TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

Protecting Texas by Reducing and Preventing Pollution

July 2, 2013

Re: Suspensions of Permitted State Surface Water Diversions in the Brazos River Basin

Dear County Extension Agent:

By letter dated April 5, 2013, the Texas Commission on Environmental Quality (TCEQ) notified water right holders that certain diversions of state surface water may be suspended or adjusted due to drought conditions. The TCEQ has received a priority call on surface water from water right holders in the Brazos River Basin. In accordance with the Texas Water Code (TWC), §5.013(a)(1), the TCEQ is responsible for enforcing water rights, which requires protecting senior and superior surface water rights, and must take action in response to the priority call.

With no immediate relief forecasted, the **TCEQ is now suspending or adjusting certain diversions in the Brazos River Basin below Lake Possum Kingdom**. Suspended or adjusted water rights include water right permits with a priority date of **February 15, 1942 and later** and term water right permits as indicated in the enclosed order. Temporary water right permits have also been suspended. Exempt domestic and livestock diversions are not subject to this suspension.

Multiple program areas at the TCEQ are actively engaged in the oversight of available water supplies statewide. We are working with municipalities that face potential shortfalls of available drinking water. There is a common understanding in all of our programmatic efforts that our decisions have profound impacts on the people of Texas. We are weighing our decisions judiciously, paying particular attention to those potential impacts.

Additionally, the TCEQ is soliciting your help in disseminating appropriate information to affected parties in the Brazos River Basin communities. If this drought cycle worsens, it will be very important that all residents living and working in the Brazos River Basin are well informed. General information about the drought may be found on the TCEQ's website at: <http://www.tceq.texas.gov/response/drought>. This site will be updated as the drought continues. We have also activated the TCEQ Drought Hotline at 1-800-447-2827.

A hearing before the Commission on whether to affirm, modify, or set aside the suspension order is scheduled for consideration at the Commission Agenda on July 26, 2013, at 9:30 a.m. at 12100 Park 35 Circle, Building E, Room 201S, Austin, Texas 78753. A copy of the suspension order is enclosed for your reference.

Should you have questions or need additional information, please contact L'Oreal W. Stepney, P.E., Deputy Director, Office of Water at 512-239-1321.

Sincerely,

A handwritten signature in black ink, appearing to read "Zak Covar".
