Dear Senator Sparks:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-102.67,34.504166&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Kevin Sparks

Carolyn,

Please process this project manually. This is the one you voided yesterday and asked them to resubmit via STEERS. The received date will be the same day that the applicant submitted the initial in STEERS, per upper management, which was June 30, 2025. When you send for peer review, make sure to include the project number. Let me know if you have any questions.

Thanks,

Subject: Cargill Friona Title V Renewal Application - O2613

Dear TCEQ Air Permitting Team,

On behalf of Cargill Meat Solutions Friona (Cargill) (**CN602700668/RN101615839**), GSI Environmental Inc. (GSI) is submitting this Title V renewal application for Permit No. O2613.

Cargill had submitted the renewal application on June 30th, reference number – 796922 (see attached email). We were notified today (see attached email) that the renewal application was inadvertently submitted as a new application instead, and we had to resubmit the application as a renewal on STEERS. When we tried to submit the renewal application via STEERS today, it gave us an error message that the application submittal is past the due date and it didn't provide us with an option to proceed with the renewal application submittal.

Please accept this application via email and let us know the next steps. We appreciate your help and guidance to get this application submitted.

Please let me know if you have any questions.

Regards,
Gaurav

Form OP-DEL-Instructions
Delegation of Responsible Official Information
Texas Commission on Environmental Quality

General:

A Responsible Official (RO) representing a corporation or military base may choose to delegate signature authority to a Duly Authorized Representative (DAR). An RO representing a limited partnership or other legal entity (such as a limited liability corporation) may also choose to delegate signature authority to a DAR. Such delegation may be made to an individual that has responsibility for the overall operation of one or more manufacturing, production, or operating facilities applying for, or subject to, a federal operating permit. Note that RO identifying information (name, address, title, etc.) must appear on Form OP-1 (Site Information Summary) even if the RO authority is being delegated to a DAR. Please refer to the Form OP-1 instructions for additional information.

This form also satisfies the requirements for notification of a change of DAR appointment, administrative information changes (e.g., address, phone and title) regarding the DAR, or the removal of a previously appointed DAR. During an application review, change notifications should be included in the next submittal to TCEQ regarding the permit. Please notify TCEQ in advance of changes.

After the initial permit application submittal, include a completed Form OP-CRO2 (Change of Responsible Official) with the next submittal to TCEQ if there is:

1. a new RO, Designated Representative (DR), or Alternate Designated Representative (ADR) appointment;
or
2. administrative information changes regarding the RO, DR, or ADR.

For new delegations, this form must bear the signatures of the RO and the DAR. For administrative information changes, this form must bear the signature of either the RO or the DAR. For removal of a previously appointed DAR, this form must bear the signature of the RO. Signature stamps can be accepted in place of an original signature. Electronic signature stamps such as **DocuSign** will not be accepted. **The RO signature date will be used to validate the signature authority of the RO and must be on or after the effective date of the RO delegating to or removing a specific DAR via this action.** The effective date of the RO delegating to the DAR will be based on one of the following:

1. the date the initial application was submitted, if the name of the RO delegating to or removing the DAR was included in the initial application submittal on Form OP-1 (Site Information Summary); or
2. the Appointment Effective Date on Form OP-CRO2, if the RO delegating to or removing the DAR is not the original RO included in the initial Form OP-1 and the RO was changed via Form OP-CRO2.

If the “Action Type” in Section II of this form is designating an “Administrative Information Change,” and the submittal is signed by the DAR, the DAR signature date will be used to validate the signature authority of the DAR and must be on or after the delegation effective date of the DAR certifying the submittal. A DAR cannot certify information unless the DAR has signature authority.

This form must be submitted to TCEQ through Title V STEERS. A copy of the form must also be submitted to the appropriate TCEQ Regional Office and EPA. Information on where to submit this form can be found on the TCEQ website at: www.tceq.texas.gov/permitting/air/titlev/submittal.

TCEQ also requires that a Core Data Form be submitted on all incoming applications unless all the following are met: the Regulated Entity Number (RN) and Customer Reference Number (CN) have been issued by TCEQ and no core data information has changed. The Central Registry is a common record area of TCEQ, which maintains information about TCEQ customers and regulated activities, such as company names, addresses, and telephone numbers. This information is commonly referred as, “core data.” The Central Registry provides the regulated community with a central access point within the agency to check core data and make changes when necessary. When core data about a facility is moved to the Central Registry, two new identification numbers are assigned: the CN and the RN. The Core Data Form is required if facility records are not yet part of the Central Registry or if core data for a facility has changed.

If this is the initial permit for a site, then the Core Data Form must be completed and submitted with application forms. If amending, modifying, or otherwise updating an existing record for a site, the Core Data Form is not required, unless any core data information has changed. To review additional information regarding the Central Registry, go to the TCEQ website at: www.tceq.texas.gov/permitting/central_registry/guidance.

Subject: Cargill Friona Title V Renewal Application - O2613

Dear TCEQ Air Permitting Team,

On behalf of Cargill Meat Solutions Friona (Cargill) (**CN602700668/RN101615839**), GSI Environmental Inc. (GSI) is submitting this Title V renewal application for Permit No. O2613.

Cargill had submitted the renewal application on June 30th, reference number – 796922 (see attached email). We were notified today (see attached email) that the renewal application was inadvertently submitted as a new application instead, and we had to resubmit the application as a renewal on STEERS. When we tried to submit the renewal application via STEERS today, it gave us an error message that the application submittal is past the due date and it didn't provide us with an option to proceed with the renewal application submittal.

Please accept this application via email and let us know the next steps. We appreciate your help and guidance to get this application submitted.

Please let me know if you have any questions.

Regards,
Gaurav
