duly Authorized Representative (DAR) appointment or administrative information changes for the DAR, include a revised Form OP-DEL (Delegation of Responsible Official) with the next submittal to TCEQ.
