South Midland WCR 112 Location (Midland County)

This map was generated by the Remediation Division of theTexas Commission on Environmental Quality. It is intended for illustrative or informational purposes only, and is not suitable for legal, engineering, or survey purposes. This map does not represent an on-the-ground survey conducted by or under the supervision of a registered professional land surveyor. In cases where property boundaries are shown, it only represents their approximate relative location. No claims are made to the accuracy or completeness of the data or to its suitability for a particular use. For more information concerning this map, contact the Remediation Division at 800-633-9363.

Legend

Well Sampling Results

Total Chromium
April-May 2010

- Total Chromium > MCL
- Total Chromium < MCL
- Total Chromium Below 0.002 Laboratory Method Detection Limit

Filters

- TCEQ filter installed *

MCL = Maximum Contaminant Level
This is EPA's maximum concentration of Total Chromium allowed in Drinking Water.

* Currently, all drinking water wells with Total Chromium > MCL have filtration systems installed.
