**Subject:** RE: Working Draft Permit -- FOP O1897/Project 40347, INV Nylon Chemicals Americas, LLC/INV Nylon Chemicals Americas Orange Site

Hi Mr. Westereng,

Thank you for the requested Form OP-CRO1. I wanted to follow up as TCEQ records indicate Mr. Chance Fenetz is the Duly Authorized Representative (DAR) for the site. The application on May 27, 2026 was submitted with Mr. Fenetz as the DAR and the Form OP-CRO1 certified in STEERS today (08/13), identify Mr. Fenetz as the Responsible Official (RO).

To update TCEQ records, please submit Form OP-CRO2 in STEERS designating Mr. Fenetz as the RO. If Mr. Fenetz is still the DAR, please resubmit the Form OP-CRO1 in STEERS with the DAR designation.

Please clarify if Mr. Fenetz is the RO or DAR and submit either Form OP-CRO2 or OP-CRO1 as soon as possible, but no later than **August 21, 2026**. If you have any questions, please do not hesitate to contact me.

Thank you!

Sincerely,

**Jennifer Oakley**

Hi Wendy,

The project advanced through internal QAQC and there are a few items that require additional information and clarification.

**Form OP-REQ1**

- For NSR Authorization No. 1387 the submitted Form OP-REQ1 has an issuance date of 02/22/2022 but TCEQ records show a revision date of 03/13/2026. Please let me know if this change should be incorporated into this revision. If it is to be incorporated into this revision, please submit Form OP-REQ1 Page 89 with the updated issuance date.
- TCEQ records show Standard Permit Registration Nos. 146688, 148653 and 168641 are voided. Please update Form OP-REQ1 Page 89 to reflect active permits.

Please submit form OP-REQ1 as soon as possible, but no later than **August 7, 2026**. If you have any questions, please do not hesitate to contact me.

Thank you!

Sincerely,

**Jennifer Oakley**

Dear Ms. Turner:

I have conducted a technical review of the revision application for INV Nylon Chemicals Americas, LLC/INV Nylon Chemicals Americas Orange Site. An electronic copy of the Working Draft Permit (WDP) is attached for your review. This WDP contains the TCEQ determination of applicable requirements based on the information submitted in your application, and any updates provided.

Please review the WDP and submit to me any comments you have on the working draft permit by **July 22, 2026**.

Please submit a written response by this deadline, even if you are not making any comments on the content of the WDP.

Please review the second portion of the “SOP Technical Review Fact Sheet” located at [http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title\\_V/sop\\_wdp\\_factsheet.pdf](http://www.tceq.texas.gov/assets/public/permitting/air/Guidance/Title_V/sop_wdp_factsheet.pdf). This guidance contains important information regarding WDP review and comment procedures.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application information, including application updates supporting the WDP comments, is required. After final review of the WDP, additional changes supported by application updates may require certification. I will advise you of these changes at a later date. Prior to transmittal of the Public Notice/Announcement Authorization Package, a duly signed OP-CRO1 form may be required which includes the specific dates or time-period of all submitted application documentation that was not previously certified. I will advise you of this requirement prior to sending the Public Notice/Announcement Authorization.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).**

Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Thank you for your cooperation.

Sincerely,

**Jennifer Oakley**

Hi Ms. Turner,

I have conducted a technical review of the minor revision application for INV Nylon Chemicals Americas, LLC/INV Nylon Chemicals Americas Orange Site (Project 40347, Permit O1897).

During the technical review, the following item surfaced which needs additional information/clarification:

**Form OP-MON**

Please provide justification why the site is adding “the sample must be subsequently analyzed for VOC concentration within 24 hours” in the QAQC procedure.

[This is being requested to allow for flexibility of lab personnel and to maintain alignment with sampling and analysis for NH3 at the same location required by SC10 in NSR 1303 permit.](#)

Please provide the requested information at your earliest opportunity, but no later than **July 1, 2026**.

Note that a Certification by Responsible Official (Form OP-CRO1) for any uncertified application updates is required to be submitted. Contact me if you have any questions regarding the guidelines, the project schedule, or any other details regarding your application or permit.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**Subject:** Technical Review -- FOP O1897/Project 40347, INV Nylon Chemicals Americas, LLC/INV Nylon Chemicals Americas Orange Site

Dear Ms. Turner:

I have been assigned to the Federal Operating Permit (FOP) revision application of Permit No. O1897 for INV Nylon Chemicals Americas, LLC, INV Nylon Chemicals Americas Orange Site. This application has been assigned Project No. 40347. Please address all correspondence pertaining to this permit application, including any updates, to me at the address below, and use both the Permit and Project reference numbers above to facilitate tracking.

In addition, I wanted to let you know that EPA has, on occasion, objected to Title V permits based on the following:

- a. NSR permit and PBR monitoring sufficiency –please refer to our periodic monitoring guidance for reference of monitoring that EPA has, so far, considered sufficient.
- b. Reference to confidential business information (CBI) in NSR permits and PBR submittals.

- c. High level terms in the SOP Applicable Requirement Summary Table. The high level terms are sometimes used in SOPs when unit attribute forms have not yet been updated due to regulatory amendments.
- d. Accuracy of PBR information provided on the supplemental table and in the permit – please refer to Forms OP-PBRSUP and OP-REQ1 Instructions. If you have any questions or concerns on any of these items or think you need to do any additional updates, let me know and we can discuss further.

Application updates may now be submitted through Title V STEERS. Any application updates that are submitted by the RO/DAR through STEERS are certified and do not require the submittal of an original signature OP-CRO1. Application updates that are provided through email or physical mail require certification using an original signature OP-CRO1.

Please notify me when these updates have been submitted.

**As required on Form OP-1, question IV.D, please remember the FOP application and all application updates must be submitted to EPA Region 6 at [R6AirPermitsTX@epa.gov](mailto:R6AirPermitsTX@epa.gov) and to the TCEQ regional office having jurisdiction. This submittal information can be found on our website at [Where to Submit FOP Applications and Permit-Related Documents](#).**

## 1. PROJECT INFORMATION

---

INV Nylon Chemicals Americas, LLC (INV) owns and operates a nylon manufacturing facility in Orange County, Texas. Facilities at the site are operated under Site Operating Permit (SOP) O1897. The purpose of this application is to revise the SOP.

As part of this minor revision application, the following revisions are being requested:

- ▶ Revise the CAM text for the CAM Summary Table for unit PE-21 subject to 30 TAC Chapter 115, Vent Gas Controls. As a result of operational changes at the facility, the NSR permit was revised to require that samples be collected at least every 12 hours, but allow 24 hours to analyze them. This is reflected in the updated NSR Special Condition 10 from NSR 1303. NSR Special Condition 10 identifies ammonia (NH<sub>3</sub>) only; however, the same analysis timing requirement is understood to apply for VOC as well. A case-by case CAM OP-MON is being submitted with the detailed changes to the CAM text.
- ▶ OP-REQ1, page 89 is updated to incorporate the latest issuance date of NSR 1303.
