San Antonio Bay Day to be Celebrated on Sept. 29

SABP to hold Public and Stakeholder Meeting on Aug. 21

The public is invited to participate in a variety of water and shore side activities to celebrate the inaugural **San Antonio Bay Day** in Seadrift TX on Sept. 29, 2012.

The San Antonio Bay Partnership is organizing the event to raise awareness of its efforts to protect, restore and enhance the environmental resources and human uses of the San Antonio Bay/Guadalupe Estuary System. The event coincides with National Estuaries Day 2012 and is being coordinated with other coastal organizations in the region.

SA Bay Day activities will be held from 7:30 am to 2 pm:

- **Explore the Delta** -- Guided tours to the Guadalupe Delta for kayakers, canoers, stand-up paddlers, sailboarders, and small sailboats (7:30 am – noon; registration required)
 - Groups will be organized according to skill levels
 - Motorized boats and jet skis are welcomed as escorts
- **Birding/Nature Hike** along beachfront (tentative)
- **Informational booths and exhibits** – Seadrift Pavilion (9:00 am to 2 pm)
- **Entertainment** (noon – 1 pm)
- **Lunch** (11 am – 1 pm)

Paddlers, sailboarders and sailors will be charged a \$20 activity fee, will receive a T-shirt and lunch, and must register by emailing James Dodson (jdodson27@gmail.com). Registration and sponsorship forms also will be available for download on the San Antonio Bay Partnership website: <http://www.sabaypartnership.org/san-antonio-bay-day-2012> (*participants are encouraged to enlist sponsors/donors for the activity*). Forms may be mailed to: San Antonio Bay Partnership, 405 W. Power Ave., Victoria, TX 77901

Paddlers, sailboarders and sailors must bring their own equipment.

About the San Antonio Bay Partnership

The San Antonio Bay Partnership was formed to develop and implement a management plan for San Antonio Bay and the Guadalupe Estuary through public and stakeholder involvement and scientific research. The plan will be a comprehensive, science-based “blueprint” for protecting, restoring and enhancing both the ecological resources and the human uses of the San Antonio Bay/Guadalupe Estuary System.
