Emergency Preparedness Plan (Texas Water Code, §13.1395 and §13.1396)

Drought Update

Alex Hinz –

Public Drinking Water - Alex.Hinz@tceq.texas.gov (512) 239-4720

Drought Information: <http://www.tceq.texas.gov/response/drought>

Water Utilities Status

On **July 26, 2013**, there were **1,056** public water systems (PWSs) asking customers to follow outdoor water use restrictions. Of these systems, **726** are asking customers to follow a mandatory watering schedule and **330** are asking customers to follow a voluntary watering schedule. Seasonal forecasts continue to predict the drought to persist or intensify in many areas of the state. Increasing demands are resulting in more water systems implementing the water-rationing stages of their Drought Contingency Plans. The following is a list of the current **41** PWSs that have prohibited all outside watering:

Elston Johnson - Public Drinking Water Technical Specialist
