

Biography: Zandra Castaneda

Water Quality
Texas Commission on Environmental Quality

Current Position

As a Pretreatment Coordinator on the Stormwater and Pretreatment Team, Mrs. Castaneda provides oversight activities that include conducting pretreatment program audits, making industrial user categorical determinations, reviewing publicly owned treatment works (POTW) permit applications for appropriate pretreatment requirements, and reviewing pretreatment program substantial modifications.

Prior Experience and Education

Prior to joining the TCEQ in 2013, she held an academic advisor position for the undergraduate biology department at Texas A&M University – Corpus Christi. She also held a graduate intern position with U.S. Fish and Wildlife, conducting environmental site assessments.

Zandra obtained both her B.S. in Biology and her M.P.A. in Environmental Sciences from Texas A&M University – Corpus Christi.
