TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

April 17, 2026

THE HONORABLE CHARLES SCHWERTNER
TEXAS SENATE
PO BOX 12068
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application
Project Number: 40101
Permit Number: O3852

Streetman Compressor Station
Streetman, Freestone County
Regulated Entity Number: RN101698140

Dear Senator Schwertner:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-96.229166,31.916388&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Charles Schwertner

**Subject: Title V Site Operating Permit Renewal Application (SOP O3852)
Streetman Compressor Station (RN101698140)
Midcoast G & P (East Texas) L.P. (CN603573817)
Air Account No.: FI-0094-Q**

To Whom It May Concern:

Midcoast G & P (East Texas) L.P. (Midcoast) is submitting the enclosed Title V Site Operating Permit (SOP) renewal application to the Texas Commission on Environmental Quality (TCEQ) for Midcoast's Streetman Compressor Station (Station) located near Streetman, Texas in Freestone County. This complete renewal application is being submitted between six (6) and eighteen (18) months prior to the SOP expiration date of October 28, 2026, in accordance with the requirements of Title 30 of the Texas Administrative Code (30 TAC) §122.133 and §122.134.

The periodic monitoring for Unit 4098 is being updated to account for fluctuations in the natural gas heating value; however, no changes in equipment or operations have occurred at the Station since the SOP was last renewed on October 28, 2021. The unit attribute (UA) forms for the Station's existing, unchanged equipment (not including off-permit sources) are included in this application, because the forms have been revised since the last SOP renewal. In addition, the existing Permit by Rule (PBR) sources are addressed on Form OP-PBRSUP to incorporate their PBR requirements.

The application includes the following attachments:

- Attachment 1 – Administrative Forms
- Attachment 2 – Unit Attribute Forms
- Attachment 3 – Applicability Determination Form
- Attachment 4 – Monitoring Form

Midcoast would like to thank you in advance for the review and approval of this SOP renewal application. If you have any questions or comments regarding this letter and enclosure, please contact me at (903) 323-4350 or via e-mail at jeffrey.white@momentummidstream.com.

Sincerely,

Midcoast G & P (East Texas) L.P.
