TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

May 28, 2026

MR BRYAN NETHERY
OWNER
ABN CONSTRUCTION LLC
3095 GREEN DEWITT ROAD
CUERO TX 77954-6743

Re: Declaration of Technical Completeness
Registration for an Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Air Quality Registration Number: 184169
Permanent Rock and Concrete Crusher
Cuero, Dewitt County
Customer Reference Number: CN605364439
Regulated Entity Number: RN112458153

Dear Mr. Nethery:

The Texas Commission on Environmental Quality (TCEQ) has determined the above-referenced application, received on May 22, 2026, technically complete on May 27, 2026.

You are now required to publish notice of your proposed activity within **30 calendar days** from the date of this letter. To help you meet the regulatory requirements associated with this notice, we have included the following items:

- Notice for Newspaper Publication
- Sign Posting Example
- Instructions for Public Notice
- Affidavits of Publication
- Notification List

Please note that it is very important that you follow all directions in the enclosed instructions. If you do not, you may be required to republish the notice. Some common errors are the unauthorized changing of notice wording or font, omission of air contaminants, and inaccurate plant site location information represented in the application. Additional information can be found at www.tceq.texas.gov/permitting/air/bilingual/how1_2_pn.html or **if you have any questions, please contact us before you proceed with publication.**

Re: Registration: 184169

The following items and time limitations are also described in the enclosed instructions. However, due to their importance we want to highlight them for you. **The processing of your application may be delayed if these time limitations are not met.**

1. Publish the enclosed notice within **30 calendar days** from the date of this letter.

2. You may also be required to publish notice in an alternate language (refer to the enclosed *Instructions for Public Notice*). The Spanish notice templates are available at:

   www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html

3. Ensure a copy of your application is provided to the TCEQ Regional Office that has oversight for the county in which you intend to operate your plant. This copy must be in place at the TCEQ Regional Office for the entire public comment period and be accessible to the public for review and copying.

4. Proof of publication of the notices, which show publication date and newspaper name, *Affidavit of Publication for Air Permitting*, and, if applicable, *Alternative Language Affidavit of Publication for Air Permitting* should be emailed to PROOFS@tceq.texas.gov or mailed to the TCEQ Office of the Chief Clerk and copies to those on the enclosed *Notification List* within **10 business days** after the notice is published.

5. ***Public Notice Verification (Form TCEQ-20548)*** verifying that the sign requirements have been met should be emailed to PROOFS@tceq.texas.gov or mailed to the TCEQ Office of the Chief Clerk and copies to those on the enclosed *Notification List* within **10 business days** after the end of the publications' designated comment period. **This form is available at:**

   www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html

If you do not comply with **all** requirements described in the instructions, further processing of your application may be suspended or the agency may take other actions.

If you have any questions regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300. If you have any other questions, please contact Mr. Andres Targa at (512) 239-6107.

Sincerely,

Bonnie Evridge

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION FOR AN AIR QUALITY STANDARD PERMIT FOR PERMANENT ROCK AND CONCRETE CRUSHERS

PROPOSED AIR QUALITY REGISTRATION NUMBER 184169

APPLICATION. ABN Construction LLC, 3095 Green Dewitt Road, Cuero, TX 77954-6743 has applied to the Texas Commission on Environmental Quality (TCEQ) for an Air Quality Standard Permit, Registration Number 184169, which would authorize construction of a permanent rock and concrete crusher. The facility is proposed to be located at 3095 Green Dewitt Road, Cuero, Dewitt County, Texas 77954. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. https://gisweb.tceq.texas.gov/LocationMapper/?marker=-97.216302,28.989716&level=13. This application was submitted to the TCEQ on May 22, 2026. The executive director has determined the application was technically complete on May 27, 2026.

PUBLIC COMMENT. Written public comments about this application may be submitted at any time during the public comment period. You may submit public comments either in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087, or electronically at www14.tceq.texas.gov/epic/eComment/. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. The deadline to submit public comments is 30 days after newspaper notice is published.

RESPONSE TO COMMENTS. A written response to all relevant comments will be prepared by the executive director after the comment period closes. The response, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments and requested to be added to the mailing list. The response to comments will be posted in the permit file for viewing.

The executive director shall approve or deny the application not later than 30 days after the end of the public comment period, considering all comments received within the comment period, and base this decision on whether the application meets the requirements of the standard permit.

CENTRAL/REGIONAL OFFICE. The application will be available for viewing and copying at the TCEQ Central Office and the TCEQ Corpus Christi Regional Office, located at 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas 78401-0318, during the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday, beginning the first day of publication of this notice. The application, including any updates, is available electronically at the following webpage: https://www.tceq.texas.gov/permitting/air/airpermit-applications-notices.

INFORMATION. For more information about the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040. You can also view our website for public participation opportunities at www.tceq.texas.gov/goto/participation.

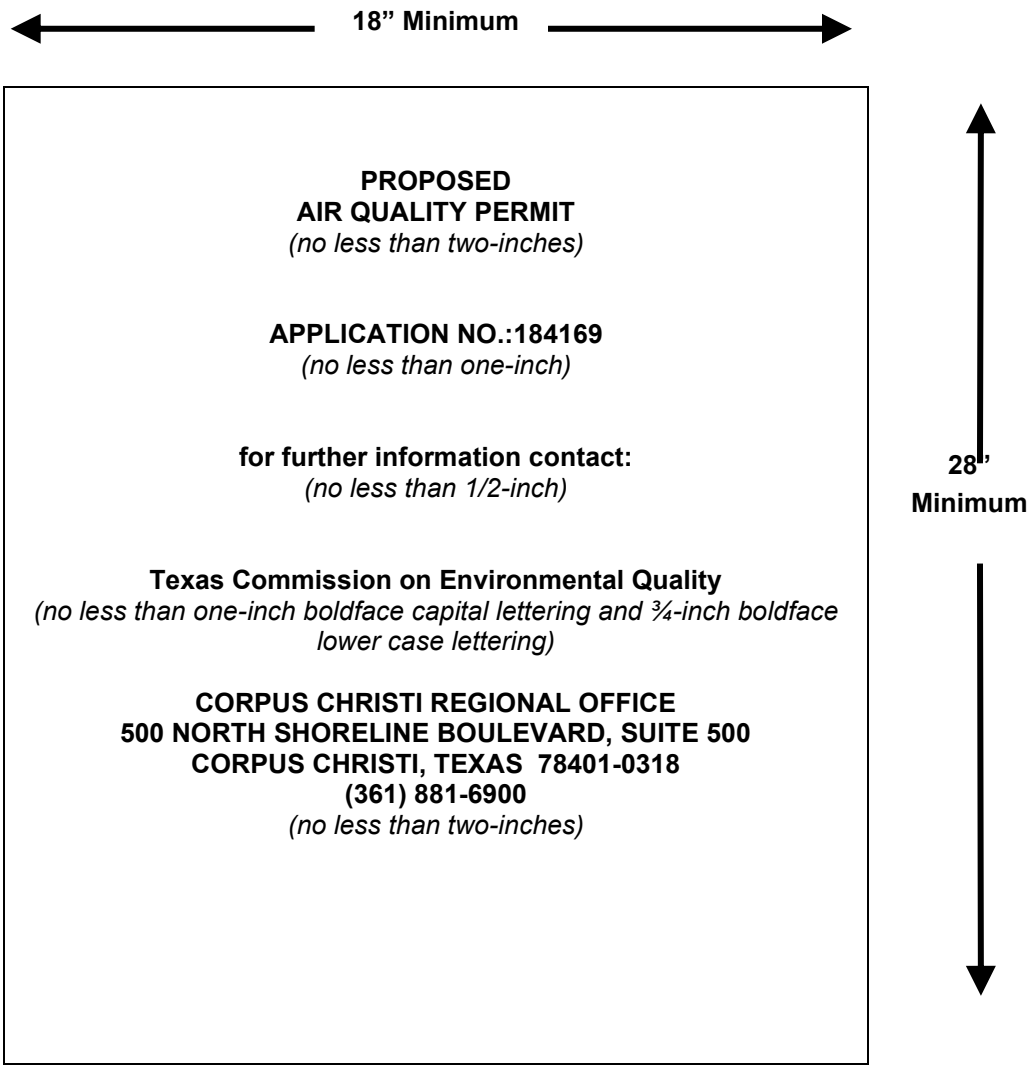

Further information may also be obtained from ABN Construction LLC, 3095 Green Dewitt Road, Cuero, TX 77954-6743, or by calling Ms. Monique Wells, Environmental Consultant at (512) 292-4314.

Notice Issuance Date: May 28, 2026

Example C

Sign Posting

Sign(s) must be in place on day of publication of first newspaper notice and must remain in place and be legible for the 30-day public comment period (which begins on the last day of newspaper publication, either English or alternate language, whichever is later). Note - The information shown is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a street or other public thoroughfare. Signs must be completely visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs shall be required along any property line paralleling a public thoroughfare.

Sign(s) must be placed at whatever height above the ground is necessary for sign(s) to be 100% visible from the street.

WHITE BACKGROUND WITH BLACK LETTERS

All lettering must be boldface block-print.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Instructions for Public Notice

For Air Quality Standard Permit for Permanent Rock and Concrete Crushers

Notice of Application

Your application has been declared technically complete and now you must comply with the following instructions:

Please Review Notice

We have included in the notice all of the information which we believe is necessary. Please read it carefully and notify us immediately if it contains any errors or omissions. You are responsible for ensuring the accuracy of all information published. You may not change the text of the notice without prior approval from the TCEQ.

Newspaper Notice

- You must publish the enclosed notice within **30 calendar days** from the date of the cover letter.
- You must publish the enclosed Notice of Application at your expense, in a newspaper of general circulation in the municipality in which the plant is proposed to be located or in the municipality nearest to the proposed location of the plant.
- You must publish this notice in one issue of any applicable newspaper.
- You will find an example notice enclosed in this package. This example must be published in the "public notice" section of the newspaper.

Alternate Language Notice

In certain circumstances, applicants for air permits must complete notice in alternate languages.

- Public notice rules require the applicant to determine whether a bilingual program is required at either the elementary or middle school nearest to the proposed facility location. Bilingual education programs are determined on a district-wide basis. When students who are required to attend either school are eligible to be enrolled in a bilingual education program, some alternative language notice is required (newspaper notice).
- Since the school district, and not the schools, must provide the bilingual education program, these programs do not have to be located at the above-mentioned schools to trigger the alternative language notice requirement. If there are students who would normally attend the nearest schools, but are eligible to be taught in a bilingual education program at a different location, alternative language notice is required.
- If triggered, publication of alternative language notices must be made in a newspaper or publication printed primarily in each language taught in the bilingual education program. This

notice is required if such a newspaper or publication exists in the municipality or the county where the facility is or will be located.

- The applicant must demonstrate a good faith effort to identify a newspaper or publication in the required language. Publication in an alternative language section or insertion within a large publication which is not printed primarily in that alternative language does not satisfy these requirements. If a newspaper or publication of general circulation published at least once a month in such language cannot be found, publishing in that language is not required, but signs must still be posted adjacent to each English language sign.

- It is suggested the applicant work with the local school district for the following:

  (a) Determine if a bilingual program is required in the district;
  (b) Determine which language is required by the bilingual program;
  (c) Locate the nearest elementary and middle schools; and
  (d) Determine if any students attending either school are eligible to be enrolled in a bilingual educational program.

Proof of Publication

- You must submit proof of publication that shows the notice, the date of publication, and the name of the newspaper to the Office of the Chief Clerk within **10 business days** after the date of publication. Acceptable proofs of publication are 1) copies of the published notice or 2) the newspaper clippings of the published notice. If you choose to submit copies of the published notice to the Office of the Chief Clerk, copies must be on standard-size 8½'' x 11'' paper and must show the actual size of the published notice (do not reduce the image when making copies). Published notices longer than 11'' must be copied onto multiple 8½'' x 11'' pages. Please note, submitting a copy of your published notice could result in faster processing of your application. It is recommended that you maintain newspaper clippings or tear sheets of the notice for your records.

- You are encouraged to submit the **affidavits of publication** and the **Public Notice Verification (Form TCEQ-20548)** with the proof of publication described above to the Office of the Chief Clerk. **You must use the enclosed affidavit.** The affidavit must clearly identify the applicant's name and TCEQ Registration Number. **The public notice verification form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html**

- The **affidavits of publication** and **acceptable proof of publication of the published notices** should be emailed to PROOFS@tceq.texas.gov or mailed to:

  Texas Commission on Environmental Quality
  Office of the Chief Clerk, MC-105
  Attn: Notice Team
  P.O. Box 13087
  Austin, Texas 78711-3087

  Please ensure that the affidavits you send to the Chief Clerk have all blanks on the affidavits filled in correctly.

- **Photocopies of newspaper clippings, affidavits, and verification form must also** be sent to those listed on the enclosed *Notification List* within the deadlines specified above.

Sign Posting

Applicants for this standard permit must also post signs.

- You must post at least one sign in English and as applicable, in each alternative language.

- Signs must be in place on the first day of publication in a newspaper and must remain in place and be legible and be visible from the street for the entire duration of the publications' designated comment period.

- The sign template enclosed (*Example C*) is an example only. Read the sign template carefully and notify the TCEQ if it has an error or omissions. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Any changes to the text prepared by the TCEQ must be approved by the agency.

- Signs placed at the site must be located within 10 feet of each (every) property line paralleling a street or other public thoroughfare. Signs must be completely visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs are required along any property line paralleling a public thoroughfare. Sign(s) must be placed at a sufficient height above the ground that is necessary for sign(s) to be 100 percent visible from the street.

- All lettering on the sign must be boldface block-printed lettering. The sign must be at least 18" wide and 28" tall, and consist of black lettering on a white background. (See Example "C" of sign posting for specific lettering size requirements).

- Alternative language signs are required if alternative notice is required, even if no newspaper can be found.

- Inspect each posted sign daily to ensure it is present and visible throughout the entire comment period.

- You must submit verification of sign posting using the ***Public Notice Verification Form (Form TCEQ-20548)*** **within 10 business days after end of the publications' designated comment period.** Do not submit the *Public Notice Verification Form* verifying sign posting until after the comment period is over. You cannot certify that the sign posting is in compliance until after the comment period is over. **This form is available at www.tceq.texas.gov/permitting/air/nav/air_publicnotice.html.**

Failure to Publish and Submit Proof of Publication

You must meet all publication requirements. **If you fail to publish the notice or submit proof of publication** *on time***, then the TCEQ may suspend further processing on your application or take other actions.**

Application at the TCEQ Regional Office

- You must provide a copy of the technically complete application to the appropriate TCEQ Regional Office that has jurisdiction over the county in which the plant is to be located. The application must be available for review and copying by the public.

- The technically complete application must be available beginning the first day of newspaper publication and remain available until the end of the public comment period.

- If the application is submitted to the TCEQ with information marked as confidential, you are required to indicate which specific portions of the application are not being made available to the public. These portions of the application must be accompanied with the following statement: "Any request for portions of this application that are marked as confidential must be submitted in writing, pursuant to the Public Information Act, to the Texas Commission on Environmental Quality, Public Information Coordinator, MC-197, P.O. Box 13087, Austin, Texas 78711-3087."

General Information

When contacting the Commission regarding this application, please refer to the Registration Number at the top of the Notice of Application.

If you wish to obtain an electronic copy, please contact the technical reviewer who assisted in the preparation of this public notice package. The electronic copy will consist of the example notice, the equivalent in Spanish (if applicable), and the instructions. The electronic version is available in Microsoft Word format only and can be requested once your application has been declared technically complete.

If you have questions or need assistance regarding publication requirements, please contact the Office of the Chief Clerk at (512) 239-3300 or the technical reviewer listed in the cover letter.

Categories: GTG WCC

Hi Andres,

There is one TCEQ link that is not in blue or underlined – see attached. I highlighted the link. I just had the same conversation with Alex about this for a CBP public notice. Same link not underlined. The rest of the draft is good. Link and address is correct.

Also, I found out what happened with the application. My assistant thought we were resubmitting the same one without realizing that I prepared a revised application with the corrected information. Attached is the cover letter for the revised application. Apologies for the confusion.

Thanks again for all your help,
Monique

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF APPLICATION FOR AN AIR QUALITY STANDARD PERMIT FOR PERMANENT ROCK AND CONCRETE CRUSHERS

PROPOSED AIR QUALITY REGISTRATION NUMBER 184169

APPLICATION. ABN Construction LLC, 3095 Green Dewitt Road, Cuero, TX 77954-6743 has applied to the Texas Commission on Environmental Quality (TCEQ) for an Air Quality Standard Permit, Registration Number 184169, which would authorize construction of a permanent rock and concrete crusher. The facility is proposed to be located at 3095 Green Dewitt Road, Cuero, Dewitt County, Texas 77954. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. https://gisweb.tceq.texas.gov/LocationMapper/?marker=-97.216302,28.989716&level=13. This application was submitted to the TCEQ on May 22, 2026. The executive director has determined the application was technically complete on May 27, 2026.

PUBLIC COMMENT. Written public comments about this application may be submitted at any time during the public comment period. You may submit public comments either in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087, or electronically at www14.tceq.texas.gov/epic/eComment/. Please be aware that any contact information you provide, including your name, phone number, email address and physical address will become part of the agency's public record. The deadline to submit public comments is 30 days after newspaper notice is published.

RESPONSE TO COMMENTS. A written response to all relevant comments will be prepared by the executive director after the comment period closes. The response, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments and requested to be added to the mailing list. The response to comments will be posted in the permit file for viewing.

The executive director shall approve or deny the application not later than 30 days after the end of the public comment period, considering all comments received within the comment period, and base this decision on whether the application meets the requirements of the standard permit.

CENTRAL/REGIONAL OFFICE. The application will be available for viewing and copying at the TCEQ Central Office and the TCEQ Corpus Christi Regional Office, located at 500 North Shoreline Boulevard, Suite 500, Corpus Christi, Texas 78401-0318, during the hours of 8:00 a.m. to 5:00 p.m., Monday through Friday, beginning the first day of publication of this notice. The application, including any updates, is available electronically at the following webpage: https://www.tceq.texas.gov/permitting/air/airpermit-applications-notices.

INFORMATION. For more information about the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/goto/pep. Si desea información en Español, puede llamar al 1-800-687-4040. You can also view our website for public participation opportunities at www.tceq.texas.gov/goto/participation.

Further information may also be obtained from ABN Construction LLC, 3095 Green Dewitt Road, Cuero, TX 77954-6743, or by calling Ms. Monique Wells, Environmental Consultant at (512) 292-4314.

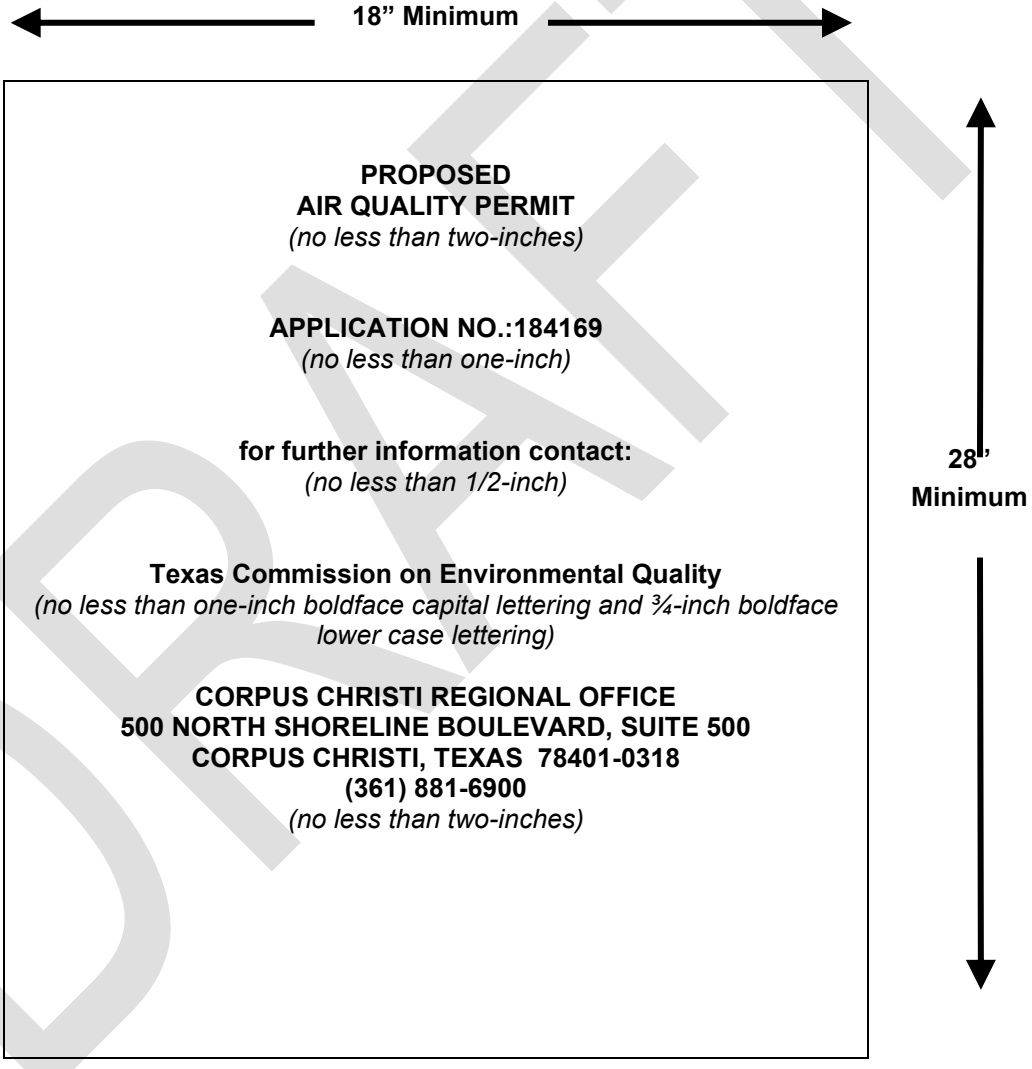

Notice Issuance Date: TBD

DRAFT

Example C

Sign Posting

Sign(s) must be in place on day of publication of first newspaper notice and must remain in place and be legible for the 30-day public comment period (which begins on the last day of newspaper publication, either English or alternate language, whichever is later). Note - The information shown is an example only. It is your responsibility to verify that the appropriate information pertaining to your application is accurate. Each sign placed at the site must be located within 10 feet of each (every) property line paralleling a street or other public thoroughfare. Signs must be completely visible from the street and spaced at not more than 1,500-foot intervals. A minimum of one sign, but not more than three signs shall be required along any property line paralleling a public thoroughfare.

Sign(s) must be placed at whatever height above the ground is necessary for sign(s) to be 100% visible from the street.

WHITE BACKGROUND WITH BLACK LETTERS

All lettering must be boldface block-print.

Hi Andres,

Thanks for taking my call. I don't know what is going on – in my copy of the application, all that information is the current revised info. I have attached these. The process description and flow diagram is the same one that was sent to you on March 25th.

Please let me know what you get on your end.

Thanks again for all your help,
Monique

Good morning,

I am reaching out to request the information that was updated in the previous submission for this permit which includes:

- A revised copy of page 1 for the PI-1S form that includes the correct address

&

- The revised Process Description and Flow Diagram that you provided as a response to the first notice of deficiency for permit number 183133

Please note all three items are required to consider this permit application as technically complete. Once I receive them, I will share the public notice draft for your review and approval.

Process Description

Crushing Facility Operation:

Material is front-end loaded into the hopper (EPN #1) of the primary crusher. From the hopper, the fines material (EPN #2) drop onto a conveyor and will be stockpiled (EPN STK). The majority of the larger material will be processed through the primary crusher (EPN #3). Once crushed, the material will be conveyed to the screening unit (EPN #4).

From the screening unit, the oversized material will be conveyed to the secondary crusher (EPN #5) in a closed loop system. From screening unit 1, sized material will be stockpiled (EPN STK).

The stockpiled material will be loaded into trucks and moved off site. Water will be used to control dust as necessary from all emission points including stockpiles.

Primary crusher, screening unit, and secondary crusher are equipped with diesel engines, EPN #6, EPN #7, EPN #8, respectively. Table 29s for the engines have been included in this application.

Importance: High

Hi All,

I just got off the phone with Rosa from APIRT. She was able to apply the application fee so we could submit it. Attached is a copy of the record for the resubmitted application for ABN Construction.

Joe, could you please assign this to Andres since he is familiar with the application and the site. Nothing has changed since his last review of the application.

Nancy, Rosa literally called me at 6:20 on a Friday to get this done. She is such a dedicated and wonderful person to work with!!!! I can't thank her enough.

Hope everyone has a wonderful weekend,
Monique

Standard Air Quality Permit for Rock Crusher

Dear Mr. Short:

Enclosed is a PI-1S, CORE Data Form, and supporting documents to initiate the standard air quality permit process for ABN Construction, LLC. The company wishes to operate a crusher for the purpose of producing base material. The site is located at 3095 Green DeWitt Road, Cuero - DeWitt County. More information is provided in the Project Description. This is a new facility and will require a new Regulated Entity Number.

CIC Environmental, LLC is the primary contact for this application. Should you or your staff have any questions or comments, please contact me via email at monique@cicenvironmental.com – BEST FORM OF COMMUNICATION. CIC Environmental, LLC respectfully requests a copy of the issuance letter for our files.

Sincerely,

Monique A. Wells

ABN Construction, LLC
General Project/Site Description

Project Description:

ABN Construction, LLC wishes to operate a portable rock and concrete crushing plant on a large tract of land - approximately 350 acres. The site is south of Cuero - DeWitt County. The site is an existing site with a Tier II authorization. The leased facility authorized under the Tier II will be returned to the leasing company at the end of the Tier II authorization or at the issuance of the Standard Permit, whichever comes first.

The new facility will consist of a primary crusher, secondary crusher, and a screening unit along with conveyors as necessary.

The crushing facility will be located no closer that 440 yards from any off-site house, school, or place of worship at the time of submittal along with remaining no closer than 200 feet from any property line. Stockpiles will be located no closer than 100 feet from any property line.

General Site Description:

The site is located at 3095 Green DeWitt Road, Cuero - DeWitt County in a rural undeveloped area of DeWitt County. The surrounding area consists of existing quarries and rural ranches. The nearest rural residential is located greater than 440 yards of the facility mainly on the east side of facility.

Also located on site is a concrete batch plant authorized under permit 151555. The CBP is located in the northern portion of the site and is greater than 550 feet from the proposed crushing plant located on the southern end of the site.

An aerial map has been provided in the application indicating the location of the site, location of CBP, proposed location of crusher, and the surrounding area including nearest residence to the proposed facility.

V.	**Renewal Certification Option** === NOT APPLICABLE ===
A.	Does the permitted facility emit an air contaminant on the Air Pollutant Watch List, and is the permitted facility located in an area on the watch list? ☐ Yes ☐ No
B.	For facilities participating in the Houston/Galveston/Brazoria area (HGB) cap and trade program for highly reactive VOCs (HRVOCs), do the HRVOCs need to be speciated on the maximum allowable emission rates table (MAERT)? ☐ Yes ☐ No
C.	Does the company and/or site have an unsatisfactory compliance history? ☐ Yes ☐ No
D.	Are there any applications currently under review for this standard permit registration? ☐ Yes ☐ No
E.	Are scheduled maintenance, startup, or shutdown emissions required to be included in the standard permit registration at this time? ☐ Yes ☐ No
F.	Are any of the following actions being requested at the time of renewal: ☐ Yes ☐ No
1.	Are there any facilities that have been permanently shut down that are proposed to be removed from the standard permit registration? ☐ Yes ☐ No
2.	Do changes need to be made to the standard permit registration in order to remain in compliance? ☐ Yes ☐ No
3.	Are sources or facilities that have always been present and represented, but never identified in the standard permit registration, proposed to be included with this renewal? ☐ Yes ☐ No
4.	Are there any changes to the current emission rates table being proposed? ☐ Yes ☐ No
*Note: If answers to all of the questions in Section V. Renewal Certification Option are "No," use the certification option and skip to Section VII. of this form. If the answers to any of the questions in Section V. Renewal Certification Option are "Yes," the certification option **cannot** be used.*	
*If notice is applicable and comments are received in response to the public notice, the application does not qualify for the renewal certification option.

VI. Technical Information Including State and Federal Regulatory Requirements
Place a check next to the appropriate box to indicate what you have included in your submittal. *Note: Any technical or essential information needed to confirm that facilities are meeting the requirements of the standard permit must be provided. Not providing key information could result in an automatic deficiency and voiding of the projec*t.
A. Standard Permit requirements (Checklists are optional; however, your review will go faster if you provide applicable checklists.)
Did you demonstrate that the general requirements in 30 TAC§§116.610 and 116.615 are met? ☒ Yes ☐ No
Did you demonstrate that the individual requirements of the specific standard permit are met? ☒ Yes ☐ No
B. Confidential Information (All pages properly marked “CONFIDENTIAL”). ☐ Yes ☐ No N/A
C. Process Flow Diagram. ☒ Yes ☐ No
D. Process Description. ☒ Yes ☐ No
E. Maximum Emissions Data and Calculations. ☒ Yes ☐ No
F. Plot Plan. ☒ Yes ☐ No
G. Projected Start of Construction Date, Start of Operation Date, and Length of Time at Site: ☒ Yes ☐ No
Projected Start of Construction (provide date): May 1, 2026
Projected Start of Operation (provide date): May 1, 2026
Length of Time at the Site: 10+ yrs

VII. Delinquent Fees and Penalties
This form **will not be processed** until all delinquent fees and/or penalties owed to TCEQ or the Office of the Attorney General on behalf of TCEQ are paid in accordance with the Delinquent Fee and Penalty Protocol. For more information regarding Delinquent Fees and Penalties, go to the TCEQ website at: www.tceq.texas.gov/agency/financial/fees/delin/index.html
VIII. Signature Requirements
The signature below confirms that I have knowledge of the facts included in this application and that these facts are true and correct to the best of my knowledge and belief. I further state that to the best of my knowledge and belief, the project for which application is made will not in any way violate any provision of the Texas Water Code (TWC), Chapter 7; the Texas Health and Safety Code (THSC), Chapter 382, the Texas Clean Air Act (TCAA) the air quality rules of the Texas Commission on Environmental Quality; or any local governmental ordinance or resolution enacted pursuant to the TCAA. I further state that I understand my signature indicates that this application meets all applicable nonattainment, prevention of significant deterioration, or major source of hazardous air pollutant permitting requirements. The signature further signifies awareness that intentionally or knowingly making or causing to be made false material statements or representations in the application is a criminal offense subject to criminal penalties.

Texas Commission on Environmental Quality
Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Registration Checklist

The following checklist has been developed to help the Texas Commission Environmental Quality (TCEQ), Air Permits Division (APD) confirm that the permanent rock or concrete crusher meets the standard permit requirements. Please read all questions and check "YES," "NO," or "N/A" or give specific information for the facility. If the permanent rock or concrete crusher plant does not meet all conditions of this standard permit, it will not be allowed to operate under the standard permit and must apply for a case-by-case preconstruction permit as required under Title 30 Texas Administrative Code § 116.111 (30 TAC § 116.111).

Please Check The Type of Facility:	☑ **Rock Crusher** ☐ **Concrete Crusher**	
CONDITION NUMBER AND DESCRIPTION		
(1)(B)	If crushing concrete, will the concrete crushing facility be operated at least 440 yards from any building which is in use as a single or multi-family residence, school, or place of worship at the time this application is filed? (The measurement of distance shall be taken from the point on the concrete crushing facility that is nearest to the residence, school, or place of worship toward the point on the building in use as a residence, school, or place of worship that is nearest the concrete crushing facility.)	☐ YES ☐ NO ☑ N/A
(1)(C)(ii)	In lieu of meeting the distance requirements of (1)(B), will the structure(s) within 440 yards of the concrete crushing facilities be occupied or used solely by the owner of the facility or the owner of the property upon which the facility is located?	☐ YES ☐ NO ☑ N/A
(1)(D)	In lieu of meeting the distance requirements in (1)(B), will all the following occur:	
(1)(D)(i)	Will this plant be engaged in crushing concrete and other materials resulting from the demolition of a structure on this site and will the concrete and other materials being crushed be used primarily at this site?	☐ YES ☐ NO ☑ N/A
(1)(D)(ii)	Will this plant operate onsite for one period of 180 calendar days or less?	☐ YES ☐ NO ☑ N/A
(1)(D)(iii)	Will all applicable conditions stated in commission rules, including operating conditions be met?	☐ YES ☐ NO ☑ N/A
(1)(D)(iv)	Will the plant be located in a county with a population of 2.4 million or more persons, or in a county adjacent to such a county?	☐ YES ☐ NO ☑ N/A
(1)(E)	Do you intend to apply for an authorization under Texas Health and Safety Code (THSC) § 382.0518, Preconstruction Permit, for any other crushing facility to be located at the same site within 12 months from the date of this authorization?	☐ YES ☑ NO ☐ N/A

Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Registration Checklist

Please Check The Type of Facility:	☑ **Rock Crusher** ☐ **Concrete Crusher**	
CONDITION NUMBER AND DESCRIPTION ***(continued)***		
(1)(F)	Is there a rock crusher (or concrete crusher) authorized under Texas Health and Safety Code (THSC) § 382.0518, Preconstruction Permit, at this site?	☐ YES ☑ NO ☐ N/A
	Have you withdrawn, within the previous 12 months, an application for authorization of a crushing facility under (THSC) § 382.0518, Preconstruction Permit, at this site?	☐ YES ☑ NO ☐ N/A
(1)(G)	Are the current registration form PI-1S entitled, "Registration for an Air Standard Permit", Table 17 and supporting information attached or mailed to the TCEQ, including Table 29 (if applicable), control devices and methods explanation, process flow diagram, process description, plot plan, and area map?	☑ YES ☐ NO ☐ N/A
	Is the company's compliance history rating poor?	☐ YES ☑ NO ☐ N/A
(1)(H)	Has construction and/or operation begun on the facility?	☐ YES ☑ NO ☐ N/A
	Is there a non operational crusher stored onsite?	☐ YES ☑ NO ☐ N/A
(1)(I)	In accordance with 30 TAC § 116.614, Standard Permit Fees, was a $900 fee sent to TCEQ Revenue Section?	☑ YES ☐ NO ☐ N/A
(1)(J)	Will all facilities associated with this application for a standard permit comply with the conditions of Title 40 Code of Federal Regulations (40 CFR) Part 60, Subpart A, General Provisions and Subpart OOO, Standards of Performance for Nonmetallic Mineral Processing Plants?	☑ YES ☐ NO ☐ N/A
(1)(K)	Will these crushing facilities only process nonmetallic minerals or a combination of nonmetallic minerals as described in 40 CFR Part 60, Subpart OOO?	☑ YES ☐ NO ☐ N/A
(1)(L)	Is 30 TAC Chapter 101, Subchapter H, Division 3, Mass Emissions Cap and Trade Program; or 30 TAC Chapter 117, Control of Air Pollution from Nitrogen Compounds applicable to this plant?	☐ YES ☐ NO ☑ N/A
(1)(M)	Will written records be kept for a rolling 24-month period at the site and made available at the request of any personnel from the TCEQ or any air pollution control program having jurisdiction?	☑ YES ☐ NO ☐ N/A
	Will these written records be maintained onsite to show daily hourly operations and hourly throughput; road and work area cleaning and dust suppression logs; and stockpile dust suppression logs?	☑ YES ☐ NO ☐ N/A

Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Registration Checklist

Please Check The Type of Facility:	☑ **Rock Crusher** ☐ **Concrete Crusher**	
CONDITION NUMBER AND DESCRIPTION ***(continued)***		
(1)(N)	Will this crushing operation and related activities comply with applicable requirements of 30 TAC Chapter 101, Subchapter F, Emission Events and Scheduled Maintenance, Startup, and Shutdown Activities?	☑ YES ☐ NO ☐ N/A
(1)(P)	Have maintenance emissions been authorized? (Maintenance emissions are not included in this permit and must be approved under separate authorization.)	☐ YES ☑ NO ☐ N/A
	Have start-up and shutdown emissions been authorized? (Start-up and shutdown emissions that will exceed those expected during production operations must be approved under separate authorization.)	☑ YES ☐ NO ☐ N/A
	Will start-up and shutdown emissions exceed those expected during production operations?	☐ YES ☑ NO ☐ N/A
(1)(Q)	Do you intend to authorize any facilities located at the same site as this rock crusher, by 30 TAC Chapter 106, Subchapter E, Aggregate and Pavement or 30 TAC § 106.512, Stationary Engines and Turbines?	☐ YES ☑ NO ☐ N/A
PUBLIC NOTICE REQUIREMENTS - Detailed Public Notice Information will be Sent upon Determination of Technical Completeness		
(2)(B)(i)	Will public notice be published no later than 30 days after the application is determined to be technically complete?	☑ YES ☐ NO ☐ N/A
OPERATIONAL REQUIREMENTS		
(3)(A)	Will the primary crusher throughput exceed 200 tons per hour?	☐ YES ☑ NO ☐ N/A
(3)(B)	Will the crusher and all associated facilities, including engines and/or generator sets, but not including associated sources, be located less than 200 feet from the nearest property line, as measured from the point on the facility nearest the property line?	☐ YES ☑ NO ☐ N/A
(3)(C)	At the time this application is filed, will the crusher and all associated facilities, including engines and/or generator sets, but not including associated sources, be located at least 440 yards from any building which is in use as a single or multi-family residence, school, or place of worship? (Distance shall be measured from the point on the facility nearest the residence, school, or place of worship to the point on the residence, school, or place of worship nearest the facility).	☑ YES ☐ NO ☐ N/A

Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Registration Checklist

Please Check The Type of Facility:		☑ **Rock Crusher** ☐ **Concrete Crusher**
OPERATIONAL REQUIREMENTS ***(continued)***		
(3)(D)	Will the crushing facilities (not including associated sources) be located at least 550 feet from any other rock crusher, concrete crusher, concrete batch plant, or hot mix asphalt plant?	☑ YES ☐ NO ☐ N/A
	Will the crusher operate at the same time as any other rock crusher, concrete batch plant, or hot mix asphalt plant within a 550 feet radius?	☐ YES ☐ NO ☑ N/A
(3)(E)	Will all associated sources, including but not limited to work areas, stockpiles, and roads (except for incidental traffic and the entrance and exit to the site), be located at least 100 ft. from the property line?	☑ YES ☐ NO ☐ N/A
(3)(F)	Will this crushing operation consist of any additional facilities other than one primary crusher, one secondary crusher, one vibrating grizzly, two screens, any conveyors, and one internal combustion engine (or combination of engines) of no more than 1,000 total horsepower? (Equipment that is not a source of emissions does not require authorization.)	☐ YES ☑ NO ☐ N/A
(3)(G)	Will any of the crushers, associated facilities, and/or associated sources (excluding stockpiles) exceed 2,640 operating hours in any rolling 12-month period?	☐ YES ☑ NO ☐ N/A
(3)(H)	Will any of the rock crusher/ concrete crusher or associated facilities operate during any time between one hour after official sunset to one hour before official sunrise?	☐ YES ☑ NO ☐ N/A
(3)(I)	Will all crushers be equipped with runtime meters and will the runtime meters be operating during crushing operations?	☑ YES ☐ NO ☐ N/A
(3)(J)	Will permanently mounted spray bars be installed at the inlet and outlet of all crushers, at all shaker screens, and at all material transfer points and used as necessary to maintain compliance with all TCEQ rules and regulations?	☑ YES ☐ NO ☐ N/A
(3)(K)	Will opacity of emissions from any transfer point on belt conveyors or any screen exceed 10 percent, averaged over a six-minute period as determined using EPA Test Method 9?	☐ YES ☑ NO ☐ N/A
	Will opacity of emissions from any crusher exceed 15 percent, averaged over a six-minute period as determined using EPA Test Method 9?	☐ YES ☑ NO ☐ N/A
(3)(L)	Will visible emissions leave the property for more than 30 seconds in duration in any six-minute period from the crusher(s), associated facilities, associated sources, and in-plant roads associated with the plant as determined using EPA Test Method 22?	☐ YES ☑ NO ☐ N/A

Air Quality Standard Permit for Permanent Rock and Concrete Crushers
Registration Checklist

Please Check The Type of Facility:		☑ **Rock Crusher** ☐ **Concrete Crusher**
OPERATIONAL REQUIREMENTS ***(continued)***		
(3)(M)	Will all in-plant roads and active work areas that are associated with the operation of the crusher, associated facilities, and associated sources be treated at all times with any of the following:	
(3)(M)(i)	Covered with a material such as, but not limited to roofing shingles or tire chips?	☐ YES ☑ NO ☐ N/A
(3)(M)(ii)	Dust-suppressant chemicals?	☐ YES ☑ NO ☐ N/A
(3)(M)(iii)	Water?	☑ YES ☐ NO ☐ N/A
(3)(M)(iv)	Paved with a cohesive hard surface that is maintained intact and cleaned?	☐ YES ☑ NO ☐ N/A
(3)(N)	Will all stockpiles be sprinkled with water, dust-suppressant chemicals, or covered, as necessary, to minimize dust emissions?	☑ YES ☐ NO ☐ N/A
(3)(O)	Will raw material and product stockpile heights exceed 45 ft?	☐ YES ☑ NO ☐ N/A
(3)(P)	Will the crusher be equipped with a weigh hopper or scale belt that accurately determines the mass of material being crushed?	☑ YES ☐ NO ☐ N/A
(3)(Q)	Will the crusher remain at least 440 yards from any existing residence, school, or place of worship when moving to a different location onsite?	☑ YES ☐ NO ☐ N/A

Texas Commission on Environmental Quality
Air Quality Standard Permits
General Requirements Checklist
Title 30 Texas Administrative Code §§116.610-116.615

Check the most appropriate answer and include any additional information in the spaces provided. If additional space is needed, please include an extra page and reference the rule number. The SP forms, tables, checklists, and guidance documents are available from the TCEQ, Air Permits Division web site at: www.tceq.texas.gov/permitting/air/nav/standard.html.

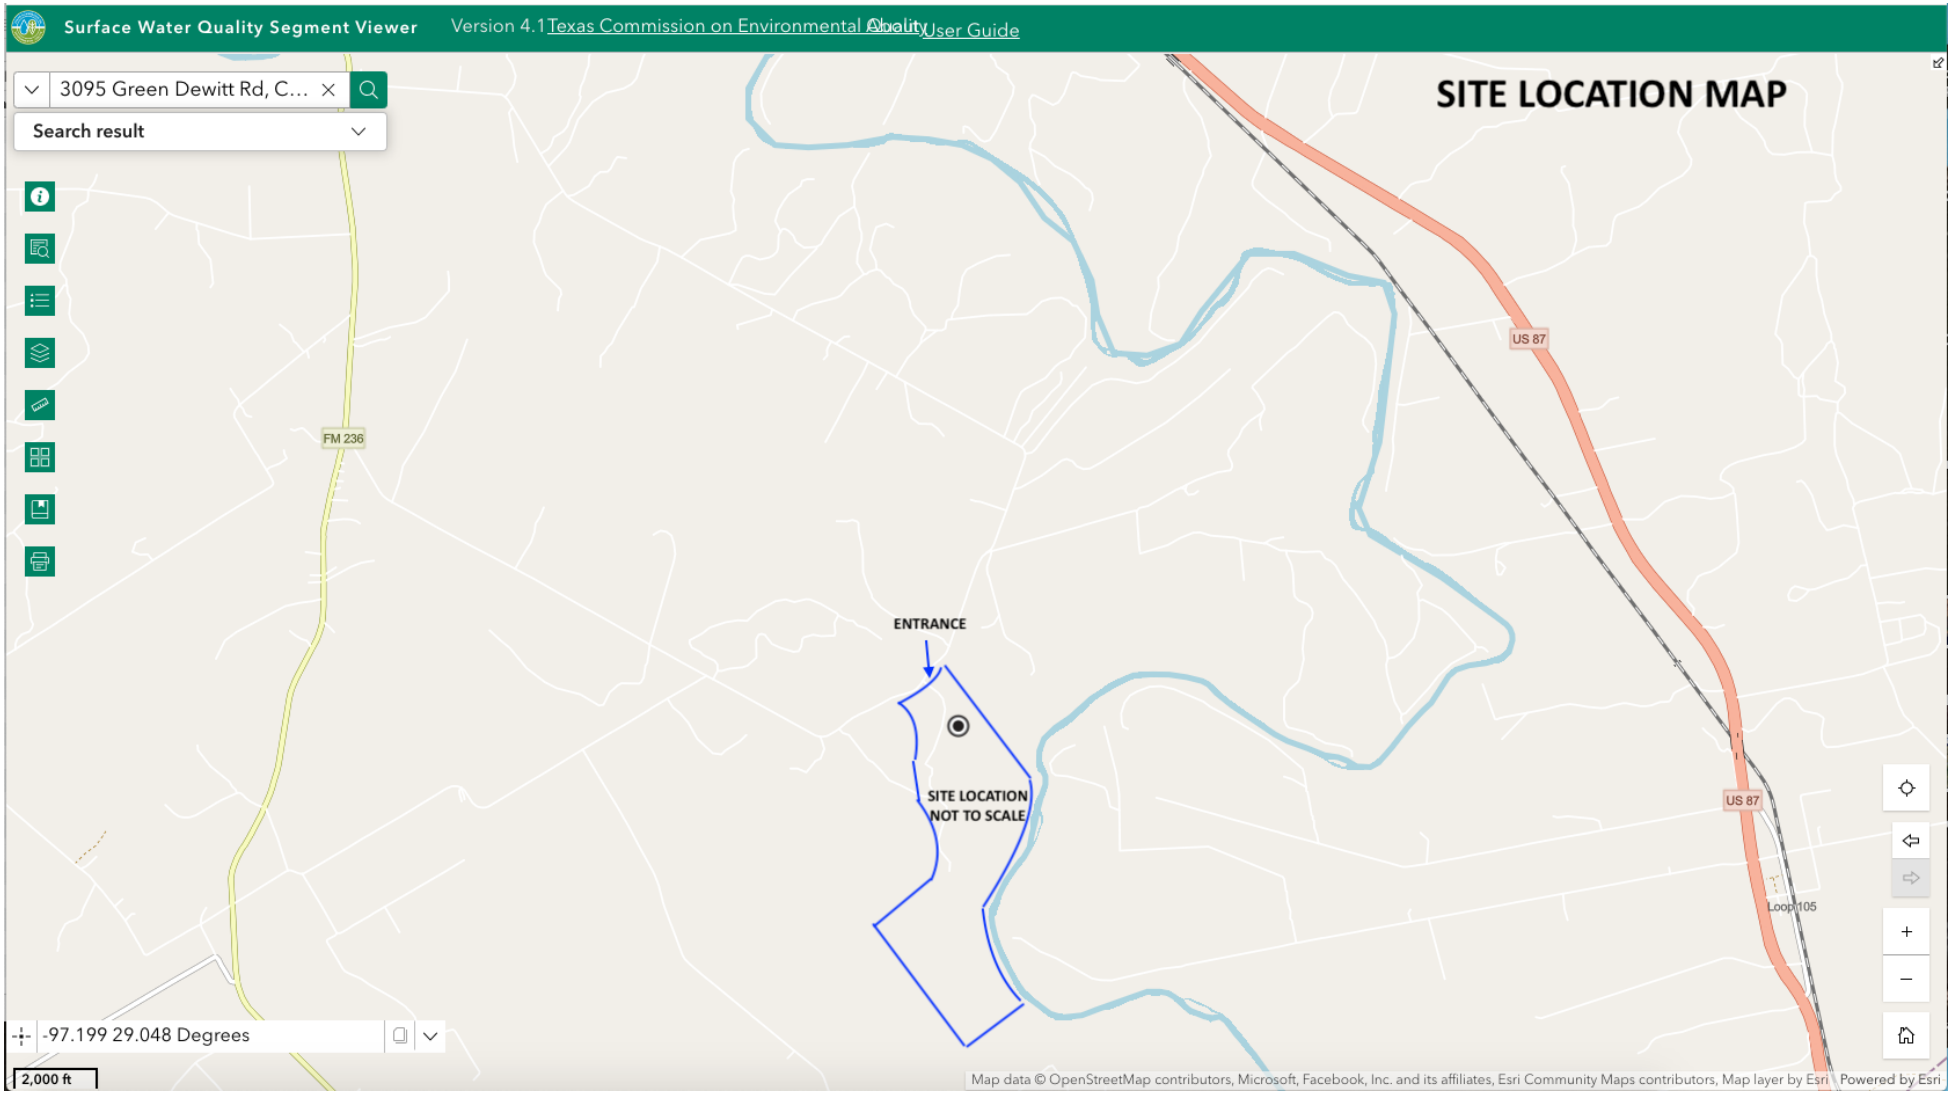

Most Standard Permits require registration with the commission's Office of Permitting, Remediation, and Registration in Austin. The facilities and/or changes to facilities can be registered by completing a Form PI-1S, "Registration for Air Standard Permit." This checklist should accompany the registration form to expedite any registration review.

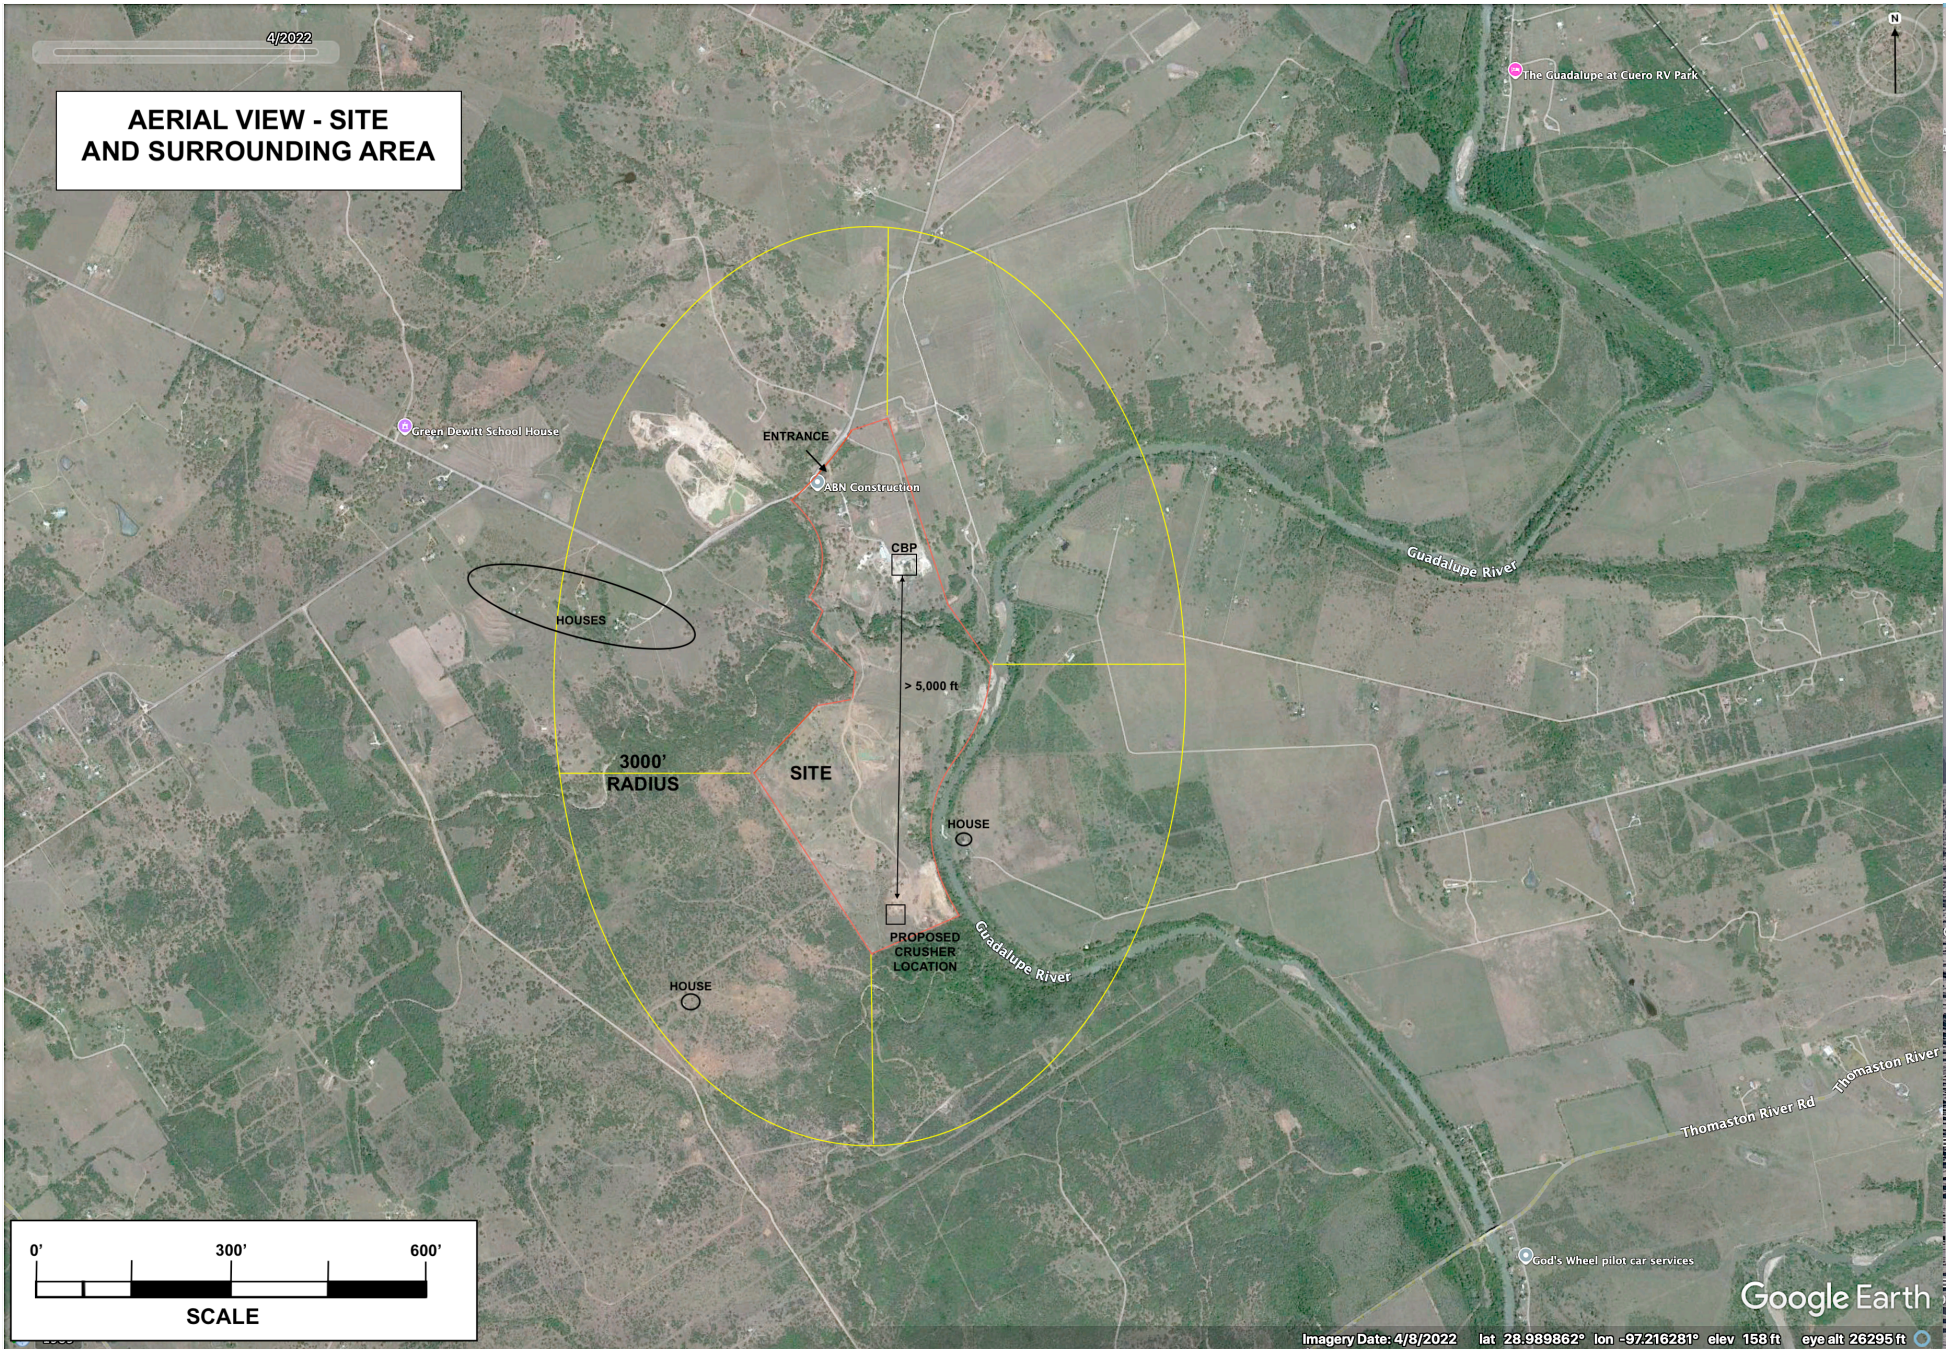

CHECK THE MOST APPROPRIATE ANSWERS AND FILL IN THE REQUESTED INFORMATION		
Rule	**Questions/Description**	**Response**
116.610(a)(1)	Are there net emissions increases associated with this registration?	☒ YES ☐ NO
	If "YES," will net emission increases of air contaminants from the project, other than those for which a National Ambient Air Quality Standard (NAAQS) has been established, meet the emission limits of § 106.261 or § 106.262?	☐ YES ☐ NO **N/A**
	If "NO," does the specific standard permit exempt emissions from this limit?	☐ YES ☐ NO
Attach emissions summary and calculations:		
116.610(a)(3)	Do any of the Title 40 Code of Federal Regulations Part (CFR) 60, New Source Performance Standards apply to this registration?	☒ YES ☐ NO
If "YES," list subparts:	Subpart A and OOO	
116.610 (a)(4)	Do any Hazardous Air Pollutant requirements apply to this registration?	☐ YES ☒ NO
If "YES," list subparts		
116.610 (a)(5)	Do any maximum achievable control technology (MACT) standards as listed under 40 CFR Part 63 or Chapter 113, Subchapter C (National Emissions Standard for Hazardous Air for Source Categories) apply to this registration?	☐ YES ☒ NO
If "YES," list subparts:		
116.610(a)(6)	Will additional emission allowances under Chapter 101, Subchapter H, Division 3, Emissions Banking and Trading, need to be obtained following this registration?	☐ YES ☒ NO
116.611(a)(1-6)	Is the following documentation included with this registration:	☐ YES ☐ NO
	Emissions calculations including the basis of the calculations?	☒ YES ☐ NO
	Quantification of all emission increases and/or decreases associated with this project?	☒ YES ☐ NO
	Sufficient information demonstrating that this project does not trigger PSD or NNSR review?	☒ YES ☐ NO
	Description of efforts to minimize collateral emissions increases associated with this project?	☒ YES ☐ NO
	Process descriptions including related processes?	☒ YES ☐ NO
	Description of any equipment being installed?	☒ YES ☐ NO

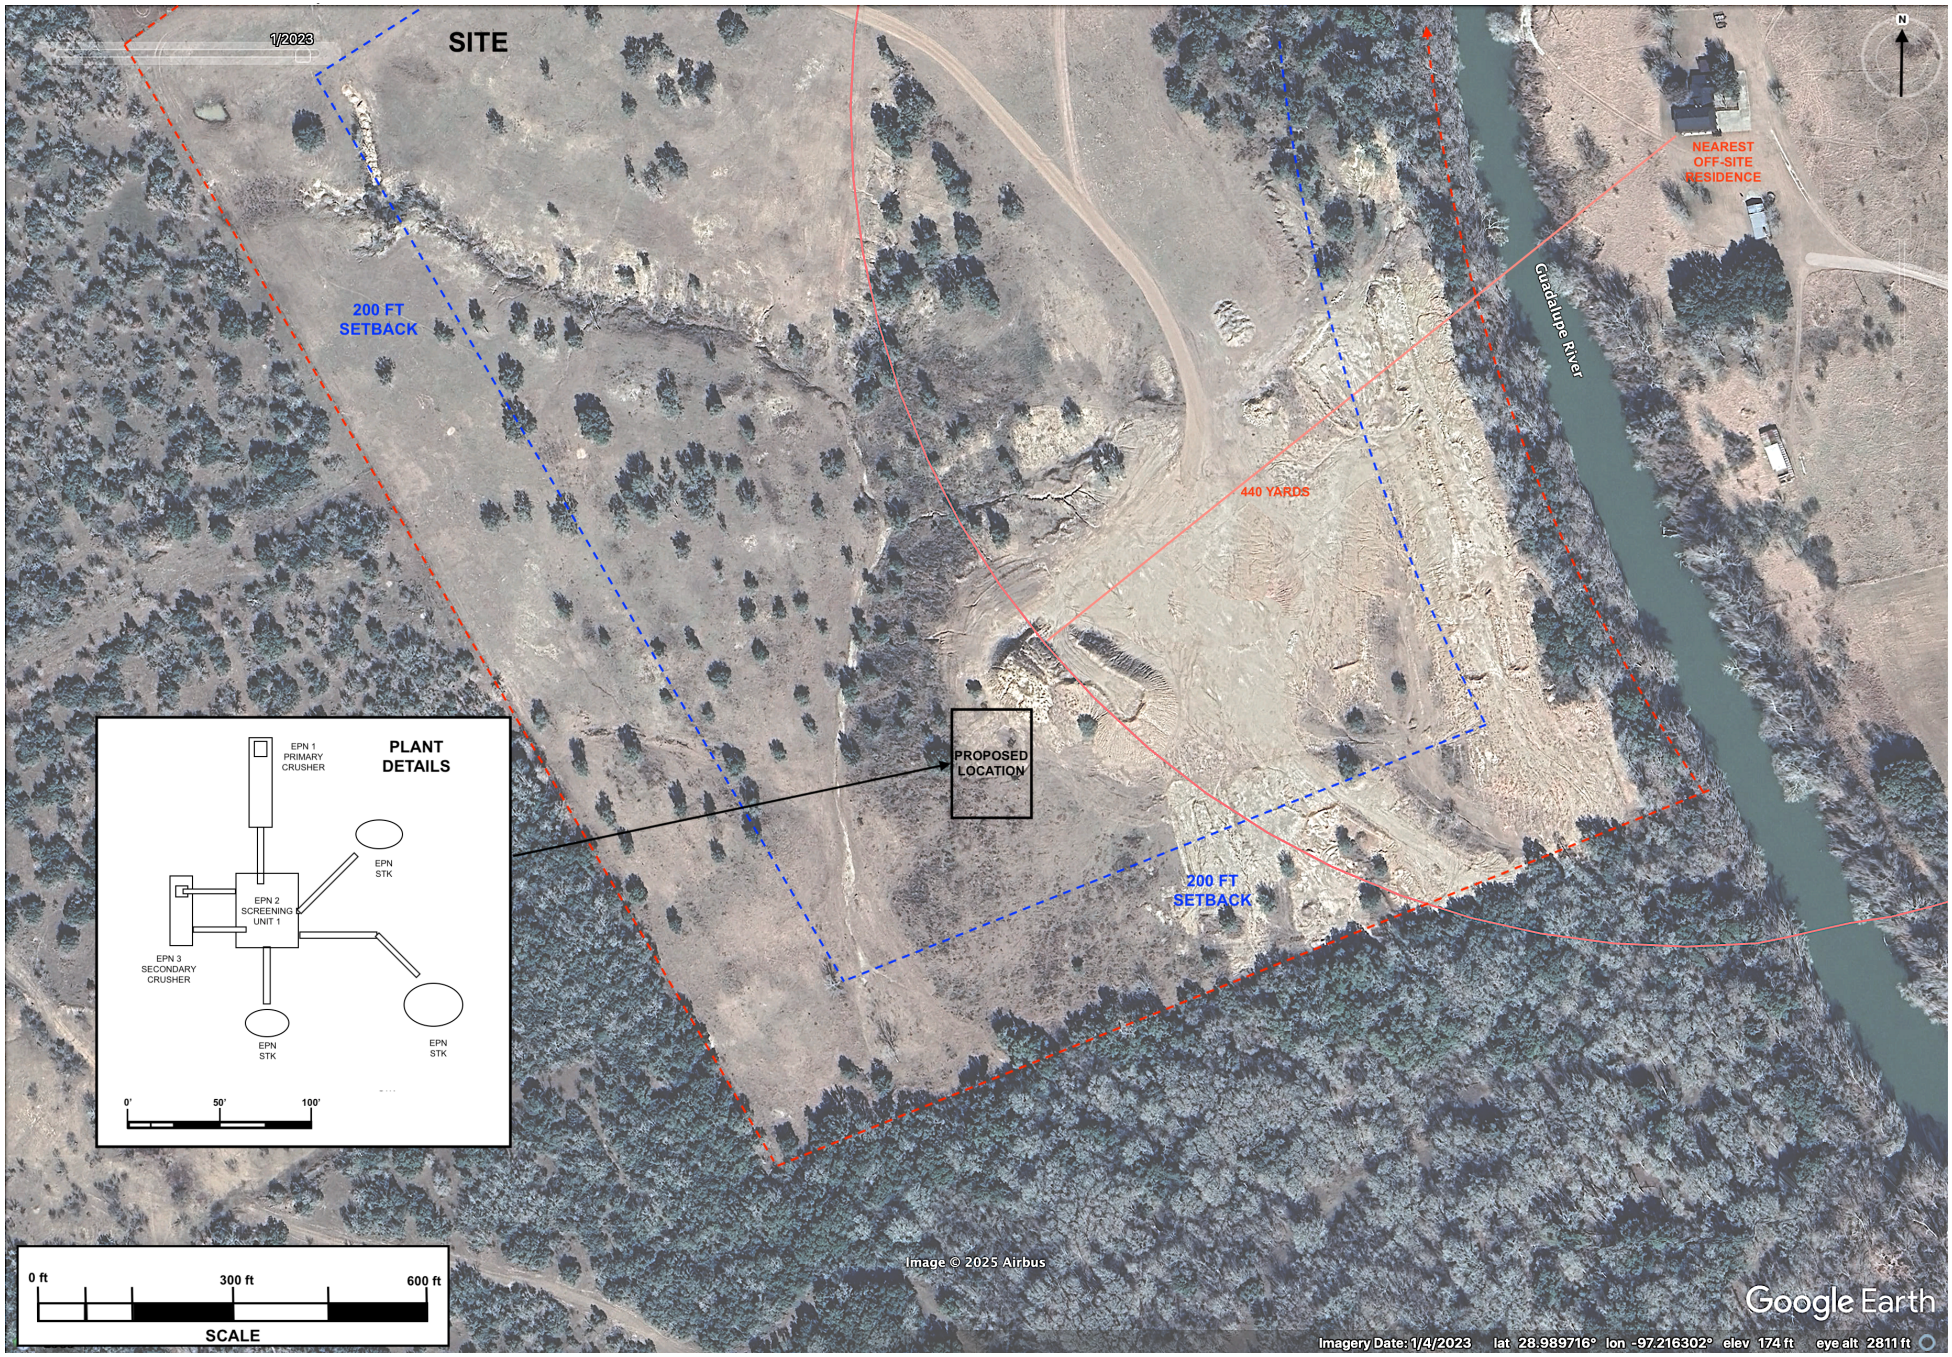

Texas Commission on Environmental Quality
Air Quality Standard Permits
General Requirements Checklist
Title 30 Texas Administrative Code §§116.610-116.615

Rule	Question/Description	Response
116.614	Are the required fee and a copy of the check or money order provided with the application?	☑ YES ☐ NO
116.615(1)	Will emissions from the facility comply with all applicable rules and regulations of the commission adopted under Texas Health and Safety Code, Chapter 382, and with the intent of the Texas Clean Air Act?	☑ YES ☐ NO
116.615(2)	Do you understand that all representations with regard to construction plans, operating procedures, and maximum emission rates in this registration become conditions upon which the facility will be constructed and operated?	☑ YES ☐ NO
116.615(3)	Do you understand that all changes authorized by this registration need to be incorporated into the facility's permit if the facility is currently permitted under §116.110 (relating to Applicability)?	☑ YES ☐ NO
List all related permit numbers:		
None		
116.615(9)617(e)(1)	Will all air pollution emission capture and abatement equipment be maintained in good working order?	☑ YES ☐ NO
116.615(10)	Will the facility comply with all applicable rules and regulations of the TCEQ, the Texas Health and Safety Code, Chapter 382, and the Texas Clean Air Act?	☑ YES ☐ NO

ABN Construction, LLC
Process Description / Flow Diagram

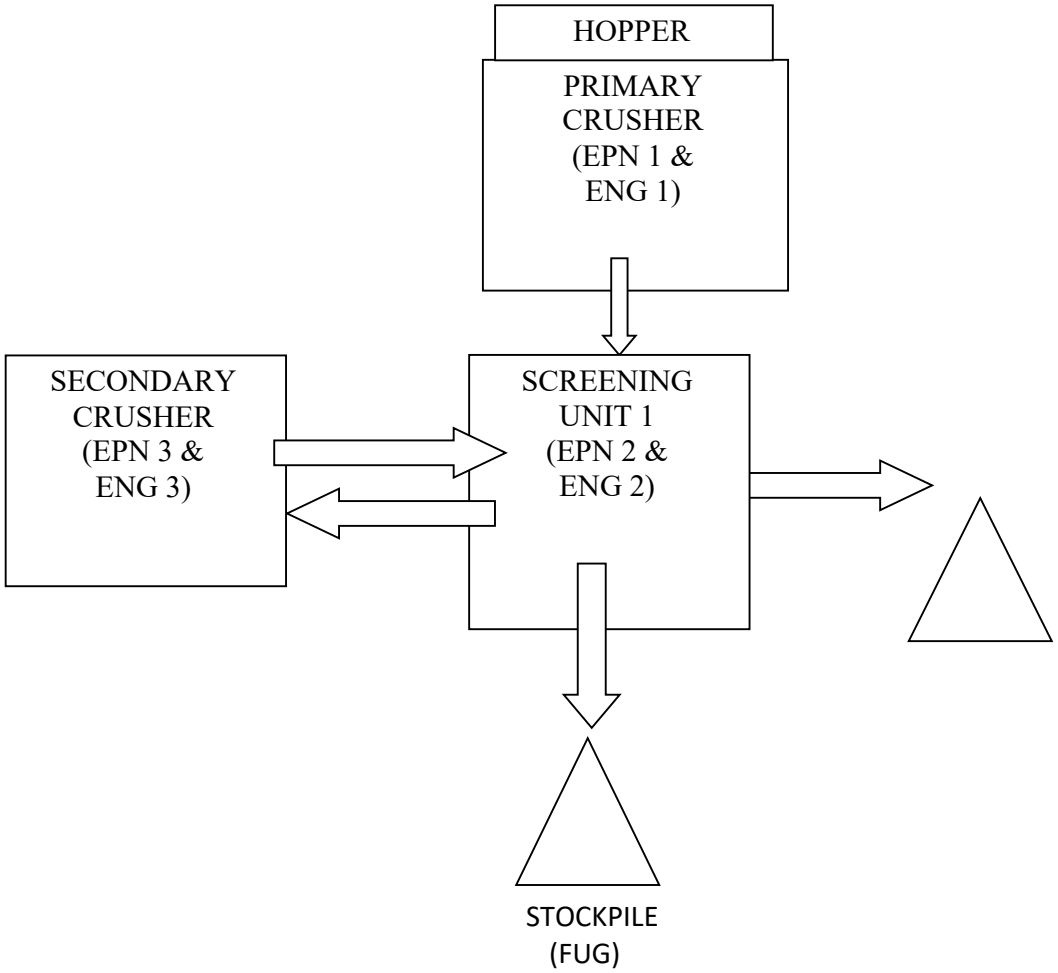

Crushing Facility Operation:

Material is front end loaded into the primary crusher hopper (EPN #1 and ENG #1). From the primary crusher, the material will be conveyed to the screening unit (EPN #2 and ENG #2). From the screening unit, the oversized material will be conveyed to the secondary crusher (EPN #3 and ENG #3) in a closed loop system. From screening unit 1, sized material will be stockpiled (EPN STK). From the stockpile, material will be loaded into trucks and moved off site.

Water will be used to control dust as necessary from all emission points including stockpiles. The facilities are be powered by individual diesel engines. Table 29s for the engines have been included in this application.

Process Flow Diagram

Proposed facility:

Texas Commission on Environment Quality

Table 17
Rock Crushers

Please Complete the Following							
Maximum operating schedule:	10	hours/day	6	days/week	44	weeks/year	
Does the facility operate at night?	***NOT TO EXCEED 2640 HOURS PER YEAR***					☐ YES ☒ NO	
Maximum Plant Production Rates:							
☒ Primary Crusher	Type: Impactor		200	tons/hour	528,000	tons/year	
☒ Secondary Crusher(s)	Type: Cone		200	tons/hour	528,000	tons/year	
☐ Tertiary Crusher(s)	Type:			tons/hour		tons/year	
The Following Pieces of Equipment will be Controlled as Shown:							
Feed Hoppers:	☐ None	☒ Water Spray	☐ Suction to Baghouse	☐ Other:_____			
All Belt Transfer Points:	☐ None	☒ Water Spray	☐ Suction to Baghouse	☐ Other:_____			
Inlet of all Crushers:	☐ None	☒ Water Spray	☐ Suction to Baghouse	☐ Other:_____			
Outlet of all Crushers:	☐ None	☒ Water Spray	☐ Suction to Baghouse	☐ Other:_____			
All Shaker Screens:	☐ None	☒ Water Spray	☐ Suction to Baghouse	☐ Other:_____			
If Water Sprays are used, Provide the Following Data:							
Water Flow Rate (gpm): Avg 30 GPM							
Water Pressure at the Nozzle (psi): 15 - 20							
Number of Nozzles at each location: 3 - 5							
If baghouse is used, attach a Table 11 "Fabric Filters."							
Average material moisture content (%): 5%							
Maximum acreage covered by stockpiles (acres): ~ 10							
Stockpiles have the following controls:	☐ None	☒ Water	☐ Chemical				
In-plant roads will be:	☐ Paved and Vacuumed	☐ Paved and Swept	☐ Oiled				
☒ Sprinkled with Water and/or Chemicals	☐ Other:_____

242 bkW (325 bhp) @ 2200 rpm

	Metric	English
General Engine		
Power Rating	242 kW	325 hp
Number of Cylinders	6	
Bore	115 mm	4.5 in
Stroke	149 mm	5.9 in
Displacement	9.3 L	568.0 cu in.
Compression Ratio	17.0 : 1	

RATING DEFINITIONS AND CONDITIONS

IND-B RATING: For service where power and/or speed are cyclic (time at full load not to exceed 80%).

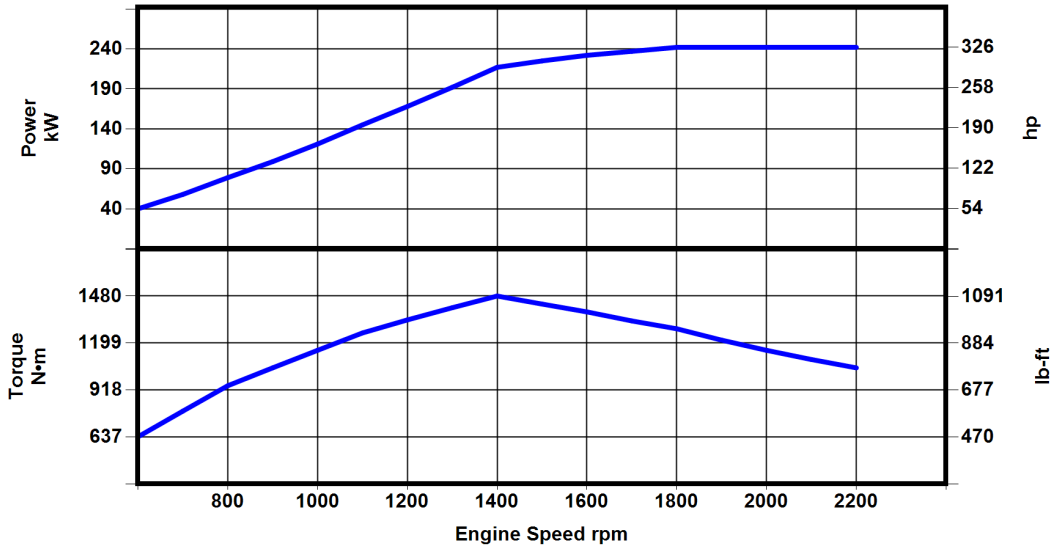

Diesel Engines — up to 7.1 liter All rating conditions are based on ISO/TR14396, inlet air standard conditions with a total barometric pressure of 100 kPa (29.5 in Hg), with a vapor pressure of 1 kPa (.295 in Hg), and 25°C (77°F). Performance measured using fuel to EPA specifications in 40 CFR Part 1065 and EU specifications in Directive 97/68/EC with a density of 0.845-0.850 kg/L @ 15°C (59°F) and fuel inlet temperature 40°C (104°F).

Diesel Engines — greater than 7.1 liter All rating conditions are based on SAE J1995, inlet air standard conditions of 99 kPa (29.31 in Hg) dry barometer and 25°C (77°F) temperature. Performance measured using a standard fuel with fuel gravity of 35° API having a lower heating value of 42,780 kJ/kg (18,390 btu/lb) when used at 29°C (84.2°F) with a density of 838.9 g/L.

Features

- Mechanical control
- Identical major hook-up points
- New options including multi-vee belt
- Auxiliary drive capability — SAE A PTO, SAE B PTO

Benefits

- Choice of naturally aspirated, turbocharged, and turbocharged-aftercooled models
- Minimum impact to engine bay installation
- Installation and noise suppression costs reduced
- Maintained fuel economy
- Improved power and torque matching
- Faster diagnostics

Abbreviations used:

ATAAC.....Air-to-Air Aftercooled
NA.....Naturally Aspirated
T.....Turbocharged
TA.....Turbocharged-Aftercooled

Unless noted, ratings conform with EPA (U.S.) Tier 3, EU Stage IIIA emission standards.
*Rating conforms with EU Stage IIIA emission standards only.

All subparagraphs of Texas Commission on Environmental Quality, Regulation VI, Rule 116.111 for construction permits will be addressed to illustrate the feasibility of granting the permit for ABN Construction, LLC

COMPLIANCE WITH TCEQ REGULATION VI, RULE 116.111(a)(2)

TCEQ Regulation VI, Rule 116.111(a)(2)(A)(i) states: *"The emissions from the proposed facility will comply with all rules and regulations of the TCEQ and with the intent of the Texas Clean Air Act, including protection of the health and physical property of the public."*

TCEQ Regulation VI, Rule 116.111(a)(2)(A)(ii) states: *"For issuance of a permit for construction or modification of any facility within 3,000 feet of an elementary, junior high/middle, or senior high school, the commission shall consider any possible adverse short-term or long-term side effects that an air contaminant or nuisance odor from the facility may have on the individuals attending the school(s)."*

Regulation D, IH, IV, V, VII, and XII as they relate to the subject facility are detailed below:

- Reg. II - The proposed facility is subject to the Control of Air Pollution from Sulfur Dioxide (S02) requirements of 30 TAC Chapter 112 because the diesel engine / generator set at the site has the potential to emit S02. However, based on previous worst case model results for diesel engines / generator sets associated with rock crushers, the S02 emissions from the diesel engine / generator set will not exceed a net ground level concentration of 0.4 ppm at the property line as indicated in Chapter 112.3.

- Reg. lII - The proposed facility is not subject to the Hazardous Air Pollutant requirements of 30 TAC Chapter 113 because the facility's emissions do not meet the definition of Hazardous Air Pollutants.

- Reg. IV - The proposed facility is not subject to the Control of Air Pollution from Motor Vehicles as required in 30 TAC Chapter 114 because the facility does not meet the definition of a motor vehicle.

- Reg. V - The proposed facility is not subject to the Control of Air Pollution from Volatile Organic Compounds (VOCs) requirements of 30 TAC Chapter 115 because the diesel engine / generator set at the site has the potential to emit VOCs; however, the diesel engine / generator set does not relate to any of the Subchapters of Chapter 115.

- Reg. VII - The proposed facility is not subject to the Control of Air Pollution from Nitrogen Compounds requirements of 30 TAC Chapter 117 because the facility does not relate to acid manufacturing, the facility is not a major source of air contaminants, and the facility is not located in the Houston/Galveston ozone non-attainment area.

- Reg. XII - The proposed facility is not subject to the Federal Operating Permits Program as required in 30 TAC Chapter 122 because the subject facility's emissions level does not trigger an FOP.

Compliance with the Rules and Regulations of the TCEQ

This application is being submitted in accordance with Chapter 111 pertaining to *Control of Air Pollution from Visible Emissions and Particulate Matter.* Emission calculations in this application are based on the maximum hourly and annual throughput rates. ABN Construction, LLC will comply with the applicable rules of Chapter 111.

The facility is subject to parts of Regulations VI and VIII as detailed below.

This application is being submitted in accordance with Regulation VI (Rule 116) pertaining to *Control of Air Pollution by Permits for New Construction or Modification.* Specific details regarding Regulation VI are noted later in this document.

This application is being submitted in accordance with Regulation VIII (Rule 118) pertaining to *Control of Air Pollution Episodes.* The following air contaminants are subject to Rule 118: Sulfur Dioxide (SO2), Inhalable Particulate Matter (PM10/PM 2.5), Carbon Monoxide (CO), Ozone, and Nitrogen Oxide (NOx). These air contaminants as listed in Chapter 118 may contribute to a Level 1 or Level 2 Air Pollution Episode as determined by the TCEQ. The proposed facility emits PM10/PM2.5, SO2, CO, and NOx. Should an Air Pollution Episode be declared by the TCEQ, this facility will comply with rules of Chapter 118.

Compliance with the Intent of the Texas **Clean Air Act (TCAA)**

The subject facility will operate in compliance with the intent of the TCAA and will not adversely affect the health and physical property of the general public.

Construction within 3,000 Feet of a School

There are no schools located within 3,000 feet of the facility. The operation of the facility is not expected to result in any short-term or long-term side effects or nuisance odors affecting any individual attending a school facility.

TCEQ Regulation VI, Rule 116.111(a)(2)(B) states: *"Measurement of Emissions. The proposed facility will have provisions for measuring the emission of significant air contaminants as determined by the executive director. This may include the installation of sampling ports on exhaust stacks and construction of sampling platforms in accordance with guidelines in the "Texas Natural Resource Conservation Commission (TNRCC) Sampling Procedures Manual."*

ABN Construction, LLC will keep records on site that indicate the amount of material processed at the facility on a daily and annual basis. The emissions from this facility can be calculated from these records.

Upon request of the TCEQ or the executive director, the holder of this permit shall perform high volume air sampling for ground level concentrations of particulate matter less than 10 um in diameter (PM10). The tests shall be performed during normal operation of the facilities and shall be performed in accordance with the appropriate EPA test method.

TCEQ Regulation VI, Rule 116.111(a)(2)(C) states: *"Best available control technology (BACT). The proposed facility will utilize BACT, with consideration given to the technical practicability and economic reasonableness of reducing or eliminating the emissions from the facility."*

BACT will be used by ABN Construction, LLC to control emissions. A review of reasonable and practical pollution control equipment is listed following this section.

TCEQ Regulation VI Rule 116.111(a)(2)(D) states: *"New Source Performance Standards (NSPS). The emissions from the proposed facility will meet the requirements of any applicable NSPS as listed under Title 40 Code of Federal Regulations (CFR) Part 60, promulgated by the EPA under FCAA, §111, as amended."*

The crushing facility is subject to NSPS Subparts A and OOO. Visible emission testing will be performed as necessary in accordance with 40 CFR Part 60 Subparts A and OOO.

TCEQ Regulation VI, Rule 116.111(a)(2)(E) states: *"National Emission Standards for Hazardous Air Pollutants (NESHAP). The emissions from the proposed facility will meet the requirements of any applicable NESHAP, as listed under 40 CFR Part 61, promulgated by EPA under FCAA, §112, as amended."*

There are no applicable NESHAP requirements listed in 40 CFR Part 61, promulgated by the EPA under FCAA§112, as amended, for this facility.

TCEQ Regulation VI, Rule 116.111(a)(2)(F) states: *"NESHAP for source categories. The emissions from the proposed facility will meet the requirements of any applicable maximum achievable control technology standard as listed under 40 CFR Part 63, promulgated by the EPA under FCAA, 112 or as listed under Chapter 113, Subchapter C of this title (relating to National Emissions Standards for Hazardous Air Pollutants for Source Categories (FCAA 112, 40 CFR 63)."*

These rules do not apply to this facility since it is not a major source of Hazardous Air Pollutants.

TCEQ Regulation VI, Rule 116.111(a)(2)(G) states: *"Performance demonstration. The proposed facility will achieve the performance specified in the permit application. The applicant may be required to submit additional engineering data after a permit has been issued in order to demonstrate further that the proposed facility will*

achieve the performance specified in the permit application. In addition, dispersion modeling, monitoring, or stack testing may be required."

ABN Construction, LLC will meet the performance criteria represented in this application. Additional information will be submitted, if requested by the Executive Director, to further demonstrate that the proposed facility will achieve the performance specified in the application.

TCEQ Regulation VI, Rule 116.111(a)(2)(H) states: *"Non-attainment review. If the proposed facility is located in a non-attainment area, it shall comply with all applicable requirements in this chapter concerning non-attainment review."*

The proposed facility is portable and could conceivably relocate to a non-attainment area. However, the facility's maximum annual permitted emissions will not exceed the major source threshold in any listed non-attainment area of the State of Texas at the time of tins application submittal.

TCEQ Regulation VI, Rule 116.111(a)(2)(I) states: *"Prevention of Significant Deterioration (PSD) review. If the proposed facility is located in an attainment area, it shall comply with all applicable requirements in this chapter concerning PSD review."*

The facility is not a major source of air contaminant emissions and does not contribute to significant deterioration of air quality; therefore, no PSD application is required.

TCEQ Regulation VI, Rule 116.111(a)(2)(J) states: *"Air dispersion modeling. Computerized air dispersion modeling may be required by the executive director to determine air quality impacts from a proposed new facility or source modification. In determining whether to issue, or in conducting a review of, a permit application for a shipbuilding or ship repair operation, the commission will not require and may not consider air dispersion modeling results predicting ambient concentrations of non-criteria air contaminants over coastal waters of the state. The commission shall determine compliance with noncriteria ambient air contaminant standards and guidelines at land-based off-property locations."*

If required, the facility will undertake computerized air dispersion modeling to document compliance.

TCEQ Regulation VI, Rule 116.111(a)(2)(K) states: *"Hazardous air pollutants. Affected sources (as defined in §116.15(1) of this title (relating to Section 112(g) Definitions) for hazardous air pollutants shall comply with all applicable requirements under Subchapter C of this chapter (relating to Hazardous Air Pollutants: Regulations Governing Constructed or Reconstructed Major Sources (FCAA, §112(g), 40 CFR Part 63)."*

The subject facility is not a source for hazardous air pollutants; therefore this rule does not apply to this facility.

TCEQ Regulation VI, Rule 116.111(a)(2)(L) states: *"Mass cap and trade allowances. If subject to Chapter 101, Subchapter H, Division 3, of this title (relating to Mass Emissions Cap and Trade Program), the proposed facility,*

group of facilities, or account must obtain allowances to operate."

The subject facility is not subject to Chapter 101, Subchapter H, Division 3 because this facility is not proposed to be located in the Houston/Galveston ozone non-attainment area as defined in § 101.1.

EMISSION CONTROLS AND BACT SELECTION:

ABN Construction, LLC will utilize Best Available Control Technology (BACT) at the proposed facility. Permanently mounted spray bars shall be installed at the inlet/outlet of all crushers, at all shaker screens, and at all material transfer points and used as necessary to maintain compliance with TCEQ rules and regulations. In-plant roads and traffic areas, active work areas, and stockpiles shall be sprinkled with water and/or environmentally-sensitive chemicals as necessary to minimize dust emissions.

ABN Construction, LLC
BACT / MSS / PSD

Best Available Control Technology:

Permanently mounted spray bars will be installed at the inlet and outlet of all crushers, at all shaker screens, and at all material transfer points and used as necessary to maintain compliance with all TCEQ rules and regulations.

Roads and stockpiles will be treated with water or chemical suppressant as necessary to reduce emissions.

Maintenance, Start-Up, Shut Down:

Based on the nature of the operation of the facility is such that there are no additional emissions generated. The conservatism of the emission calculations covers emissions expected during MSS.

Prevention of Significant Deterioration (PSD):

The site/facility is a minor source and will remain a minor source authorized under the Standard Permit for Permanent Rock Crushers.

ABN Construction, LLC
Recordkeeping

ABN Construction, LLC will keep the following records pursuant to requirement (1)(M):

- Daily hours of operation
- Throughput per hour
- Road and work area cleaning and dust suppression log; and
- Stockpile dust suppression log.

Written records will be kept for a 24-month rolling period along with any records of maintenance performed on the facility and/or the engines and will be kept on site.

These records will be made available at the request of any personnel from the TCEQ or any air pollution control program having jurisdiction.

Certification

The electronic signature below indicates that the Responsible Official has knowledge of the facts herein set forth and that the same are true, accurate, and complete to the best of my knowledge and belief. By this signature, the maximum emission rates listed on this certification reflect the maximum anticipated emissions due to the operation of this facility and all representations in this certification of emissions are conditions upon which the facilities and sources will operate. It is understood that it is unlawful to vary from these representations unless the certification is first revised. The signature certifies that to the best of the Responsible Officials knowledge and belief, the project will satisfy the conditions and limitations of the indicated exemption or permit by rule and the facility will operated in compliance with all regulations of the Texas Commission on Environmental Quality and with Federal U.S. Environmental Protection Agency regulations governing air pollution. The signature below certifies that, based on information and belief formed after reasonable inquiry, the statements and information above and contained in the attached document(s) are true, accurate, and complete. If you questions on how to fill out this form or about air quality permits. Please call (512) 239-1250. Individuals are entitled to request and review their personal information that the agency gathers on its forms.

1. I am Bryan A Nethery, the owner of the STEERS account ER052064.
2. I have the authority to sign this data on behalf of the applicant named above.
3. I have personally examined the foregoing and am familiar with its content and the content of any attachments, and based upon my personal knowledge and/or inquiry of any individual responsible for information contained herein, that this information is true, accurate, and complete.
4. I further certify that I have not violated any term in my TCEQ STEERS participation agreement and that I have no reason to believe that the confidentiality or use of my password has been compromised at any time.
5. I understand that use of my password constitutes an electronic signature legally equivalent to my written signature.
6. I also understand that the attestations of fact contained herein pertain to the implementation, oversight and enforcement of a state and/or federal environmental program and must be true and complete to the best of my knowledge.
7. I am aware that criminal penalties may be imposed for statements or omissions that I know or have reason to believe are untrue or misleading.
8. I am knowingly and intentionally signing Standard Permit New Registration.
9. My signature indicates that I am in agreement with the information on this form, and authorize its submittal to the TCEQ.
