**To:** Jasmine Yuan  
**Subject:** RE: Technical Review - O980 Georgia-Pacific Wood Products LLC (Minor, 38390)

Jasmine,

Good afternoon. We do not have any comments on the working draft permit.

In regard to your question on whether we would like to incorporate any of the off-permit change notifications, Georgia-Pacific is open to TCEQ's direction on whether it is worthwhile at this time to administratively incorporate the minor NSR authorizations that are subject of the four off-permit change notifications submitted since last renewal of SOP No. O980. The table below summarizes the notifications. None of the projects are expected to result in unit-level requirements in the Title V permit.

Affected Unit ID Nos.	TCEQ Project No.	Project Description	NSR Authorization for Notification	Date of Notification Submittal
N/A	37592	Robotic Patch Lines	177032	1/24/2025
N/A	38320	Chipper No. 1 Replacement	180166	6/16/2025
N/A	38321	Woodyard Modernization Project	179775	6/16/2025
N/A	38486	Ash Handling	180381	7/7/2025

Thank you!

*Tracey Posey*

**From:** Jasmine Yuan  
**Sent:** Wednesday, October 29, 2025 9:26 AM  
**To:** Posey, Tracey B  
**Subject:** Technical Review - O980 Georgia-Pacific Wood Products LLC (Minor, 38390)  
**Attachments:** SOP - O980 Georgia-Pacific Wood Products LLC (Minor, 38390) Draft.docx

Good Morning,

I have been assigned to the Federal Operating Permit (FOP) revision application of Permit No. O980 for Georgia-Pacific Wood Products LLC, Corrigan Plywood Manufacturing Plant, Corrigan Complex. This application has been assigned Project No. 38390. Please address all correspondence pertaining to this permit application, including any updates, to me at the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

I have conducted a technical review of this application and I have attached an electronic copy of the Working Draft Permit (WDP) for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

**Please review the WDP and submit to me any comments you have regarding it by 11/28.** Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP. Note that any application updates necessary to make requested changes must accompany the WDP comments.

***By the way, I see you have 4-5 OP-NOTIFY since last renewed issuance. Do you need to incorporate those op-notify in this project?  
If so, you can send me OP-2 and related forms. I can make changes.***

Please review the "SOP Technical Review Fact Sheet" located

at [http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title\\_V/sop\\_wdp\\_facsheet.pdf](http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_facsheet.pdf). This guidance contains important information regarding the review process, application updates, WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified submittals, including application updates supporting the WDP comments is required to be submitted with the WDP response. After final review of the WDP, additional changes, supported by application updates, may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that were not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).**

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Thank you for your cooperation.

Sincerely,

Jasmine Yuan

Air Account Number: PF-0002-P

Dear Mr. Short:

Georgia-Pacific Wood Products LLC (Georgia-Pacific) is submitting the attached Title V permit revision application for the Corrigan Plywood Manufacturing Plant located in Corrigan, Polk County, Texas. The site operates under Federal Operating Permit (FOP) No. O980.

This application proposes to incorporate changes approved in an amendment to NSR Permit No. 48786 issued on May 22, 2025 (TCEQ Project No. 391554). The amendment authorized the rebuild of Log Soaking Vat 3 (part of Emission Point Number [EPN] FUG 4 in NSR Permit No. 48786) to ensure continued reliable operation. The rebuild will consist of replacement of mechanical and structural components that have deteriorated over time due to use (e.g., infeed slide, bottom drag chains and chute, and jack ladder components) and installation of metal plate walls. The changes will not result in an increase in permitted allowable emission rates or historically represented maximum throughput rates.

The Corrigan Plywood Manufacturing Plant is a major source as defined in the Prevention of Significant Deterioration (PSD) regulations. The project emission increase of volatile organic compounds (VOC), the only NSR regulated pollutant emitted from the log soaking vats, of 0<sup>1</sup> tons per year (tpy) was compared to the PSD significant emission rate (SER) of 40 tpy to evaluate PSD applicability. Since the project emissions increase is less than the PSD SER, PSD review was not required.

A minor revision to the site's FOP is required to incorporate the aforementioned changes authorized under the listed NSR permit actions. This submittal package constitutes a minor revision application to incorporate the changes into FOP No. O980 and includes Form OP-CRO1, Form OP-2, and Form OP-REQ1 (page 89, Section

---

<sup>1</sup> The project emissions increase was calculated as the difference between potential to emit (PTE) and baseline actual emissions (BAE). Since the vat operated continuously during the baseline period and the emission are based on hours of operation the project emissions increase is 0 tpy.

XII.H only). Georgia-Pacific requests that all permit changes identified in this application be established as provisional terms and conditions.

If you should require additional information, or if you have any questions during your review of this notification, please contact Ms. Tracey Posey, Environmental Manager, at (936) 398-7175 or via email at [Tracey.Posey@gapac.com](mailto:Tracey.Posey@gapac.com).

Sincerely,

A handwritten signature in blue ink that reads "Lester Knight".

## Certification

I certify that I am the Duly Authorized Representative for this application and that, based on information and belief formed after reasonable inquiry, the statements and information on this form are true, accurate, and complete.

1. I am Lester Knight, the owner of the STEERS account ER053780.
2. I have the authority to sign this data on behalf of the applicant named above.
3. I have personally examined the foregoing and am familiar with its content and the content of any attachments, and based upon my personal knowledge and/or inquiry of any individual responsible for information contained herein, that this information is true, accurate, and complete.
4. I further certify that I have not violated any term in my TCEQ STEERS participation agreement and that I have no reason to believe that the confidentiality or use of my password has been compromised at any time.
5. I understand that use of my password constitutes an electronic signature legally equivalent to my written signature.
6. I also understand that the attestations of fact contained herein pertain to the implementation, oversight and enforcement of a state and/or federal environmental program and must be true and complete to the best of my knowledge.
7. I am aware that criminal penalties may be imposed for statements or omissions that I know or have reason to believe are untrue or misleading.
8. I am knowingly and intentionally signing Title V Existing 980.
9. My signature indicates that I am in agreement with the information on this form, and authorize its submittal to the TCEC

Permit Number:	The permit number is 980

## Additional Information

Application Creator: This account was created by Brandon Bush

**Form OP-CRO2**  
**Change of Responsible Official Information**  
**Federal Operating Permit Program**

The Texas Commission on Environmental Quality (TCEQ) shall be notified of a new appointment or administrative information change (e.g., address, phone number, title) for a Responsible Official (RO), Designated Representative (DR), or Alternate Designated Representative (ADR) in the next submittal. This form satisfies the requirements for notification (a revised Certificate of Representation must also be submitted to the U.S. Environmental Protection agency for changes in the DR and ADR). After the initial submittal, if there is a change of Duly Authorized Representative (DAR) appointment or administrative information changes for the DAR, include a revised Form OP-DEL (Delegation of Responsible Official) with the next submittal to TCEQ.
