APPLICATION FOR AMENDMENT TO  
CERTIFICATES OF ADJUDICATION NO. 23-141, NO. 23-139, NO. 23-172  
AND NO. 23-145, AS AMENDED  
AND TO COMBINE WITH CERTIFICATE OF  
ADJUDICATION NO. 23-240, AS AMENDED

Pursuant to the Texas Water Code and the Commission's Rules and Regulations, North Alamo Water Supply Corporation, a water supply corporation of Hidalgo County, Texas, (hereinafter called Applicant), hereby requests the Commission to change the ownership, place of use and point of diversion of the right to divert up to a maximum of 1,292.1675 acres of water per annum from the Rio Grande, said water being Class "B" irrigation use water rights, evidenced by, and being a part of those water rights originally evidenced by the following Certificates of Adjudication ("COA"):

**COA No. 23-141 - 591.667 acre feet - Troy Investment Company No. 6, L.P.;**

**COA No. 23-145 - 388.000 acre feet - Troy Investment Company No. 6, L.P.**

**COA No. 23-139 - 62.500 acre feet - Troy Investment Company No. 7, L.P.; and**

**COA No. 23-172 - 250.000 acre feet - Troy Investment Company No. 7, L.P. , as**

amended, and recognized under Amendments to said Certificates of Adjudication, as amended, collectively hereinafter referred to as the "Water Rights," and as grounds for this Application, Applicant would state as follows:

1. Troy Investment Company No. 6, L.P., a Texas limited partnership, and Troy Investment Company No. 7, a Texas limited partnership, (collectively hereinafter "Seller") have conveyed the 1,292.1675 acre feet Class "B" irrigation use water rights currently held under the above-described Certificates of Adjudication, as amended, to North Alamo Water Supply Corporation by one (1) Conveyance of Water Rights. A copy of said Conveyance is or will be filed with the Commission.

2. The existing purpose of the Water Rights is for irrigation purposes. Applicant will utilize the allocated water under the Water Rights for municipal purposes and, therefore, a change in purpose of use is required.

3. (a) The existing place of use of said Water Rights of Applicant is in Hidalgo, Cameron and Willacy Counties, Texas.

(b) The proposed new place of use of the Water Rights is within the service area of Applicant in Hidalgo, Cameron and Willacy Counties, Texas, as it presently exists, or as it is hereafter changed.

4. The proposed new diversion point is the diversion point of Applicant maintained in association with Certificate of Adjudication No. 23-240, as amended, owned by North Alamo Water Supply Corporation. The location of this diversion is well known to the Rio Grande Water Master and is described in the Commission records.

5. Applicant requests that the Commission issue an Order severing the Water Rights from the other water rights evidenced by Certificates of Adjudication No. 23-141, No. 23-139, No. 23-172 and No. 23-145, as amended, and combining the Water Rights with other water rights owned by the North Alamo Water Supply Corporation pursuant to Certificate of Adjudication No. 23-240, as amended.

6. Applicant states that the change in ownership, point of diversion, and place of use, as requested herein, does not contemplate an increased consumptive use of water or rate of diversion which would harm any other existing water rights holders on the Rio Grande below Amistad and Falcon Reservoirs; and will not prejudice any other water rights holder on the Rio Grande below Amistad Reservoir. Current Commission rules require in cases of change in purpose of use from irrigation to municipal on the Lower Rio Grande, that a conversion factor be applied which results

in Applicant' s right of diversion being limited to 516.867 acre-feet of water per annum for municipal purposes with a municipal priority of Allocation on the Rio Grande. Applicant does not object to the application of such existing rule, but does so without prejudice to any rights it may have in the event such rule is amended, changed or eliminated in the future

7. Applicant understands that the Commission may require additional information in regard to the requested Amendment of the Water Rights before considering this Application. Applicant is submitting the required fees herewith.

8. The address of North Alamo Water Supply Corporation is:

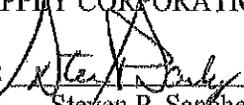

North Alamo Water Supply Corporation  
420 S. Doolittle Road  
Edinburg, Texas 78542

Tax I.D.: 74-1595319

WHEREFORE, Applicant respectfully requests that the Commission approve this Application and issue an Amended Certificate of Adjudication No. 23-240, as amended, and such other appropriate orders as are necessary changing the ownership, place of use and point of diversion of the Water Rights as requested above and to combine same with the other water rights of North Alamo Water Supply Corporation under Certificate of Adjudication No. 23-240.

Dated this 7 day of December, 2016.
