

Biography: Chris Loft

Total Maximum Daily Load Team
Water Quality Planning Division
Texas Commission on Environmental Quality

Current Position

Chris Loft is the Total Maximum Daily Load (TMDL) Program, Team Leader.

Education and Prior Experience

Mr. Loft received his Bachelor of Science degree in Watershed Science from Colorado State University.

He spent eight years as an environmental scientist in the consulting field conducting water quality and fisheries studies prior to joining the TCEQ as a nonpoint source pollution project specialist in 1996. He previously served as the Resource Protection Team Leader in the Water Rights Permitting & Availability Section and now currently serves as the Team Leader for the TMDL program in the Water Quality Planning Division.
