Texas Waste No.: Begin entering waste code in column 58. Foreign generators should use "OUTS" as sequence numbers for eight digit code.

EPA Hazardous Waste Numbers: These ONLY apply to Hazardous Waste and can be found in 40 Code of Federal Regulations Part 261. If more than four waste numbers apply, use the four that best describes the waste.

Handling (System Type) Codes: For reporting purposes, the Handling code selected should be for the final disposition of the waste, even if the waste is stored prior to disposal.
