

Biography: Jack Higginbotham

Office of Compliance and Enforcement
Field Ops Division - Region 13 San Antonio
Texas Commission on Environmental Quality

Current Position

Senior Investigator for the Stormwater program in the TCEQ Region 13 - San Antonio Office.

Education and Prior Experience

Jack Higginbotham graduated from Texas State University with a Bachelor of Science degree in Water Studies from Texas State University in December 2008. He began working for the TCEQ in November 2009 as a Project Manager in the Nonpoint Source (NPS) Program for the Water Quality Planning Division at TCEQ Central Office. In February 2013, Jack joined the TCEQ Region 13- San Antonio Office as an Environmental Investigator.

As a Project Manager, Jack collaborated with US EPA in regards to 319(h) grant funding for potential NPS Program projects; provided technical assistance as well as grant solicitation at various watershed stakeholder meetings across the State; and ensured projects finished on time with the appropriate expenditure of funds. As an Environmental Investigator, Jack specializes in investigations and technical assistance pertaining to the Texas Pollutant Discharge Elimination System (TPDES) Construction General Permit (CGP); TPDES Multi-Sector General Permit (MSGP); and the TPDES Phase I and II Municipal Separate Storm Sewer System (MS4) Permits.
