

For Termination of the Tropical Storm Imelda Suspension of Rules

Dear Toby Baker, Executive Director, Texas Commission on Environmental Quality:

The Office of the Governor is in receipt of the Texas Commission on Environmental Quality's (TCEQ) request to terminate the temporary suspension of all or parts of the following rule chapters in 30 Texas Administrative Code (as detailed in the TCEQ's requests for suspension of rules dated September 19, 2019): 101, 106, 111, 112, 113, 114, 115, 116, 117, 122, 285, 293, 304, 305, 307, 309, 312, 314, 321, 327, 330, 331, 334, and 335. The TCEQ now asserts that the suspension of the rules referenced above is no longer necessary in light of progress made in the Tropical Storm Imelda disaster response and recovery effort.

Based on the TCEQ's assertions and our review, the Office of the Governor hereby grants the TCEQ's request to terminate the temporary suspension of the rules referenced above. This termination is effective immediately.

Thank you,

Jordan Rodriguez
Policy Advisor
Office of the Governor
