1.0 EXECUTIVE SUMMARY

Targa Downstream LLC (Targa) owns and operates the Galena Park Terminal in Harris County. Targa is registered under Texas Commission on Environmental Quality (TCEQ) Customer Reference Number (CN) 603592940. The Galena Park Terminal is registered under TCEQ Regulated Entity Number (RN) 100214212. Emission sources at the Galena Park Terminal are authorized via TCEQ New Source Review (NSR) Permit Number (No.) 5414 and various standard permits and Permit by Rule (PBRs).

The Galena Park Terminal is located in Harris County, Texas. Harris County is currently classified as severe ozone nonattainment for the 2008 eight-hour ozone standard, serious for the 2015 eight-hour ozone standard, and an attainment or unclassified for all other criteria pollutants¹. The Galena Park Terminal is considered an existing major source with respect to the Prevention of Significant Deterioration (PSD) and Nonattainment New Source Review (NNSR) permitting programs. The Galena Park Terminal is a Title V facility operating under Site Operating Permit (SOP) No. O614.

The Galena Park Terminal is subject to the Federal Operating Permits (FOP) Program according to Title 30 of the Texas Administrative Code Section 122.120 (30 TAC §122.120). The Galena Park Terminal's SOP No. O614 was last renewed on December 2, 2021, and per §122.241, Title V Operating Permits area required to be renewed every five years. In accordance with 30 TAC §122.133, this renewal application is submitted 6 months prior to the expiration dates December 2, 2026. The following sections describe changes at the site resulting in updates to SOP No. O614.

1.1 CHANGES AT THE SITE

Since the last renewal of SOP No. O614, four (4) minor revisions to the operating permit were submitted on December 30, 2020, December 12, 2022, April 29, 2026, and May 6, 2026. All changes made in the associated revisions should be incorporated into the Title V Operating Permit and are not included in this renewal application. Three (3) off-permit notifications have also been submitted to the TCEQ using Form OP-NOTIFY. The off-permit notifications require incorporation into the operating permit during renewal and are described in additional detail below.

- In October 2021, Targa submitted an off-permit notification to authorize surface coating and abrasive blasting at the Galena Park Terminal, under 30 TAC §106.263. There are no changes in applicated requirements to the existing sources.
- In February 2025, Targa submitted an off-permit notification to increase the gasoline tank throughput at the Galena Park Terminal, under 30 TAC §106.412. There are no changes in applicable requirements to the existing sources.
- In October 2025, Targa submitted an off-permit notification to authorize five (5) diesel storage tanks at the Galena Park Terminal, under 30 TAC §106.473. A permit shield is requested for the 5 diesel tanks for New Source Performance Standard (NSPS) Subpart Kc

Targa proposes to incorporate the above revisions into SOP No. O614. The overall results of the revisions will be VOCs, PM, PM₁₀, PM_{2.5}, and HAPs.

1.2 TCEQ FORMS REQUIRING SUBMISSION AT RENEWAL

Per TCEQ Guidance, only the following items are required to be included in a renewal application.

- TCEQ Forms OP-CRO1, OP-REQ1, OP-ACPS, OP-1, and OP-2;
- TCEQ Form OP-SUMR, if applicable;
- Applicable TCEQ unit attribute forms if there have been any changes to the forms and if the changes affect units at the site;
- TCEQ Form OP-REQ2, if revisions are requested for the permit shield;
- TCEQ Form OP-REQ3, if applicable requirements have been changed;
- TCEQ Form OP-MON, if applicable; and
- Information regarding additions or deletions of units and any changes at the site affecting the permit.

Several unit attribute forms have previously been submitted for the site. The following subsections summarize changes for each form that require a unit attribute form to be submitted in this renewal application.

1.2.1 TCEQ Form OP-UA2

TCEQ Form OP-UA2 was updated in July 2025. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA2. Therefore, TCEQ Form OP-UA2 is not being submitted with this renewal application.

1.2.2 TCEQ Form OP-UA3

TCEQ Form OP-UA3 was updated in October 2025. The regulatory requirements for Title V Unit IDs DTK-1, DTK-2, DTK-3, DTK-4, and DTK-5 are addressed in TCEQ form OP-2 and TCEQ form OP-REQ3. There are no regulatory changes for Title V Unit ID MVFUEL. Therefore, TCEQ Form OP-UA3 is not included with this renewal application.

1.2.3 TCEQ Form OP-UA4

TCEQ Form OP-UA4 was updated in July 2025; however, there are no changes in regulatory applicability for Chapter 115 for the motor vehicle fueling operations (Title V Unit ID MVFUEL). Therefore, TCEQ Form OP-UA4 is not included with this renewal application.

1.2.4 TCEQ Form OP-UA5

TCEQ Form OP-UA5 was updated in July 2025. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA5. Therefore, TCEQ Form OP-UA5 is not being submitted with this renewal application.

1.2.5 TCEQ Form OP-UA6

TCEQ Form OP-UA6 was updated in April 2026. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA6. Therefore, TCEQ Form OP-UA6 is not being submitted with this renewal application.

1.2.6 TCEQ Form OP-UA7

TCEQ Form OP-UA7 was updated in October 2025. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA7. Therefore, TCEQ Form OP-UA7 is not being submitted with this renewal application.

1.2.7 TCEQ Form OP-UA12

TCEQ Form OP-UA12 was updated in December 2025. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA12. Therefore, TCEQ Form OP-UA12 is not being submitted with this renewal application.

1.2.8 TCEQ Form OP-UA16

TCEQ Form OP-UA16 was updated in July 2025. The updates do not impact the existing units at the site included previously on TCEQ Form OP-UA16. Therefore, TCEQ Form OP-UA16 is not being submitted with this renewal application.

1.3 COMPLIANCE ASSURANCE MONITORING

Per 30 TAC §122.604(b), Compliance Assurance Monitoring (CAM) is required for sources that meet the following requirements:

- The emission unit is subject to an emission limitation or standard for an air pollutant (or surrogate thereof) in an applicable requirement;
- The emission unit uses a control device to achieve compliance with the emission limitation or standard; and
- The emission unit has pre-control device potential to emit (PTE) greater than or equal to the amount in tons per year required for a site to be classified as a major source.

Targa does not propose adding any CAM requirements to the Title V permit.

1.4 PERIODIC MONITORING

As required by 30 TAC §122.602(a), periodic monitoring may be required for emission units that are subject to an emission limitation or a standard contained in an applicable requirement if the applicable requirement does not contain sufficient periodic monitoring.

Exemptions to periodic monitoring requirements are listed in 30 TAC §122.602(b) and include the following.

- Emission limitations or standards for which the executive director has determined that the applicable requirement has periodic monitoring (which may consist of recordkeeping) sufficient to yield reliable data from the relevant time period that are representative of the emission unit's compliance with the applicable requirement.
- Emission limitations or standards in NSPSs or NESHAPs proposed by the U.S. EPA after November 15, 1990.

- Emission limitations or standards for which an applicable requirement specifies a continuous compliance determination method.

Targa does not propose adding any periodic monitoring requirements to the Title V permit.

1.5 APPLICATION CONTENTS

The enclosed renewal application for the Galena Park Terminal consists of the following forms.

- Section 2. TCEQ Form OP-1
- Section 3. TCEQ Form OP-2
- Section 4. TCEQ Form OP-SUMR
- Section 5. TCEQ Form OP-CRO1
- Section 6. TCEQ Form OP-REQ1
- Section 7. TCEQ Form OP-REQ2
- Section 8. TCEQ Form OP-ACPS

Units at the Galena Park Terminal that are specifically identified as off-permit sources in TCEQ guidance documents and forms are not specifically addressed in the SOP application. In addition to off-permit sources, units identified as having no unit-specific applicable state or federal requirements are not addressed in the SOP application. The sources not addressed in the application may still be subject to applicable site wide requirements; however, these requirements are not codified on a unit specific basis.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

June 1, 2026

THE HONORABLE CAROL ALVARADO
TEXAS SENATE
PO BOX 12068
AUSTIN TX 78711-2068

Re: Accepted Federal Operating Permit Renewal Application
Project Number:40346
Permit Number: O614
Targa Downstream LLC
Galena Park Terminal
Galena Park, Harris County
Regulated Entity Number: RN100214212
Customer Reference Number: CN603592940

Dear Senator Alvarado:

This letter notifies you that the Texas Commission on Environmental Quality has received a federal operating permit (FOP) renewal application for a site located in your district. As part of this permitting process, the applicant is required to publish a formal newspaper public notice. The notice will inform the public of their right to make comments or request a public hearing. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-95.205,29.743888&level=13>.

The FOP program regulates both new and existing major sources of emissions. The goal of the program is to improve air quality in Texas through increased compliance by codifying existing applicable regulatory requirements into the FOP. The FOP provides the applicant authorization to operate the equipment at the site. The FOP identifies and codifies air emission requirements (known as applicable requirements) that apply to the emission units at the site. The FOP does not authorize construction of emission units or emissions from those units. The New Source Review (NSR) permit is the mechanism for these authorizations.

The Honorable Carol Alvarado
