Good morning Matt,

Thank you for providing the updated Form OP-PBRSUP. Once the site is done reviewing the Working Draft Permit (WDP) please make sure to response by **January 5, 2026** if the site has any comments or changes to the WDP. If the site does not have any changes or comments, please make sure to still provide a response so I can end the Working Draft Permit Review.

Also, for the renewal application for Permit No. O1034 Crown Cork & Seal, Crown Beverage Packaging Sugarland. On the cover letter for that renewal application please make a note that the site requests Title V Permit Reviewer Ryan Glaze to handle the renewal for their Title V Permit. I have spoken with my Supervisor and TCEQ will keep an eye on this renewal application. Once you have submitted the application please send me an email or give me a call so I can let management know that the application has been submitted to TCEQ.

Please let me know if the site has any questions about the WDP for Permit No. O1036 or if you have any questions while submitting the renewal application for Permit No. O1034.

Thanks, and Happy Holidays!

Good morning,

I have conducted a technical review of this application, and I have attached an electronic copy of the Working Draft Permit (WDP) for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

**Please review the WDP and submit to me any comments you have regarding it by January 5, 2026.** Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP. Note that any application updates necessary to make requested changes must accompany the WDP comments.

Note: Based on the submitted forms received on December 2, 2025 the following updates are required.

**Cover Letter**

- The cover letter received does not meet what TCEQ considers a cover letter. Please review the [Site Operating Permit \(SOP\) Renewal Application Guidance \[tceq.texas.gov\]](https://tceq.texas.gov) for the specifics as to what the Cover Letter needs to state.
- The cover letter should state the purpose of this Title V Permit Application. Why is the site submitting this application, has anything changed since the last Title V permit application, if so please state those changes in the cover letter. Example, the site has removed Standard Permit 153679 and is no longer active at the site as of 09/30/2025 that would possibly be something that would need to be documented on the cover letter.
- Please let me know if you have any questions about the cover letter.

**Form OP-PBR SUP**

- On Table B, the site has one unit authorized by a PBR. If that is the case, then Table D also needs to be filled out for this unit and state what monitoring is required. For example, does records have to be kept annually, does tests have to be done? Please state what monitoring is being done for this unit that is authorized by that PBR.
- Please review Please review the [Form OP-PBR SUP Guidance \[tceq.texas.gov\]](https://tceq.texas.gov) Pages 1-4 on how Form OP-PBR SUP needs to be completed.
- Once it has been updated, please sent Form OP-PBR SUP back with all tables (Tables A-D).
- Please let me know if you have any questions about the Form OP-PBR SUP.

**Form OP-1**

- In Section XI. The public notice contact is missing their phone number. Please submit Form OP-1, Section XI and provide the public notice contact's phone number.

Please provide these updates by January 5, 2026 at the latest.

Please let me know if you have any questions or feel free to give me a call.

Thanks,

Hi Ryan,

Please see attached documents. Let me know if you have any questions or further comments, below I have added a few questions please let me how / if I need to change anything.

**Form OP-2**

- On 09/30/2025, Standard Permit 153679 was voided and is no longer at active at the site. This needs to be documented on Form OP-2. **I wasn't sure what Revision Number, Revision Code, or Applicable Form items to input here or if they are needed.**
- Additionally, Unit ID I-2 is authorized by this Standard Permit. This unit needs to have its authorization updated to a different authorization. The change to Unit ID I-2 will need to be documented on Form OP-2. **I wasn't sure what Revision Number, Revision Code, or Applicable Form items to input here or if they are needed.**

**Form OP-PBRSUP**

- In the updated Form OP-PBRSUP only Table B was attached. Form OP-PBRSUP must have all tables (Tables A-D) submitted. Please review the [Form OP-PBRSUP Guidance \[tceq.texas.gov\]](#) Pages 1-4 on how Form OP-PBRSUP needs to be completed. **I am pretty sure this is correct but please let me know if not and what needs changed.**

**Subject:** RE: Technical Review -- FOP O1036/Project 39209, Crown Cork & Seal USA Inc/Crown Beverage Packing Conroe

Good afternoon Matthew,

I have completed my initial review of this Renewal application for the Federal Operating Permit (FOP) Crown Cork & Seal USA Inc. Permit No. O1036. To continue my review, please provide the following information and/or documentation.

**Cover Letter**

- All Title V Permit Applications require a cover letter. Please review the [Site Operating Permit \(SOP\) Renewal Application Guidance \[tceq.texas.gov\]](https://www.tceq.texas.gov) for the specifics as to what the Cover Letter needs to state.

**Form OP-2**

- On 09/30/2025, Standard Permit 153679 was voided and is no longer active at the site. This needs to be documented on Form OP-2.
- Additionally, Unit ID I-2 is authorized by this Standard Permit. This unit needs to have its authorization updated to a different authorization. The change to Unit ID I-2 will need to be documented on Form OP-2.

**Form OP-REQ1**

- Section III, Subsection F, Questions 1-3 do not require a response as this is a SOP and not a GOP. Please remove these responses.
- Section III Subsection J, Question 1 does not require a response as this is a SOP and not a GOP. Please remove the response.
- Section IV., Subsection C, Question 1 does not require a response as this is a SOP and not a GOP. Please remove the response.
- Section VIII., Subsection C, Question 1 does not require a response as the response to Subsection B, Question 1 was no. Please remove the response.
- Section VIII. Subsection GG, Questions 1-2 require a response as the site has units subject to 40 CFR Part 63, Subpart ZZZZ.
- Section XI., Subsection L, Question 1 requires a response.
- Section XII., Subsection B., Questions 1-16, since the site isn't authorized by a Standard Permit, the responses to these questions will need to be updated.
- Section XII. (Page 89), according to TCEQ records, the site is authorized by Case-by-Case Permit No. 75271 and Permit by Rule (PBR) 106.183. These need to be documented on Page 89. Additionally, if the site has any other active PBRs or Standard Exemptions (SE) these also need to be documented.

**Form OP-PBRSUP**

- In the updated Form OP-PBRSUP only Table B was attached. Form OP-PBRSUP must have all tables (Tables A-D) submitted. Please review the [Form OP-PBRSUP Guidance \[tceq.texas.gov\]](https://www.tceq.texas.gov) Pages 1-4 on how Form OP-PBRSUP needs to be completed.

Please provide all application updates by **December 8, 2025** at the latest.

Please let me know if you have any questions.

Thanks,

***Ryan Glaze***

Good morning Matthew,

Thank you for sending the Title V application to EPA Region 6 and sending Forms OP-1 and OP-PBRSUP. I will include these forms in my initial review.

As for the STEERS error, there is a certain way application updates must be done. After an initial application has been submitted, you cannot go back and edit the application (hence the error). I have linked to the [STEERS Guidance \[tceq.texas.gov\]](http://tceq.texas.gov) that helps with submitting application updates to an existing Title V Permit. I recommend reading Section VI. as it specifically deals with about how to submit updates to an existing Title V application.

Please let me know if you have any questions or if the STEERS Guidance link doesn't work.

Thanks,

Thank you, Ryan,

I will submit to EPA Region 6 now. I spoke with TCEQ region 12 and they stated that they can access the permit from STEERS so no need to send them anything additional. Attached are the updated OP-PBRSUP

and OP-1 forms. I tried to update through STEERS however, below is a screenshot of what happened when I tried to do that.

Good morning Matthew,

To answer your question, it's best to go ahead and submit to the EPA Region 6 and the Regional TCEQ office the Title V application.

Now if application updates are request those can be sent later and all at once. For example, if updates are requested, instead of sending them to the EPA and TECQ regional office every single time wait until final Form OP-CRO1 is requested. Once Form OP-CRO1 is requested, submit all application updates made to the EPA Region 6 and the TCEQ Regional office that has jurisdiction.

To summarize, go ahead and submit the Title V application. If application updates are requested, wait until Final Form OP-CRO1 is requested then the site can submit all application updates all at once.

Please let me know if you have any other questions.

Thanks,

## **Ryan Glaze**

Thank you for the information, Ryan. One more question below.

- **As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents \[tceq.texas.gov\]](#). Assuming I will need to submit the same documents to region 6 as I sent through STEERS? I have changed the OP-1 form already and will get that updated on the STEERS platform.**

*Response: Yes, all Title V applications and application updates will need to be submitted to EPA Region 6 and the TCEQ regional official that has jurisdiction along with submitting them to STEERS.*

***Do you think it would be best to wait for Regional TCEQ and EPA Region 6 submittal until after you have finished your review and I have made necessary changes? That way hopefully I don't need to update 3 different sources multiple times if there are issues.***

Good afternoon Matthew,

I'm currently starting my initial review of the Renewal application so I will not be able to provide a detail response to all your questions. However, I have provided a response to what I know as of right now, and will provide a better response once I have completed my initial review.

- *Responses are in italics*

- . NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient. **There will be no changes to our monitoring from our current permit, so I assume that our current monitoring plan is sufficient. Or do I need to submit something else?**

*Response: At this time, I'm still reviewing the contents of this information and cannot provide a response.*

- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals. **I don't believe we have designated anything as confidential so should be okay here.**

*Response: You are correct.*

- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments. **I may need clarification on this one if there is something that I need to do on my end.**

*Response: At this time, no. High-level terms are when RRT hasn't been developed (or currently in development) by TCEQ. Some permits have them and some do not. After looking at the site's effective permit this bullet point should not apply for this site however this could change after I finish my initial review.*

- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions. **There have not been any additional PBR's since our last Title V renewal in 2020 so I was under the impression there was nothing needed on this form.**

*Response: Yes, For Renewals Form OP-PBRSUP must be submitted every time to document all PBRs active at the site. Even if there isn't any additions or changes from the previous Renewal Form OP-PBRSUP must be completed. I do have some changes documented for Form OP-PBRSUP however, I will send out all requests for more information once I have completed my initial review.*

- **As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. Hi Ryan,

I do have a few questions; just want to make sure I am on the right path. Questions / clarification in red.

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient. **There will be no changes to our monitoring from our current permit, so I assume that our current monitoring plan is sufficient. Or do I need to submit something else?**

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1. **Understood**

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. I am on the road this week for some work at one of our other facilities so email responses may be a little delayed.

**Subject:** Technical Review -- FOP O1036/Project 39209, Crown Cork & Seal USA Inc./Crown Beverage Packing Conroe

Good morning Matthew,

I have been assigned to the Federal Operating Permit (FOP) renewal application of Permit No. O1036 for Crown Cork & Seal USA Inc./Crown Beverage Packing Conroe. This application has been assigned Project No. 39209. Please address all correspondence pertaining to this permit application, including any updates, to me at the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.
- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions.

If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents \[tceq.texas.gov\]](#).**

RE: Crown Cork & Seal- Conroe, TX  
Renewal Application – FOP 0-1036  
CN: 602717332  
RN: 100711118

Dear Sir/Madam,

Please find enclosed documents for renewal of application FOP 0-1036 for the Crown Cork & Seal facility located in Conroe, Texas. The purpose of this application is to renew the current permit in accordance with specified timelines within. Any changes to the current permit are listed below along with permitting and plant contact information.

Change Summary:

- Standard permit 153679 is no longer effective at the plant as of 9/30/2025 (has been incorporated into NSR 75721)

We are not proposing any additional changes to the existing monitoring, recordkeeping, or reporting requirements outlined in the facility's existing operating permit. All existing usage and pollutant monitoring will still exist to ensure compliance with permitted limits.

The application area is located at a site that is subject to 40 CFR 63, Subpart F and the application area includes process vents, storage vessels, transfer racks, or waste streams associated with a chemical manufacturing process subject to 40 CFR 63, Subpart F. <i>If the response to Question VIII.C.1 is "No," go to Section VIII.D.</i></p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<p>2. The application area includes fixed roofs, covers, and/or enclosures that are required to comply with 40 CFR § 63.148.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<p>3. The application area includes vapor collection systems or closed-vent systems that are required to comply with 40 CFR § 63.148. <i>If the response to Question VIII.C.3 is "No," go to Question VIII.C.8.</i></p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<p>4. The application area includes vapor collection systems or closed-vent systems that are constructed of hard piping.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<p>5. The application area includes vapor collection systems or closed-vent systems that contain bypass lines that could divert a vent stream away from a control device and to the atmosphere. <i>If the response to Question VIII.C.5 is "No," go to Question VIII.C.8.</i></p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<i>Vapor Collection and Closed Vent Systems</i>	
<p>6. Flow indicators are installed, calibrated, maintained, and operated at the entrances to bypass lines in the application area.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No
<p>7. Bypass lines in the application area are secured in the closed position with a car-seal or a lock-and-key type configuration.</p>	<input type="checkbox"/> Yes <input type="checkbox"/> No

<b>VIII. Title 40 Code of Federal Regulations Part 63 - National Emission Standards for Hazardous Air Pollutants for Source Categories (continued)</b>	
<b>J. Subpart U - National Emission Standards for Hazardous Air Pollutant Emissions: Group 1 Polymers and Resins (continued)</b>	
<i>Drains (continued)</i>	
17. The application area includes drains, drain hubs, manholes, lift stations, trenches, or pipes that convey water with a total annual average concentration greater than or equal to 10,000 parts per million by weight of compounds meeting the definition of organic HAP in 40 CFR § 63.482, at any flow rate.	<input type="checkbox"/> Yes <input type="checkbox"/> No
18. The application area includes drains, drain hubs, manholes, lift stations, trenches or pipes that convey water with a total annual average concentration greater than or equal to 1,000 parts per million by weight of compounds meeting the definition of organic HAP in 40 CFR § 63.482, at an annual average flow rate greater than or equal to 10 liters per minute.	<input type="checkbox"/> Yes <input type="checkbox"/> No
19. The application area includes drains, drain hubs, manholes, lift stations, trenches or pipes that are part of an elastomer product process unit that is a new affected source or part of a new affected source and the equipment conveys water with a total annual average concentration greater than or equal to 10 parts per million by weight of compounds meeting the definition of organic HAP in 40 CFR § 63.482, at an average annual flow rate greater than or equal to 0.02 liter per minute.	<input type="checkbox"/> Yes <input type="checkbox"/> No
<b>K. Subpart W - National Emission Standards for Hazardous Air Pollutants for Epoxy Resins Production and Non-nylon Polyamides Production</b>	
1. The manufacture of basic liquid epoxy resins (BLR) and/or manufacture of wet strength resins (WSR) is conducted in the application area. <i>If the response to Question VIII.K.1 is "No" or "N/A," go to Section VIII.L.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

October 28, 2025

THE HONORABLE BRANDON CREIGHTON  
TEXAS SENATE  
PO BOX 12068  
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application  
Project Number: 39209  
Permit Number: O1036  
CROWN Cork & Seal USA, Inc.  
Crown Beverage Packaging Conroe  
Conroe, Montgomery County  
Regulated Entity Number: RN100711118  
Customer Reference Number: CN602717332

Dear Senator Creighton:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-95.458333,30.303611&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Brandon Creighton

<b>VIII. Title 40 Code of Federal Regulations Part 63 - National Emission Standards for Hazardous Air Pollutants for Source Categories (continued)</b>		
<b>G. Subpart R - National Emission Standards for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations) (continued)</b>		
4.	The bulk gasoline terminal or pipeline breakout station is located within a contiguous area and under common control with sources, other than bulk gasoline terminals or pipeline breakout stations that emit or have the potential to emit HAPs. <i>If the response to Question VIII.G.4 is "Yes," go to Question VIII.G.10.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
5.	An emissions screening factor was calculated for the bulk gasoline terminal or pipeline breakout station. <i>If the response to Question VIII.G.5 is "No," go to Question VIII.G.10.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
6.	The value 0.04(OE) is less than 5% of the value of the bulk gasoline terminal emissions screening factor (ET) or the pipeline breakout station emissions screening factor (Ep). <i>If the response to Question VIII.G.6 is "No," go to Question VIII.G.10.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
7.	Emissions screening factor less than 0.5 (ET or EP < 0.5). <i>If the response to Question VIII.G.7 is "Yes," go to Section VIII.H.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
8.	Emissions screening factor greater than or equal to 0.5, but less than 1.0 (0.5 ≤ ET or EP < 1.0). <i>If the response to Question VIII.G.8 is "Yes," go to Section VIII.H.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
9.	Emissions screening factor greater than or equal to 1.0 (ET or EP ≥ 1.0). <i>If the response to Question VIII.G.9 is "Yes," go to Question VIII.G.11.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
10.	The site at which the application area is located is a major source of HAP. <i>If the response to Question VIII.G.10 is "No," go to Section VIII.H.</i>	<input type="checkbox"/> Yes <input type="checkbox"/> No
11.	The application area is using an alternative leak monitoring program as described in 40 CFR § 63.424(f).	<input type="checkbox"/> Yes <input type="checkbox"/> No
