Anna,

Good morning and hope you had a nice vacation. Please see the name change form request from TCEQ regarding the recent Title V submittal. There has been a change from Anheuser Busch Inc. to Anheuser Busch LLC. Rachel will be contacting you in order to complete in a timely manner as Anheuser Busch LLC is active in the system.

Thanks,

**RE:** Title V Permit Renewal Application  
Permit Number O1066  
Anheuser-Busch Houston Brewery (RN100211697)  
Anheuser-Busch LLC (CN600125629)  
Houston, Harris County, Texas

Dear Sir or Madam,

On behalf of Anheuser-Busch LLC (Anheuser-Busch), Edge Engineering and Science, LLC (EDGE) is pleased to provide this renewal application to Title V Site Operating Permit (SOP) No. O1066 for the Houston Brewery, located in Harris County, Texas. The air emission sources at the facility are authorized under New Source Review (NSR) Permit No. 8904/PSDTX447M1/N012 and various Permit by Rules (PBR). SOP No. O1066 expires on November 5, 2026. In order to maintain coverage under the permit, Anheuser-Busch respectfully submits this application to renew SOP No. O1066 prior to six months before the date of expiration.

As required, the following forms are included with this application:

- + Attachment 1: Form OP-2 – Application for Permit Revision/Renewal
- + Attachment 2: Form OP-1 – Site Information Summary
- + Attachment 3: Form OP-REQ1 – Application Area-Wide Applicability Determinations and General Information
- + Attachment 4: Form OP-PBRSUP – Permit by Rule Supplemental Table
- + Attachment 5: Form OP-ACPS – Application Compliance Plan and Schedule
- + Attachment 6: Form OP-UA2 – Stationary Reciprocating Internal Combustion Engine Attributes
- + Attachment 7: Form OP-UA6 – Boiler/Steam Generator/Steam Generating Units Attributes
- + Attachment 8: Form OP-UA15 – Emission Point/Stationary Vent/Distillation Operation Vent/Process Vent Attributes

All unit attribute forms are updated and included with this application since the TCEQ has changed the form formats. Each of these updated forms includes its own Individual Unit Summary (OP-SUM) table.

With this application, Anheuser-Busch requests that the existing Permit Shield and the existing Periodic Monitoring remain in the permit unchanged; therefore, Forms OP-REQ2 and OP-MON are not included with this submittal.

Additional copies of the renewal application package have been mailed to local pollution control agencies and the TCEQ Region 12 Office in Houston, Texas, and emailed to the U.S. Environmental Protection Agency (EPA) Region 6.

We look forward to assisting the TCEQ during review of this package and to obtaining issuance of the renewed site operating permit. Should you have any questions regarding this information provided in this letter, please contact Ms. Lyndsey Kinninger of Anheuser-Busch at (713) 678-3827 or me at (512) 626-6099 or at [aidelagarza@edge-es.com](mailto:aidelagarza@edge-es.com).

## Facility Description

The Houston Brewery is located at 775 Gellhorn Drive in Houston, Texas, in Harris County. The facility manufactures malt beverages. Primary operations include brewing, packaging, shipping, and utilities. Raw materials (malt, barley, rice, corn grits, etc.) are received by railcars and transferred pneumatically into storage bins. These grains are milled then blended with water in mash cookers to begin the brewing process. The resulting mash solution is then strained using lauter tubs. The strained liquid, or wort, is then transferred to brew kettles where it is boiled. Hops are then added at specified intervals during this boiling process. Upon emptying of the brew kettles, spent hops are removed by straining the wort through hops strainers. The wort is then cooled in aerators/coolers to the temperature required for fermentation. Once cooled, the wort is sent to fermenters and blended with yeast. After this initial stage of fermentation is completed, the beer is then transferred to a second stage of fermentation known as aging or lagering. While lagering, the beer is held in cold cellars at elevated pressures to carbonate it. Once the lagering process is complete, the beer is transferred to finishing tanks where yeast and unstable protein materials are removed using a process known as chill-proofing as well as by filtering the beer through perlite. The finished beer is then sent to packaging operations where bottles, cans, and kegs are filled. The packaged beer that is not pasteurized (draft products) is sent through an additional filtering process.

Steam used during brewing operations is produced by six boilers that use a combination of natural gas, No. 2 fuel oil, biogas, and landfill gas as fuel. Process refrigeration is provided by an ammonia system, which consists of compressors, condensers, receivers, and load units (coolers). The Bio-Energy Recovery System (BERS) is utilized for wastewater treatment at the brewery. The BERS is a biological system that uses anaerobic bacteria to reduce organic material in wastewater. As a byproduct, the BERS produces methane, which is collected and burned in the boilers (as bio-gas fuel).

The Facility is classified under SIC code 2082 for Malt Beverages and NAICS code is 312120.

<b>Date:</b> 01/05/2026	<b>Regulated Entity No.:</b> RN100211697	<b>Permit No.:</b> O1066
<b>Company Name:</b> Anheuser-Busch LLC		<b>Area Name:</b> Houston Brewery

- Part 1 of this form must be submitted with all initial FOP applications and renewal applications.
- The Responsible Official must use Form OP-CRO1 (Certification by Responsible Official) to certify information contained in this form in accordance with 30 TAC § 122.132(d)(8).

**Part 1**

<b>A. Compliance Plan — Future Activity Committal Statement</b>	
<p>The <i>Responsible Official</i> commits, utilizing reasonable effort, to the following:  As the responsible official it is my intent that all emission units shall continue to be in compliance with all applicable requirements they are currently in compliance with, and all emission units shall be in compliance by the compliance dates with any applicable requirements that become effective during the permit term.</p>	
<b>B. Compliance Certification - Statement for Units in Compliance*</b> (Indicate response by entering an "X" in the appropriate column)	
1. With the exception of those emission units listed in the Compliance Schedule section of this form (Part 2, below), and based, at minimum, on the compliance method specified in the associated applicable requirements, are all emission units addressed in this application in compliance with all their respective applicable requirements as identified in this application?	<input checked="" type="checkbox"/> YES <input type="checkbox"/> NO
2. Are there any non-compliance situations addressed in the Compliance Schedule Section of this form (Part 2)?	<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO
3. If the response to Item B.2, above, is "Yes," indicate the total number of Part 2 attachments included in this submittal. <i>(For reference only)</i>	
<p>* For Site Operating Permits (SOPs), the complete application should be consulted for applicable requirements and their corresponding emission units when assessing compliance status. For General Operating Permits (GOPs), the application documentation, particularly Form OP-REQ1 should be consulted as well as the requirements contained in the appropriate General Permits portion of 30 TAC Chapter 122.</p> <p>Compliance should be assessed based, at a minimum, on the required monitoring, testing, record keeping, and/or reporting requirements, as appropriate, associated with the applicable requirement in question.</p>

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

*Protecting Texas by Reducing and Preventing Pollution*

January 20, 2026

THE HONORABLE MOLLY COOK  
TEXAS SENATE  
PO BOX 12068  
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application  
Project Number: 39697  
Permit Number: O1066  
Anheuser-Busch, LLC  
Houston Brewery  
Houston, Harris County  
Regulated Entity Number: RN100211697  
Customer Reference Number: CN600125629

Dear Senator Cook:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-95.269166,29.773055&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Molly Cook

Dear Representative Dutton Jr:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. **VIII. FOP Conditions for Change of Ownership**

- For SOP holders:  
Pursuant to 30 TAC § 122.210 and § 122.211, the permit holder (new owner) is required to submit a permit revision application for a change to the permit identification of ownership or operational control of a site. The change must be facilitated by a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the old and new permit holder. This written agreement is maintained with the permit.
- For GOP holders:  
Pursuant to 30 TAC § 122.503, the permit holder (new owner) is required to submit (before the change is operated) an application for a new authorization to operate for a change to the permit identification of ownership or operational control of a site. The change must be facilitated by a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the old and new permit holder. This written agreement is maintained with the permit.

**A.** Are any other changes needed for the FOP? ☐ YES ☒ NO  
(If YES, submit the information as explained in the instructions.)

**B.** Is there an Acid Rain permit or Cross-State Air Pollution Rule (CSAPR) requirements included in the SOP? ☐ YES ☒ NO  
(If YES, submit the information as explained in the instructions.)

**IX. Authorization**

I, Ryan Hudgins

certify that I am the responsible official for this application and that, based on information and belief formed after reasonable inquiry, the statements and information on this form are true, accurate, and complete.
