Good morning Alyssa,

Thank you for the updates you provided me with on 11/25.

I have conducted a technical review of *revision* application for *Ketjen Limited Liability Company/Pasadena Plant*. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

Summary of Changes:

- Added new Unit IDs, F-G-0A, F-G-0B, K-G-1, I-G-4, and NG-GZ-0.
 - New Source Review Authorization References by Emission Unit Table (Draft Pages 55-57).
- Added sitewide applicability to 40 CFR 61 Subpart FF based on the updated OP-REQ1 provided.
 - Special Terms and Conditions (Draft Page 9).

Please review the WDP and submit to me any comments you have by **January 2, 2026**, in addition to the following items as listed below.

1. **Form OP-REQ1 (Page 89):** I checked the OP-REQ1 (Page 89) that you sent me (dated 11/24/2025). All of the data you gave me matches up to what we have listed in our database besides one PBR, 106.433/03/14/1997. We have this PBR as 106.433/09/04/2000 (the difference being that there are two different version numbers/dates). Would you like me to add 106.433/03/14/1997 in addition to the existing 106.433/09/04/2000 or are we keeping one or the other? Please let me know and send a modified Form OP-REQ1 (Page 89) based on your decision. Also, for any unit specific PBRs you add through the OP-SUM, make sure to also add them to this form as well.

2. Form OP-SUM:

- Unit ID NG-GZ-0: The OP-SUM that you most recently sent me lists the PBR effective date for Unit ID NG-GZ-0 as 06/20/2025 (see below). This date is the date the PBR registration 180356 was completed. We are looking for the date of the PBR version itself, so we know which PBR version to enter for each specific unit. This can be found by going to the rule text on the 30 TAC website. (I recommend accessing 30 TAC via [Part 1 - TEXAS COMMISSION ON ENVIRONMENTAL QUALITY | State Regulations | US Law | LII / Legal Infor....](#)) Scroll to the very bottom of the page. You will find at the very bottom where it says, “**Source Note**” that it lists several dates. You can pick from these three version dates to use for PBRs 106.261 and 106.262. Please send me a revised OP-SUM with a corrected PBR effective date for NG-GZ-0.

3. **Non-applicability:** For the new units you requested to add in the application OP-SUM (F-G-0A, F-G-0B, K-G-1, I-G-4,

and NG-GZ-0), all of them show non-applicability based on the UA data provided and therefore will not have applicable requirements in the permit. I added them so that their PCA appears. No further action is needed for this item.

Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP.

Please review the second portion of the "SOP Technical Review Fact Sheet" located at http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf. This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application information, including application updates supporting the WDP comments, is required. After final review of the WDP, additional changes supported by application updates may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that was not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Thank you for your cooperation.

Sincerely,

Good afternoon Alyssa,

Thank you for sending the updates. One quick question on the Form OP-UA3 and OP-UA12 attachments. It looks like you filled these out using the new excel workbook and then saved them as a PDF. If so, could you please keep it in "xlsx" format? This will allow me to see all the pages in the table. As of now I can just see one page when I open them, and I am not sure if you meant to include multiple pages.

Other than this, I have no other immediate questions until I look into the forms more closely and prepare a draft permit for you.

Happy Thanksgiving to you as well!

Best Regards,

Emily L. Knodell

Good afternoon Ms. Knodell,

Please see the response below:

1. **Form OP-REQ1:** In the application, only page 30 of Form OP-REQ1 was included. When we receive only revised portions of the OP-REQ1 during the revision process for changes in area wide applicability determinations and general information, we are required to request the entire OP-REQ1 form (most recent version). (The only exception is when our applicants are only revising OP-REQ1 Pages 88 or 89 for New Source Review Authorizations/PBRS). Please send me the full OP-REQ1.

Response: Please see the attached completed OP-REQ 1.

2. **Form OP-UA3:** On Form OP-2 and Form OP-SUM, you proposed to add four new units (F-G-0A, F-G-0B, K-G-1, I-G-4) with the applicable form listed as OP-UA3, but it was not included in the application. Please send me the most recent version of this form listing unit attributes for these units.

Response: Please see the attached OP-UA3 form.

- There is a fifth unit you proposed to add, NG-GZ-0, with the applicable form listed as Form OP-PBRSUP. Does this unit have a UA form which contains the specific information regarding the corresponding emission unit? If so, please send me the relevant UA form for this unit as well. (i.e., for flares, enter OP-UA7 entitled "Flares")

Response: Please see the attached OP-UA12 form.

3. **Form OP-SUM/OP-PBRSUP:**

- **Unit ID NG-GZ-0:** This unit appears on Table A listing a PBR Registration Number, 180356. The PBR registration number identified in Section A must also be included on Form OP-SUM. Please add Unit ID NG-GZ-0, its Unit Name/Description, PBR Registration Number, PBR number, and PBR effective date to Form OP-SUM. (From looking at the OP-2, it looks like there are two PBRS, 106.261 and 106.262. Please include information for both).

Response: Please see the attached OP-SUM form.

4. **Form OP-REQ2:** I noticed that Form OP-REQ2 was included in the application requesting permit shields be added for Unit IDs F-G-0A, F-G-0B, K-G-1, and I-G-4. As this is a minor revision project, I can only add this information to our database, but the shields cannot be granted until the next renewal project. No further action is required on this item, I just wanted to let you know.

Response: Thank you. Ketjen acknowledges the shields cannot be granted during this project.

Please let me know if you have any questions! I will be out of the office starting tomorrow, but I'll be back Monday. Have a happy thanksgiving!

Thanks,
Alyssa

Good morning Ms. Linares,

My name is Emily Knodell, and I have been assigned to the Federal Operating Permit (FOP) *revision* application of Permit No. **O1537** for *Ketjen Limited Liability Company/Pasadena Plant*. This application has been assigned Project No. **39027**. Please address all correspondence pertaining to this permit application, including any updates, to me at the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high-level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at R6AirPermitsTX@epa.gov and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).

Please review the "SOP Technical Review Fact Sheet" located at http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf. This guidance contains important information regarding the review process and application update procedures. Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

I would appreciate a quick confirmation that this email has reached you.

Thank you for your cooperation.

Sincerely,

Emily L. Knodell
