Re: Title V Permit Minor Revision Application
Federal Operating Permit No. O980
Georgia-Pacific Wood Products LLC
Corrigan Plywood Manufacturing Plant
Corrigan, Polk County
Regulated Entity Number: RN100543073
Customer Reference Number: CN603126640
Air Account Number: PF-0002-P

Dear Mr. Short:

Georgia-Pacific Wood Products LLC (Georgia-Pacific) is submitting the attached Title V permit revision application for the Corrigan Plywood Manufacturing Plant located in Corrigan, Polk County, Texas. The site operates under Federal Operating Permit (FOP) No. O980.

This application proposes to incorporate changes approved in an amendment to NSR Permit No. 48786 issued on May 22, 2025 (TCEQ Project No. 391554). The amendment authorized the rebuild of Log Soaking Vat 3 (part of Emission Point Number [EPN] FUG 4 in NSR Permit No. 48786) to ensure continued reliable operation. The rebuild will consist of replacement of mechanical and structural components that have deteriorated over time due to use (e.g., infeed slide, bottom drag chains and chute, and jack ladder components) and installation of metal plate walls. The changes will not result in an increase in permitted allowable emission rates or historically represented maximum throughput rates.

The Corrigan Plywood Manufacturing Plant is a major source as defined in the Prevention of Significant Deterioration (PSD) regulations. The project emission increase of volatile organic compounds (VOC), the only NSR regulated pollutant emitted from the log soaking vats, of 0¹ tons per year (tpy) was compared to the PSD significant emission rate (SER) of 40 tpy to evaluate PSD applicability. Since the project emissions increase is less than the PSD SER, PSD review was not required.

A minor revision to the site's FOP is required to incorporate the aforementioned changes authorized under the listed NSR permit actions. This submittal package constitutes a minor revision application to incorporate the changes into FOP No. O980 and includes Form OP-CRO1, Form OP-2, and Form OP-REQ1 (page 89, Section

¹ The project emissions increase was calculated as the difference between potential to emit (PTE) and baseline actual emissions (BAE). Since the vat operated continuously during the baseline period and the emission are based on hours of operation the project emissions increase is 0 tpy.

XII.H only). Georgia-Pacific requests that all permit changes identified in this application be established as provisional terms and conditions.

If you should require additional information, or if you have any questions during your review of this notification, please contact Ms. Tracey Posey, Environmental Manager, at (936) 398-7175 or via email at Tracey.Posey@gapac.com.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lester Knight".
