## Texas Natural Resource Conservation Commission

### Extension of Comment Period (Chapter 70)

In the January 29, 1999, issue of the *Texas Register* (24 TexReg 498), the Texas Natural Resource Conservation Commission (commission) published proposed amendments to 30 TAC §§70.2, 70.5, 70.7-70.11, 70.51, 70.101, 70.102, and 70.104-70.106, concerning Enforcement. The preamble to the proposed amendments stated that a public hearing regarding the proposal would be held March 1, 1999, and that the commission must receive all written comments by 5:00 p.m., March 1, 1999. However, in the published proposed version of §70.10(c) (24 TexReg 501), part of the language which the commission intended to propose as new was not underlined. The commission published a correction in the February 19, 1999, issue of the *Texas Register* (24 TexReg 1277) in the In Addition section to correctly identify the new language. Due to a publication error, the §70.10(c) amendment language in the February 19, 1999, Correction of Error was not correctly identified. Therefore, the commission has extended the deadline for receipt of written comments to 5:00 p.m., April 5, 1999, and has published an additional correction in the March 5, 1999, issue of the *Texas Register*.

Comments may be submitted to Lisa Martin, Office of Policy and Regulatory Development, MC 205, P.O. Box 13087, Austin, Texas 78711-3087 or faxed to (512) 239-4808. All comments should reference Rule Log Number 98053-070-AD. For further information, please contact Brian Christian, Intergovernmental Relations, (512) 239-1760.

### Notice of Intent to Delete

The executive director of the Texas Natural Resource Conservation Commission (TNRCC) by this notice is issuing a public notice of intent to delete (delist) a facility from the state registry (state Superfund registry) of sites which may constitute an imminent and substantial endangerment to public health and safety or the environment due to a release or threatened release of hazardous substances into the environment.

The site proposed for deletion is the Newton Wood Preserving Company state Superfund site that was originally proposed in the *Texas Register* for listing on the state Superfund registry on May 29, 1998 (23 TexReg 5831). The Newton Wood Preserving Company site is located on Highway 87, two miles south of the City of Newton, Newton County, Texas.

The executive director has determined that this site has been accepted into the TNRCC Voluntary Cleanup Program and is therefore eligible for deletion from the list of sites proposed for the state Superfund registry in accordance with 30 TAC §335.344(c).

In accordance with 30 TAC §335.344(b), the TNRCC shall, upon requests filed with or initiated by the executive director, hold a public meeting to receive comment on this intended deletion. This meeting is not considered a contested case hearing within the meaning of Texas Government Code, Chapter 2001. Requests for a public meeting must

be filed with the executive director before 5:00 p.m., April 12, 1999. If a public meeting is requested, at least 30 days prior to the date set for the meeting, notice shall be provided by first class mail to all Potentially Responsible Parties and other interested persons, and by publication in a newspaper of general circulation in the county where the facility is located. The person submitting the request shall bear the cost of the publication of the notice. The executive director does not intend to initiate a public meeting.

If a public meeting challenging this determination of eligibility for deletion by the executive director is not requested by a Potentially Responsible Party or any interested person(s) before the designated date, the Newton Wood Preserving Company state Superfund site will be deleted from the state Superfund registry.

All inquiries regarding the Newton Wood Preserving Company state Superfund site or requests for a public meeting should be directed to Mr. Dean Perkins, TNRCC, Remediation Division, MC-143, P. O. Box 13087, Austin, TX 78711-3087; telephone (800) 633-9363 (within Texas only) or (512) 239-2482. A portion of the record for this site, including documents pertinent to the executive director's determination, is available for review during regular business hours at the Newton Public Library, 200 East High, Newton, Texas (409) 379-8300. Copies of the complete public file may be obtained during regular business hours at the TNRCC, Central Records, Building D, North Entrance, Room 190, 12100 Park 35 Circle, Austin, Texas 78753, telephone (800) 633-9363 or (512) 239-2920. Photocopying of file information is subject to payment of a fee.

## Texas Parks and Wildlife Department

### Request for Proposals

The Texas Parks and Wildlife Department (TPWD) announces a request for proposals for recreational trail projects to be funded through the Federal National Recreational Trails Fund (NRTF). The funds come from a portion of the federal tax on motor fuel consumed by non-highway recreational vehicles. Even though the tax is collected from motorized trail users, the act dictates spending on non-motorized trails as well. These funds will be available through a reimbursement grant program for trail development, renovation and maintenance. Eligible projects ranging from \$4,000 to \$125,000 will be reimbursed up to 80% of the project cost if selected by the Texas Parks and Wildlife Commission for funding. Government entities, not for profit organizations and private organizations are eligible to be sponsors of trail projects. All funded projects must be maintained and open to the general public.

Application forms and program guidelines are available from Texas Parks and Wildlife by writing the Department at 4200 Smith School Road, Austin, Texas 78744, attention Land Conservation Program or by calling (512) 389-4868. Completed applications must be received or postmarked by June 1, 1999. Contact person is Andy Goldbloom at (512) 389-4737.
