Re: *IDDE Outfall Database*

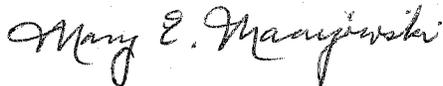

Dear Mr. Johnson:

Thank you for your interest in the Illicit Discharge Detection and Elimination Outfall Database. I have enclosed a CD that includes the database and the associated file structure. Please install the entire file structure as it exists on the disc. I've also included a second disc with a copy of the database including sample data.

The user name and password needed for full functionality are ADMIN and ADMIN. You will need to be logged in to add any data or make any other changes. Also, please make sure that you uncheck "read-only" in the file property attributes. The User Guide may be found in the Documentation directory or under the Additional Information module of the database main menu. We hope to have a tutorial available on the Ohio EPA website early next month.

In the meantime, if you have any questions or if you should need additional information, please contact me at (216) 881-6600, ext. 6466.

Sincerely,

Mary E. Maciejowski,
Environmental Planner II
